The 12.30 from Croydon FROG BOOKS

Hercule Poirot is about to tuck into a very traditional English supper with his old friend Bonnington when a lone diner sparks his interest. Like clockwork, the man has eaten at the restaurant on Thursdays and Tuesdays for the last ten years, but no one on the staff knows his name. When "Old Father Time," as they have fondly nicknamed him, suddenly stops coming, Poirot believes that he might have picked up the one essential clue that could shed light on this mysterious man. Could what Old Father Time ordered as his final meal provide the key?

Neville Canton was about as average as any man can be. He had a mediocre job, a pleasant wife, an on-going feud with his sister, and an average case of cancer that took his life. But death wasn't the end of his problems and even average people have to learn to overcome. Now trapped in a cloud between the living and the dead, he must find his way to the afterlife. With the help of a spiritual guide he navigates through seven challenges; seven tasks to sever his final connections to the mortal world. If he fails, he forfeits his eternity and the consequences may be worse than death.

A Novel Standard Ebooks

From seat No.9, Hercule Poirot was ideally placed to observe his fellow air passengers. Over to his right sat a pretty young woman, clearly infatuated with the man opposite; ahead, in seat No.13, sat a Countess with a poorly-concealed cocaine habit; across the gangway in seat No.8, a detective writer was being troubled by an aggressive wasp. What Poirot did not yet realize was that behind him, in seat No.2, sat the slumped, lifeless body of a woman. To mark the 80th anniversary of Hercule Poirot's first appearance, and to celebrate his renewed fortunes as a primetime television star, this title in a collection of facsimile first editions is the perfect way to experience Agatha Christie. Reproducing the original typesetting and format of the first edition from the Christie family's own archive, this book sports the original cover which has been painstakingly restored to its original glory.

Then Malcolm is outed as a zombie and, along with his teenage son Ben, flees the police. When Malcolm is captured, he is only able to pass on one message before his dead brain degrades completely: 'He killed me.' As Ben remains missing, the police find decades-old corpses hidden near Malcolm's house, and Vivia begins to realise there's a lot more at stake than just a possible zompocalypse...

Hermitage Among the Clouds tells the story of the fourteenth century Princess Amazing Jewel, the daughter of one of Vietnam's greatest historical Zen master kings. This beautifully written story expresses the suffering caused by war and conflict, the transformative potential of a commitment to practicing peace and building reconciliation, and the simple beauty of a spiritual life. Thich Nhat Hanh gives us a window into Vietnam's past and at the same time, offers compelling insights about contemporary Southeast Asia and the world.

Lord Edgware Dies Turtleback

In Agatha Christie's classic, Three Act Tragedy, the normally unflappable Hercule Poirot faces his most baffling investigation: the seemingly motiveless murder of the thirteenth guest at dinner party, who choked to death on a cocktail containing not a trace of poison. Sir Charles Cartwright should have known better than to allow thirteen guests to sit down for dinner. For at the end of the evening one of them is dead—choked by a cocktail that contained no trace of poison. Predictable, says Hercule Poirot, the great detective. But entirely unpredictable is that he can find absolutely no motive for murder....

By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon. Praise for *Cloud Atlas* "[David] Mitchell is, clearly, a genius. He writes as though at the helm of some perpetual dream machine, can evidently do anything, and his ambition is written in magma across this novel's every page."—*The New York Times Book Review* "One of those how-the-holy-hell-did-he-do-it? modern classics that no doubt is—and should be—read by any student of contemporary literature."—*Dave Eggers* "Wildly entertaining . . . a head rush, both action-packed and chillingly ruminative."—*People* "The novel as series of nested dolls or Chinese boxes, a puzzle-book, and yet—not just dazzling, amusing, or clever but heartbreaking and passionate, too. I've never read anything quite like it, and I'm grateful to have lived, for a while, in all its many worlds."—*Michael Chabon* "*Cloud Atlas* ought to make [Mitchell] famous on both sides of the Atlantic as a writer whose fearlessness is matched by his talent."—*The Washington Post Book World* "Thrilling . . . One of the biggest joys in *Cloud Atlas* is watching Mitchell sashay from genre to genre without a hitch in his dance step."—*Boston Sunday Globe* "Grand and elaborate . . . [Mitchell] creates a world and language at once foreign and strange, yet strikingly familiar and intimate."—*Los Angeles Times*

Nov. 15, 1958. An arctic-like blizzard roars out of nowhere across the mild desert terrain of southern Arizona. Boy scouts are feared caught out in the open, perhaps buried under the three to seven feet of snowfall in the mountains. Cowboys urge their horses through the chest high snow, hikers push

through monster snowdrifts, and helicopters hover at dangerous altitudes in their struggle to find the boys before they die.

So, here we go, on what David calls an "ill-planned journey"—straight into a fight, that left a trail of human remains in the woods behind the school bus stop. Hard to believe?—Not according to FBI agents who asked to read advanced copy of this book. Mystery crime fiction written in the Golden Age of Murder "The degree of suspense Crofts achieves by showing the growing obsession and planning is worthy of Hitchcock." —*Booklist* STARRED review We begin with a body. Andrew Crowther, a wealthy retired manufacturer, is found dead in his seat on the 12.30 flight from Croydon to Paris. Rather less orthodox is the ensuing flashback in which we live with the killer at every stage, from the first thoughts of murder to the strains and stresses of living with its execution. Seen from the criminal's perspective, a mild-mannered Inspector by the name of French is simply another character who needs to be dealt with. This is an unconventional yet gripping story of intrigue, betrayal, obsession, justification and self-delusion. And will the killer get away with it?
