SAMIR GABRIELLE

Belize BRILL

The ultimate guidebook for extraordinary adventures. This guide brings travelers up to date on the dizzying diversity of this tiny territory. Packed with practical advice and inspiration, this new guide facilitates free-spirited journeys from reef to rainforest, waterfall to winding jungle trails.

World Englishes Volumes I-III Set University of West Indies Press

While vacationing in Belize, a trio of American archeologists tour the ancient Mayan site of Caracol. While they are there archeologists at the site make a discovery which draws the trio into a search for a lost city deep in the jungles of Belize. In their search they find a priceless treasure and become the instruments by which the revenge of a long dead Mayan king is exacted.

Time and History on a Colonial Frontier Cambridge Scholars Publishing

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

The Political Culture of Interwar Italy University of West Indies Press

The theme of lost childhood remains constant in this short fictional narrative of rebellious Annie John's coming of age on the small island of Antigua

Contemporary Social and Political Aspects of the Cyprus Problem University of Chicago Press
 This volume brings together Mexican and Belize research as well as Spanish-language and English-language research on the Chetumal Bay Maya site.

The Maya Diaspora Studies in Latin America

In her examination of the culture of Italian fascism, Mabel Berezin focuses on how Mussolini's regime consciously constructed a nonliberal public sphere to support its political aims. Fascism stresses form over content, she believes, and the regime tried to build its political support through the careful construction and manipulation of public spectacles or rituals such as parades, commemoration ceremonies, and holiday festivities. The fascists believed they could rely on the motivating power of spectacle, and experiential symbols. In contrast with the liberal democratic notion of separable public and private selves, Italian fascism attempted to merge the public and private selves in political spectacles, creating communities of feeling in public piazzas. Such communities were only temporary, Berezin explains, and fascist identity was only formed to the extent that it could be articulated in a language of pre-existing cultural identities. In the Italian case, those identities meant the popular culture of Roman Catholicism and the cult of motherhood. Berezin hypothesizes that at particular historical moments certain social groups which perceive the division of public and private self as untenable on cultural grounds will gain political ascendancy. Her hypothesis opens a new perspective on how fascism works.

Slavery and the British Country House Springer Science & Business Media

This book develops a comparative study on violence in Jamaica, El Salvador, and Belize based on a theoretical approach, extensive field research, and in-depth empirical research. It combines the

Caribbean and Central America into a single comparative research that explores the historical (from the conquista onwards) as well as contemporary causes of violence in these societies. The volume focuses on forms of violence such as gang violence, police violence, every day forms of violence, vigilantism, and organized crime. The analysis provides a theoretical perspective that bridges political economy as well as cultural approaches in violence research. As such, it will be of interest to readers studying development, violence, political, Central American, and Caribbean studies.
Crowns of Glory, Tears of Blood 13 chapters of a history of Belize
 Material Encounters and Indigenous Transformations in the Early Colonial Americas
 Archaeological Case Studies

Moon Belize BRILL

Material Encounters and Indigenous Transformations in the Early Colonial Americas brings together 15 archaeological case studies that offer new perspectives on colonial period interactions in the Caribbean and surrounding areas through a specific focus on material culture and indigenous agency.

Moon Travel

Twenty-four examples of societal collapse help develop a new theory to account for their breakdown. Detailed studies of the Roman, Mayan and Cacoan collapses clarify the processes of disintegration.

The Annual Survey of Political Rights & Civil Liberties Langenscheidt Publishing Group

The social history of Belize is marked by conflict; between British settlers and the Maya; between masters and slaves; between capitalists and workers; and between the colonial administration and the Belizean people. This collection of essays, analyzes the most import topics during three centuries of colonialism.

The Last Colonial Massacre The Countryman Press

The #1 New York Times bestselling author and "inspirational fiction superstar" (Publishers Weekly) presents this high stakes love story of danger, passion, and faith. She was a child caught in a riptide in the Caribbean Sea. He was a teenager from the East Coast on vacation with his family. He dove in to save her, and that single terrifying moment changed both of their lives forever. Ten years later Jack Ryder is a daring undercover agent with the FBI and Eliza Lawrence still lives on that pristine island. She's an untainted princess in a kingdom of darkness and evil, on the brink of a forced marriage with a dangerous neighboring drug lord, a marriage arranged by her father. This time when Jack and Eliza meet, there's a connection neither of them can explain. Both of their lives are on the line, and once again, the stakes are deadly high. Can they join forces in a complicated and dangerous mission, pretending to have a breathtaking love...without really falling? Sometimes miracles happen not once, but twice...along a distant shore.

Investing in Cultural Diversity and Intercultural Dialogue HarperCollins

The Chinese migration to the Latin America/Caribbean region is an understudied dimension of the Asian American experience. There are three distinct periods in the history of this migration: the early colonial period (pre-19th century), when the profitable three-century trade connection between Manila and Acapulco led to the first Asian migrations to Mexico and Peru; the classic migration period (19th to early twentieth centuries), marked by the coolie trade known to Chinese diaspora studies; and the renewed immigration of the late 20th century to the present. Written by specialists on the Chinese in Latin America and the Caribbean, this book tells the story of Asian migration to the Americas and contributes to a more comprehensive understanding of the Chinese in this important part of the world.

Current Developments in Anthropological Genetics Springer

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and

civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

A Distant Shore Apa Publications (UK) Limited

In today's world, the issue of Cyprus is notable for all the wrong reasons: because of the duration of the divisions in Cyprus itself between Greek-Cypriots and Turkish-Cypriots (formalized since 1983 by a disputed international border across the island); because of the involvement of Greece and Turkey, for which the "hyphenated" Cypriot communities form proxy battalions; and because of the failure of the United Nations' longstanding efforts to resolve the conflict. Much of the discussion in the book revolves around the difficulty of producing viable constitutional and civic arrangements in an.

Making the Fascist Self Walter de Gruyter GmbH & Co KG

While the previous two volumes in this series were based upon methodology, theory, and the relationship between ecology and population structure, this book can be viewed as an in-depth case study. The population genetics of a multitude of diverse groups geographically distributed throughout the world was examined in the first two volumes. In contrast, this volume focuses upon a single ethnic group, the Black Caribs (Garifuna) of Central America and St. Vincent Island, and explores the interrelationships among the ethnohistory, sociocultural characteristics, demography, morphology, and genetic structure of the group. This volume offers a broad and intensive treatment of the Black Caribs and their interactions with surrounding populations. My interest in the genetics of the Black Caribs was sparked by an accidental meeting in Amsterdam, Holland, in March 1975. A conversation with Nancie Gonzalez at the Applied Anthropology Meetings revealed the "truth-is-stranger-than-fiction" history of the Black Carib peoples of the Caribbean. This was a population with a small-sized founding group and a unique biological success story. Nancie Gonzalez was particularly interested in estimating the Carib Indian admixture in the contemporary Garifuna population. Given my previous experience in estimating Spanish and African admixture in the Tlaxcaltecan population (whose gene pool consisted predominantly of Indian alleles), a group that appeared to be primarily African with some Indian admixture was of great interest. Aside from the ethnohistorical interest, I believe that such a population may add considerably to our understanding of the inheritance of complex morphological traits.

The Ultimate Belize Bucket List is more than a compilation of exciting things to see and do in Central America's fastest growing tourism hotspot. Offering an insider glimpse into the nation's most coveted and awe-inspiring experiences, it goes beyond the clichés often presented in travel guidebooks and reveals the hidden gems that make this country particularly special. Get the secrets to taking your Belize adventure to the next level with local expert tips that will ensure your trip to this extraordinary destination is an unforgettable one.

101 Insider Tips on What to See and Do From the Nation's Top Travel Marketer Grant Jones

"An admirable contribution to the growing literature on Maya settlement research initiated by Gordon Willey in the Belize Valley in the 1950s."--Shirley B. Mock, University of Texas, San Antonio Over half a century ago, the late Gordon Willey began his research in the Belize Valley, and ten years later he published a synthesis of his data that is recognized today as a classic study of ancient Maya settlement patterns. This new volume looks at the abundant research that has taken place in the region since the 1950s (and includes a new retrospective chapter from Willey that was submitted shortly before his death in April, 2002). The Ancient Maya of the Belize Valley represents an attempt to present in one volume the extensive data from the diverse sites in this part of Mesoamerica, one of the richest archaeological areas in the Maya world. The collection provides a key to understanding the valley's ancient political and social organization by highlighting the interconnectedness of the region's settlements.

Guatemalan Roots, New American Lives Rowman & Littlefield

This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Freedom in the World 2007 Macmillan

Natural Remedies for Pest, Disease and Weed Control presents alternative solutions in the form of eco-friendly, natural remedies. Written by senior researchers and professionals with many years of experience from diverse fields in biopesticides, the book presents scientific information on novel plant families with pesticidal properties and their formulations. It also covers chapters on microbial pest control and control of weeds by allelopathic compounds. This book will be invaluable to plant pathologists, agrochemists, plant biochemists, botanists, environmental chemists and farmers, as well as undergraduate and postgraduate students. Details microbial biopesticides and other botanical derived pesticides and their formulation Contains case studies for major crops and plants Discusses phytochemicals of plant-derived essential oils
