The Dao De Jing exists on the border between poetry and philosophy, embracing both mythos and logos. Its poetic form can stand alone, but it is enriched when its timeless ideas are analyzed and explained through careful scholarship. For example: He who knows others is knowledgeable. He who knows

himself is wise. These words resemble Socrates' account of his own quest in Plato's Apology. Ancient philosophy, both in China and in Greece, places self-knowledge at the center of the search for wisdom. Contemporary philosophers are often misled about this way of thinking, because the self has been detached from external things and separated from nature and society. The wisdom of China and of Europe unites human existence and nature. © Agora Publications ©2015 Agora, New Internet Technologies (P)2015 Agora, New Internet Technologies

Anyone with an understanding of art in general and a knowledge, however slight, of Indian things, will, on being shown a work of Indian sculpture, unfailingly label it Indian. Differences in age and origin, however clearly marked to the discerning eye, when pointed out to the outsider, will be apprehended only with more or less difficulty. There is something so strong, and at the same time unique, in any Indian work of art that its 'Indianness' is felt first of all, and what it is, is seen only on second thought. How this Indianness is expressed in terms of the relationship between line, surface, volume and other elements of visualisation is dealt with in this book. There are permanent qualities throughout the fabric of Indian sculpture which are discussed in detail. These essential qualities, all interrelated and inseparable, contain within their compass the life of Indian plastic art. The book surveys the structure of Indian sculpture in its relevant aspects. The underlying and essential qualities are viewed in their permanency throughout the special conditions that the single monuments imply. Their outward connections, geographical and chronological, are seen to resolve themselves into ethical problems and those of the artistic process itself. While stylistic investigations are the basis of this book, Indian sculpture is dealt with as conditioned by the Indian craftsman. His consciousness makes him known to himself as a part of nature and his work in the form of this 'naturalism'. Its degree and aspects vary according to the levels of his consciousness.

"I need help." Those three words saved Grammy Award-winning singer Michelle Williams's life. After decades of sweeping her anxiety and depression under the rug—even during her years in the spotlight with *Destiny's Child*—Michelle found herself planning her own funeral. Realizing that she needed immediate help and could no longer battle her anxiety and depression alone, she checked herself into a treatment facility. When she came home, she was energized and determined to check in on a regular basis with herself, God, and others. Practical, engaging, and full of wisdom, *Checking In* helps us understand that building walls around our vulnerability can hinder our healing; we need to reject the lies of anxiety and depression and replace them with the truth of God's Word; joy can be found when we release toxic thought patterns; childhood wounds need to be healed; freedom can be found when we forgive ourselves and others; and a beautiful life comes from living honestly. An uplifting, behind-the-scenes look at one woman's path to healing, *Checking In* reminds you that you are not alone, and that God is not yet finished writing your story.

Indian Sculpture The Vaikunta Perumal Temple at Kanchipuram

One of the three great gods of Hinduism, Siva is a living god. The most sacred and most ancient book of India, The Rg Veda, evokes his presence in its hymns; Vedic myths, rituals, and even astronomy testify to his existence from the dawn of time. In a lively meditation on Siva--based on original Sanskrit texts, many translated here for the first time--Stella Kramrisch ponders the metaphysics, ontology, and myths of Siva from the Vedas and the Puranas. Who is Siva? Who is this god whose being comprises and transcends everything? From the dawn of creation, the Wild God, the Great Yogi, the sum of all opposites, has been guardian of the absolute. By retelling and interweaving the many myths that keep Siva alive in India today, Kramrisch reveals the paradoxes in Siva's nature and thus in the nature of consciousness itself.

Building a masterpiece explores some of the untold chapters in the long history of the Opera House's gestation, development and completion -- of individuals whose careers were made or broken by the Opera House, the companies whose reputations were secured through their association with the building, and the

pioneering construction methods, innovative technologies and methodologies developed to meet the demands of its unprecedented design and challenging construction. The workers who built the building, the politicians, architects and members of the public who championed it and its often beleaguered architect are discussed as is its current world status as a symbol of Australia. To coincide with the 40th anniversary of the opening of the Sydney Opera House, this new edition of Building a Masterpiece will include a new chapter on another little known and much misunderstood story: the architect who took over from Utzon and completed the project.
