The Black Hole War: My Battle with Stephen Hawking to Make the World Safe for Quantum Mechanics is a highly informative and entertaining book about a fundamental debate in

physics. Leonard Susskind, an innovative physicist and a father of string theory, gives a fast-moving, personal account of his clash with Stephen Hawking about whether black holes permanently remove information from the universe. The Black Hole War: My Battle with Stephen Hawking to Make ...Black Hole War: My Battle with Stephen Hawking to Make the World Safe for Quantum Mechanics is a 2008 popular science book by American theoretical physicist Leonard Susskind. The book covers the black hole information paradox, and the related scientific dispute between Stephen Hawking and Susskind. Susskind is known for his work on string theory and wrote a previous popular science book, The Cosmic Landscape, in 2005.
