*Installing and Configuring Windows Server
2012 R2 (70-410-R2) Course and Lab* John

Wiley & Sons

"The course 70-410: Installing and Configuring Windows Server 2012 R2 prepares the candidates for the Microsoft exam 70-410. In addition to that, the course covers a range of topics including system administration related functions, installing and configuring servers, configuring roles and features, configuring

Hyper-V, deploying and configuring core network services, installing and administering active directory, and creating and managing group policy. The course provides an excellent opportunity to get hands-on practice of installing and configuring Windows Server 2012 R2. This course is part one in a series of three courses that provides the skills and

knowledge necessary to implement a core Windows Server 2012 infrastructure in an existing enterprise environment."--

Resource description page.

MCSA 70-410 Createspace Independent Publishing Platform

Fully updated for Windows Server 2012 R2! Designed to help enterprise administrators develop real-world, job-role-specific skills - this Training Guide focuses on deploying and managing core infrastructure services in Windows Server 2012 R2. Build hands-on expertise through a series of lessons, exercises, and suggested practices - and help maximize your performance on the job. This Microsoft Training Guide: Provides in-depth, hands-on training you take at your own pace Focuses on job-role-specific expertise for deploying and managing core infrastructure services Creates a foundation of skills which, along with on-the-job experience, can be measured by Microsoft Certification exams such as 70-410 Topics include: Preparing for Windows Server 2012 R2 Deploying servers Server remote management New Windows PowerShell capabilities Deploying domain controllers Active Directory

administration Network administration Advanced networking capabilities

Exam 70-410 Pearson Education

"This course is designed for Information Technology (IT) professionals, who have Windows Server 2012 operating system knowledge and experience and want to validate the skills and knowledge necessary to implement the Windows Server 2012 core infrastructure services. This course is part one of a series of courses which validate the skills and knowledge necessary to implement a core Windows Server 2012 Infrastructure into an existing enterprise environment. This initial course will validate the initial implementation and configuration of the Windows Server 2012 core services, such as Active Directory and the networking services."--Resource description page.

on the exam the first time. The CD contains two free, complete practice exams. Includes Exclusive Offer for 70% Off Premium Edition eBook and Practice Test Don Poulton (A+, Network+, Security+, MCSA, MCSE) is an independent consultant who has worked with computers since the days of 80-column punch cards. He has consulted extensively with training providers, preparing study materials for Windows technologies. He has written or contributed to several Que titles, including Security+ Lab Manual, MCSA/MCSE 70-299 Exam Cram 2, MCTS 70-620 Exam Prep, and MCSA 70-687 Cert Guide: Configuring Microsoft Windows 8.1. David Camardella, an expert on deploying and administering Microsoft technologies, has served as technical reviewer on several previous Pearson Microsoft certification titles.

Exam Ref 70-740 Installation, Storage and Compute with Windows Server 2016
Pearson Education

** We have updated this book in Feb 2015

** By passing Exam 70-410: Installing and Configuring Windows Server 2012 which is intended to validate the initial implementation and configuration of the

Windows Server 2012 core services, one can become a Microsoft Certified Solutions Associate (MCSA) on Windows Server 2012, or proceed to taking other exams and earn the solution expert MCSE title. The topics covered by this exam are: Install and Configure Servers Configure Server Roles and Features Configure Hyper-V Deploy and Configure Core Network Services Install and Administer Active Directory Create and Manage Group Policy We give you knowledge information relevant to the exam specifications. To be able to succeed in the real exam, you'll need to apply your earned knowledge to the question scenarios. Many of the exam questions are written to be less straight forward. They tend to be framed within the context of short scenarios. The exam is not too difficult. However, coverage is very comprehensive - a wide range of topics are presented in the official topic lists. The exam does not ask you to answer hundreds of questions. In other words, only a small fraction of the official topics

will be presented. This ExamFOCUS book focuses on the more difficult topics that will likely make a difference in exam results. The book is NOT intended to guide you through every single official topic. You should therefore use this book together with other reference books for the best possible preparation outcome.

Exam Ref 70-410 Microsoft Press Prepare for Exam 70-417—and help demonstrate your real-world mastery of Windows Server 2012 core infrastructure services. Microsoft Exam 70-417 is an upgrade exam that is a composite of three standalone exams: 70-410, 70-411, and 70-412. Exam 70-417 validates skills related to the core technology features and functionality of Windows Server 2012, from the existing knowledge base of a Microsoft Certified Systems Administrator (MCSA) on Windows Server 2008. Exam Ref is organized by exam objectives and features challenging, what-if scenarios that focus on the critical skills and knowledge measured by the certification exam. When you pass Exam 70-417, you

complete the requirements for the MCSA: Windows Server 2012 certification. It also counts as credit toward MCSE: Server Infrastructure and MCSE: Desktop Infrastructure (additional exams required). Objectives include: EXAM 70-410: Installing and Configuring Windows Server 2012 Install and Configure Servers Configure Server Roles and Features Configure Hyper-V Install and Administer Active Directory EXAM 70-411: Administering Windows Server 2012 Deploy, Manage, and Maintain Servers Configure Network Services and Access Configure a Network Policy Server Infrastructure Configure and Manage Active Directory Configure and Manage Group Policy EXAM 70-412: Configuring Advanced Windows Server 2012 Services Configure and Manage High Availability Configure File and Storage Solutions Implement Business Continuity and Disaster Recovery Configure Network Services Configure Identity and Access Solutions
