Emergencies are one
of one's greatest

difficulties when beginning to practise Homeopathy. In an acute emergency one has to do something immediately; we cannot spend time hunting for a drug. *Some Emergencies of General Practice* North Atlantic Books

This small book has been written to enable those with no knowledge of homeopathy to apply the remedies in emergencies and injuries. These are safe and have no side effects and if well chosen to match the patient's symptoms they can produce amazing results. The emergencies are listed in alphabetical order and I have tried to include anything that can develop quickly and needs prompt attention. In some

cases a doctor should be called but, even so, help may be given pending his arrival.

A Guide for Emergencies Containing the Homeopathic Treatment (1871)

Llewellyn Worldwide

The first emergency guide including herbs, homeopathy, acupressure, aromatherapy, nutritional supplements, traditional folk remedies and other natural therapies for everything from allergic reactions to sunburn, high fever to frostbite. Compiled by the editors of Natural Health magazine (the foremost publication on alternative and natural health) -- and a distinguished panel of medical experts), this book is an essential

home reference. Conveniently arranged by subject, and covering a range of treatments available in no other book, it offers hundreds of remedies that may be used alone or in conjunction with conventional medical care. "A lucid and comprehensive resource." Illustrations. *First Aid Handbook* Kensington Publishing Corporation

Homeopathic Medicine

Oxford University Press

Women have made it clear that they desire a broader, integrative approach to their care. Here, for the first time, *Integrative Women's Health* weaves together the best of conventional treatments with mind-body interventions, nutritional strategies, herbal therapies, dietary supplements, acupuncture, and manual medicine, providing clinicians with a roadmap for practicing comprehensive integrative care. Presenting the best evidence in a concise, accessible format, and written exclusively by female clinicians, this text addresses many

aspects of women's health, including feminine perspectives on aging, spirituality and sexuality, specific recommendations for the treatment of cardiovascular disease, rheumatoid arthritis, HIV, headaches, multiple sclerosis, depression, anxiety, and cancer, as well as integrative approaches to premenstrual syndrome, pregnancy, menopause, fibroids, and endometriosis. Homeopathic, Ayurvedic and traditional Chinese medicine practitioners provide insight into the ways in which these systems manage reproductive conditions. As leading educators in integrative medicine, editors Dr. Maizes and Dr. Low Dog demonstrate how

clinicians can implement their recommendations in practice, but they also go beyond practical care to examine how to motivate patients, enhance a health history, and understand the spiritual dimensions of healing.

Dr Dorothy Shepherd offers a guide to the medicinal treatment of first aid. For years she followed obediently the recognised, well-trodden paths of antiseptic and aseptic wound treatment, with little or no medicinal aid, other than those already mentioned. She then had the opportunity to study and apply first-aid methods in surgical

outpatients, private practice and a munition factory in the First World War and the later a minor ailment clinic. She gave up entirely the old methods and with the help of a devoted staff applied these comparatively new homoeopathic ideas which have proved successful.
