Surviving Reactive Attachment Disorder A Personal Story
This is my story a young boy's journey, and the many hurdles I had to get through in order to overcome Reactive Attachment Disorder. It is a story of sadness, anger, frustration, courage and finally hope! The courage to fight through and continue to defy the odds that were set in place. You will travel back in time to see a young child's life, a child who experienced first hand abuse, neglect, feeling alone, and ending up in a residential treatment facility. Then, against all odds, I witnessed miracles that I never thought possible. You will see how hope, determination and making tough choices proved in the end to be

the ultimate healing tools.
