The Book of the Secrets of Merlin Simon and Schuster

Si bien puede parecer que ya no queda mucho más que mostrar sobre los modelos y temas de los desnudos más importantes de la historia del arte, nada más lejos de la realidad: en estas obras maestras hay mucho más de lo que se puede ver a simple vista. Rose-Marie y Rainer Hagen nos acercan a los secretos

de la carne, combinando análisis extensos con nítidas ampliaciones de 12 obras emblemáticas que forman parte del canon de la historia del arte. Historias bíblicas sobre moralidad o representaciones modernas del placer, trabajos como Susana y los viejos, de Tintoretto, o Almuerzo sobre la hierba, de Manet, ofrecen diversas visiones de la belleza natural. Cada obra de arte se presenta en reproducciones de la mayor calidad, obtenidas directamente de las originales, conservadas en el Louvre, el Museo de Orsay y la Galería Uffizi, entre muchos otros. Desde los que muestran la máxima belleza femenina, como la Venus del espejo, de Velázquez, a la hipnótica imagen del declive del cuerpo en Las edades y la muerte, de Hans Baldung, estos cuadros tienen en común

la maestría con la que muestran la forma humana desnuda, ya sea durante la vida o tras ella. A través de esta exploración de los secretos recóndidos de los cuerpos desvestidos, las figuras abandonan el plano bidimensional y cobran vida.

Las obras del Renacimiento italiano, con sus imagerías de guerra, romances, nacimientos y conocimiento, tienen mucho que decir, si se las deja hablar. Esto es precisamente lo que hacen Rose-Marie y Rainer Hagen al profundizar en cada uno de los 12 cuadros seleccionados y, con un talento detectivesco: abrir una luminosa puerta

al pasado. De La creación de Adán de Miguel Ángel a La batalla de San Romano de Uccello; de San Jerónimo en su estudio de Antonello da Messina a El retorno de Odiseo, de Pinturicchio, las obras artísticas analizadas son una variada representación de la innovación y el esplendor de la época, con obras procedentes de algunas de las colecciones más impresionantes del mundo como la Galería Uffizi, el Prado, y la National Gallery de Londres, entre otras.

Ichie—about making the most of every moment in your life.* * * * What's your ikigai? "Only staying active will make you want to live a hundred years." —Japanese proverb According to the Japanese, everyone has an ikigai—a reason for living. And according to the residents of the Japanese village with the world's longest-living people, finding it is the key to a happier and longer life. Having a strong sense of ikigai—the place where passion, mission, vocation, and profession intersect—means that each day is infused with meaning. It's the reason we get up in the morning. It's also the reason many Japanese never really retire (in fact there's no word in Japanese that means retire in the sense it does in English): They remain active and work at what they enjoy, because

they've found a real purpose in life—the happiness of always being busy. In researching this book, the authors interviewed the residents of the Japanese village with the highest percentage of 100-year-olds—one of the world's Blue Zones. Ikigai reveals the secrets to their longevity and happiness: how they eat, how they move, how they work, how they foster collaboration and community, and—their best-kept secret—how they find the ikigai that brings satisfaction to their lives. And it provides practical tools to help you discover your own ikigai. Because who doesn't want to find happiness in every day? A PENGUIN LIFE TITLE

Los Secretos de Las Obras de Arte. Las Caras Del Poder Taschen

"Gabriel Zaid is a marvelously elegant

and playful writer—a cosmopolitan critic with sound judgment and a light touch. He is a jewel of Latin American letters, which is no small thing to be. Read him—you'll see."—Paul Berman "Mr. Zaid's goal is to capture the variety of anxieties that beset literary fame-seekers, and he does so with a mocking cleverness. A serious theme, though, runs through his book—that with the possible exception of a few agonized painters and musicians, no one can quite touch the exquisite torment of the literary artist as he faces the hazards of fate."—Wall Street Journal In *So Many Books*, Gabriel Zaid explored the predicament in which all "unrepentant readers" find themselves today, when "the human race publishes a book every thirty seconds"—more books than any of

us can even contemplate, much less read. Now, in *The Secret of Fame*, this "playful celebrant of literary proliferation" (*New Yorker*) examines the methods and motivations of literary fame-seekers from ancient times to the present day. He shines a critical, yet humorous, light on today's book world, whose denizens often find it "more interesting to talk about writers than to read them," and he takes a serious look at the desire for fame and the disillusionment that can engulf those who achieve it. Along the way, Zaid pokes fun at literary and scholarly traditions, including the unwritten rules of quoting other authors, the ascendancy of the footnote, and the practice of publishing "foolishly complete works." More important to Zaid than the fame of

a piece of writing or of its writer is the miracle of great writing. "Fame concentrates society's attention on a few names. This can be a good thing. It keeps us reading the great books, keeps us revisiting the great works of art. But fame can also be a bad thing. It keeps us focused on names, not the living experiences of great works," which "focus our minds, speak to the best in us, and spark our imagination." Though the hunger for fame is not going away, the deeper quest on the part of the maker (as writer, artist, actor, etc.) is to make us "feel more alive, more engaged in meaningful conversation with life." He concludes, "Nobody knows where masterpieces come from. Miracles are miracles. They catch us before we catch them. But we're not trapped by

them—we're set free." Gabriel Zaid's poetry, essays, social and cultural criticism, and business writings have been widely published throughout the Spanish-speaking world. Zaid is the founder and manager of a consulting firm in Mexico City involved with the publishing business. Natasha Wimmer is an editor and a translator in New York City. Her recent translations include *The Savage Detectives* and *2666* by Roberto Bolano and *The Way to Paradise* by Mario Vargas Llosa.
