In fact, it's the specification documentation that serves as the backbone of your entire digital project.15 reasons why specifications are still important | NBSSummary Report for: 11-9021.00 - Construction Managers. Plan, direct, or coordinate, usually through subordinate supervisory personnel, activities concerned with the construction and maintenance of structures, facilities, and systems.11-9021.00 - Construction ManagersHistory. Behavior-driven development is an extension of test-driven development: development that makes use of a simple, domain-specific scripting language. These DSLs convert structured natural language statements into executable tests. The result is a closer relationship to acceptance criteria for a given function and the tests used to validate that functionality.
