The Illuminati Flatiron Books
Next Thirteen Years started with the
question of how the Mayan Calendar
date of 21 December 2012 might be
connected to Christian apocalyptic
expectations for the end of this age. A
certain amount of paranoia was no doubt
produced by the unexpected destruction
of much of my hometown (Christchurch)
through a number of earthquakes that
struck throughout 2011, during the year
of the super-Moon. The 2011 Japan

tsunami came soon after, and these disasters seemed to be leading into 2012, when NASA was also anticipating dangerous solar flares. Many thought the government knew something that the rest of us did not, and wild speculation broke out on YouTube from 2011 onwards, fed by the massive underground bunker-building programs and the arming of FEMA camps all across the United States. Huge stock-piling of food in these bunkers throughout 2013 is not helping to calm public nerves. Financial prognosticators have also foreseen an imminent collapse, and the picture being drawn is almost apocalyptic, expressing a readiness for cosmic disaster or war on American soil. My own beliefs anticipate critical events from 2026 to 2030, which is when I think

the final great Antichrist will be upon us, who will appear with the overthrow of Jerusalem. The thirteen-year gap from 2013 to 2026 is of the right length to suggest the next thirteen years could be the period of “apostasia” (rebellion) that Paul speaks of as preceding this great Man of Sin, whom Christ must destroy at his return. What governments are doing now can easily be read as preparation for the collapse of society, perhaps with the aim of building a New World Order from the ashes, ruling over whoever is fortunate enough to survive what is about to come. Plans to cull population may also be brought to fruition in this great set of events about to take place upon the Earth. In setting the plan of the elitists alongside what I think will transpire from 2026 onwards, I lay

before the reader what I think the Next Thirteen Years may hold for us.

There is undoubtedly a dignity in the art of building, or in architecture, which no other art possesses, and this, whether we consider it in its rudest state, occupied in raising a hut, or as practised in a cultivated nation, in the erection of a magnificent and ornamented temple. As the arts in general improve in any nation, this must always maintain its pre-eminence; for it employs them all, and no man can be eminent as an architect who does not possess a considerable knowledge of almost every science and art already cultivated in his nation. His great works are undertakings of the most serious concern, connect him with the public, or with the rulers of

the state, and attach to him the practitioners of other arts, who are occupied in executing his orders: His works are the objects of public attention, and are not the transient spectacles of the day, but hand down to posterity his invention, his knowledge, and his taste. No wonder then that he thinks highly of his profession, and that the public should acquiesce in his pretensions, even when in some degree extravagant. - Taken from "Proofs of a Conspiracy: Against All The Religions and Governments Of Europe, Carried On In The Secret Meetings of Freemasons, Illuminati, and Reading Societies" written by John Robison

Card Trick Deluxe Illuminati The Game of Conspiracy
The Secret Masters have denied all

knowledge of the various conspiracy theories put forth in GURPS Illuminati. "To begin with, we don't even exist," said a spokesman. "The Illuminati are a myth." He went on to deny specifically that: Everything you read in the tabloids is true! Aliens regularly visit Earth, and are in contact with high government officials. The Men in Black are everywhere, and will snatch you from your home if you ask too many questions or just see something you shouldn't see. Orbital Mind Control satellites cruise the skies, influencing international politics and deciding the fates of billions. The Gnomes of Zurich control the world's monetary supply, and manipulate it to fit their own sinister plans. The world is such a complex web of secrets, mysteries and conspiracies that nobody

really knows what is happening. But everyone in power lies . . . all the time. The only real way to protect yourself is to join the conspiracy. But even then, you'll never know who is pulling your strings. Everything you know is a lie. Everything you suspect is true. The world is a very strange place. Hail Eris! All Hail Discordia! The publishers of GURPS Illuminati, Steve Jackson Games, admitted that it was a work of fiction, but added, "It's all true anyway! Just look at the book. It's closer than you think." *The World's Most Dangerous Secret Societies the Illuminati, Freemasons, Bilderberg Group, Knights Templar, the Jesuits, Skull and Bones and Others* Dorrance Publishing
This book offers a thoughtful analysis of how and why conspiracy thinking has

become a popular mode of political discourse in the United States.

On the morning of March 1, 1990, without warning, a force of armed Secret Service agents occupied the offices of Steve Jackson Games and began to search for a game called the Illuminati. The home of legendary hacker, Loyd Blankenship, the writer of *GURPS Cyberpunk*, was also raided. A large amount of equipment was seized, including documents called the NWO.

This book covers those "sacred" files that was created by our government but hacked by Steve Jackson and Lloyd Blankenship and turned into the game "Illuminati." Stuff They Don't Want You to Know

Visible Ink Press

JFK, Karl Marx, the Pope, Aristotle Onassis, Queen Elizabeth II, Howard Hughes, Fox Mulder, Bill Clinton -- all have been linked to vastly complicated global (or even galactic) intrigues. In this enlightening tour of conspiracy theories, Mark Fenster guides readers through this shadowy world and analyzes its complex role in American culture and politics. Fenster argues that conspiracy theories are a form of popular political interpretation and contends that understanding how they circulate through mass culture helps us better understand our society as a whole. To that end, he discusses Richard Hofstadter's *The Paranoid Style* in

American Politics, the militia movement, The X-Files, popular Christian apocalyptic thought, and such artifacts of suspicion as The Turner Diaries, the Illuminatus! trilogy, and the novels of Richard Condon. Fenster analyzes the "conspiracy community" of radio shows, magazine and book publishers, Internet resources, and role-playing games that promote these theories. In this world, the very denial of a conspiracy's existence becomes proof that it exists, and the truth is always "out there." He believes conspiracy theory has become a thrill for a bored subculture, one characterized by its members' reinterpretation of "accepted" history, their deep cynicism about contemporary politics, and their longing for a utopian future. Fenster's progressive critique of

conspiracy theories both recognizes the secrecy and inequities of power in contemporary politics and economics and works toward effective political engagement. Probing conspiracy theory's tendencies toward scapegoating, racism, and fascism, as well as Hofstadter's centrist acceptance of a postwar American "consensus," he advocates what conspiracy theory wants but cannot articulate: a more inclusive, engaging political culture.

 THE END IS NEAR! The end of the world is fast approaching! It is vitally important for you to know what is going to happen. There are many end times theories and ideas being promoted in the world today. How do you know what to believe? God's word is truth and gives us the answers that we are looking for. The Coming Epiphany takes a broad and comprehensive look at the end times through the eyes of scripture and explains to the reader the events that

Do you know what scripture reveals about the coming financial collapse, WWII, aliens, the New World Order? Do you know how the Jewish feasts will coincide with major prophetic events? Do you know who will be the head of the coming one world religion? Do you know when in the sequence of end times events that the rapture will occur and can you prove it from scripture? Do you know the prophetic significance of the moon being turned to blood? The Coming Epiphany will answer these questions and many more and will teach you what you need to know about the end of the

world. As one reader said "Mr. Frederick, through rigorous adherence to scripture, has pieced together the puzzling aspects of Biblical prophecy. His book, The Coming Epiphany, provides vital information for Christians in these times and the times to come..." About The Author William Frederick has been teaching and preaching God's Word for the last 25 years. This book is about power, success, strategy, seduction, thinking big, the law of attraction, winning, and kicking ass in real-life politics, period. It obliterates the lies and misconceptions surrounding the 2016 billionaire Republican presidential nominee and proves, with certitude, that, rather than just being a front-running political candidate, he is a shrewd, political mastermind the likes of which has not been seen since the Italian Renaissance and Niccol Machiavelli himself. An inspirational work, it also reveals how you too can become a political mastermind. It unveils the true nature and definition of politics and teaches you how to successfully play and excel at the game of power all to your advantage. The author also reveals how the mastermind mindset

has made countless celebrities powerful and successful. He even reveals information about reality TV star Mimi Faust from VH1's Love & Hip Hop: Atlanta. One thing is certain, if you are a big thinker whether Democrat, Independent, or Republican this book is definitely a must read! With history and fact as his backbone, DaVinci does an impeccable job telling it like it is. Sun Tzu, Machiavelli, and Robert Greene would be astonished.

The bestselling cyberpunk author "has produced by far the most stylish report from the computer outlaw culture since Steven Levy's Hackers" (Publishers Weekly). Bruce Sterling delves into the world of high-tech crime and punishment in one of the first books to explore the

cyberspace breaches that threaten national security. From the crash of AT&T's long-distance switching system to corporate cyberattacks, he investigates government and law enforcement efforts to break the back of America's electronic underground in the 1990s. In this modern classic, "Sterling makes the hackers—who live in the ether between terminals under noms de net such as VaxCat—as vivid as Wyatt Earp and Doc Holliday. His book goes a long way towards explaining the emerging digital world and its ethos" (Publishers Weekly). This edition features a new preface by the author that analyzes the sobering increase in computer crime over the twenty-five years since *The Hacker Crackdown* was first published. "Offbeat and brilliant."

—Booklist "Thoroughly researched, this account of the government's crackdown on the nebulous but growing computer-underground provides a thoughtful report on the laws and rights being defined on the virtual frontier of cyberspace. . . . An enjoyable, informative, and (as the first mainstream treatment of the subject) potentially important book . . . Sterling is a fine and knowledgeable guide to this strange new world." —Kirkus Reviews "A well-balanced look at this new group of civil libertarians. Written with humor and intelligence, this book is highly recommended." —Library Journal

Hosts of the podcast Stuff They Don't
Want You to Know, Ben Bowlin, Matthew

Frederick, & Noel Brown discern conspiracy fact from fiction regarding "stuff" the government doesn't want you to know. Conspiracies didn't always seem so clear and present. It used to be that people with tin-foil hats who were convinced of secret messages coming through the radio were easily disregarded as kooks and looney tunes. But these days, conspiracies feel alive and well. From internet rumors to lying politicians to the tinderbox that is social media, it's become remarkably clear that a vast swath of people believe really bonkers things. Why is that? How did these theories proliferate? Is there a kernel of truth to it or are they fully fiction? Ben Bowlin, Matt Frederick, and Noel Brown are the hosts of the popular iHeart podcast that seeks to answer

these questions. With cool heads and extensive research, they regularly break down the wildest conspiracy theories: from chemtrails and biological testing to the secrets of lobbying and why the Kennedy assassination is of perennial interest. Written in smart, witty, and

conversational style, and with amazing illustrations, *Stuff They Don't Want You to Know* is a vital book in helping to understand the unexplainable and use truth as a powerful weapon against ignorance, misinformation, and lies.
