"Come war and peace Downton still stands and the Crawleys are still in it." Downton Abbey is loved the world over for its fabulous costumes, beautiful scenery, wonderful characters and intricate plot lines, but what keeps millions of us coming back time after time is the stellar quality of the writing. With each stroke of his pen Julian Fellowes seems to gift us with a cuttingly dry quip from the Dowager Countess, a perfectly timed word of wisdom from Mrs Patmore or a touchingly nostalgic pronouncement from Carson. Here in *The Wit and Wisdom of Downton Abbey*, Jessica Fellowes has gathered together her favorite quotes from the complete Downton Abbey oeuvre to take each of us back to the most memorable moments from the show and ensure we are armed with the very best ripostes should we ever need to chastise an

impertinent lady's maid.

Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. Curtis Bright challenges the view that Renaissance English rulers could not dominate their domestic population. He argues, alternatively, that the Elizabethan state was controlled by the Cecilian faction, which maintained power by focusing English energies outwardly. Cecilians launched relentless assaults by land and sea against England's neighbours. By the 1590s their policies had enriched a few yet destroyed countless people, and this book reads the drama of Christopher Marlowe and William Shakespeare in relation to ongoing national and international conflict.

 When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in *Nikkei Sangyo Shimbun* (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the *Topeka Capital-Journal* and the September 13, 1983 issue of the *Asian Wall Street Journal*. The *Topeka Capital-Journal* headline read, "MacArthur's Jeeps Were the Toyota Catalyst.
