Five Essays in Political Iconography Vintage

Grant Wardlaw provides a comprehensive analysis on terrorism and the counter-terrorist policies of democratic states.

The Unraveling of Syria and America's Race to Destroy the Most Dangerous Arsenal in the World Universitas Studiorum

Preface and third chapter translated from the Italian by Anne C. Tedeschi and John Tedeschi.

A New Historical Introduction La Nave di Teseo Editore spa

Large collection of stories, essays, and reviews by Gothic novelist Patrick McGrath. Illustrated.

The Economic and Political Threats to the Future of Globalisation Viella Libreria Editrice

A strong, idiomatic translation of Italy's greatest modern poet. Eugenio Montale is universally recognized as having brought the great Italian lyric tradition that began with Dante into the twentieth century with unrivaled power and brilliance. Montale is a love poet whose deeply beautiful, individual work confronts the dilemmas of modern history, philosophy, and faith with courage and subtlety; he has been widely translated into English and his work has influenced two generations of American and British poets. Jonathan Galassi's versions of Montale's major works--*Ossi di seppia*, *Le occasioni*, and *La bufera e altro*--are the clearest and most convincing yet, and his extensive notes discuss in depth the sources and difficulties of this dense, allusive poetry. This book offers English-language readers uniquely informed and readable access to the work of one of the greatest of all modern poets.

Toppling Qaddafi Routledge

In this ground-breaking book, acclaimed sociologist Ann Oakley undertook one of the first serious sociological studies to examine women's work in the home. She interviewed 40 urban housewives and analysed their perceptions of housework, their feelings of monotony and fragmentation, the length of their working week, the importance of standards and routines, and their attitudes to different household tasks. Most women, irrespective of social class, were dissatisfied with housework - an important finding which contrasted with prevailing views. Importantly, too, she showed how the neglect of research on domestic work was linked to the inbuilt sexism of sociology. This classic book challenged the hitherto neglect of housework as a topic worthy of study and paved the way for the sociological study of many more aspects of women's lives.

The Fire and the Darkness Cornell University Press

Nell'agosto 2012, nel pieno della feroce guerra civile che da qualche mese sta dilaniando la Siria, il presidente Bashar al-Assad è disposto a utilizzare qualunque mezzo per restare aggrappato al potere. Quando i servizi segreti rivelano che potrebbe ricorrere all'uso di armi chimiche, il presidente americano Barack Obama lo avverte che così facendo supererebbe una "linea rossa". Assad ignora le minacce statunitensi e ordina di bombardare il sobborgo di Ghouta, a Damasco, con gas sarin, uccidendo centinaia di civili e scatenando la reazione internazionale a quell'orrore. Quando la Russia

si offre di mediare per ottenere la dismissione delle armi chimiche della Siria, Obama decide di inviare le truppe USA per eliminare i pericolosi ordigni. Inizia così una corsa per trovare, rimuovere e distruggere 1.300 tonnellate di armi chimiche nel mezzo di una furiosa guerra civile. Presto la strategia della Russia diventa chiara: farà di tutto per preservare il potere di Assad, alleato fondamentale in medio oriente, mentre l'ISIS, che sta costruendo il suo califfato nel territorio devastato dal conflitto, tenta di recuperare e accumulare quelle stesse armi per i suoi scopi. Con una narrazione serrata, costruita su documenti segreti e testimonianze dirette, e un folto cast di eroi e criminali - tra cui cacciatori di armi, politici, medici, diplomatici e spie -, il premio Pulitzer Joby Warrick ci rivela come in Siria si stiano giocando gli equilibri mondiali. "Uno sguardo inquietante sulla brutale guerra civile siriana. Joby Warrick ne offre un vivido resoconto." Kirkus Reviews "Warrick ha scritto un altro libro appassionante, basato su ricerche accurate, una storia vera che sembra un thriller." The Guardian "Warrick ricostruisce in modo chiaro e preciso la storia dell'arsenale chimico di Bashar al-Assad dalla sua creazione fino all'uso sui civili e al suo supposto smantellamento." The Washington Post

From Al-Qaeda to the Islamic State Routledge

The bestselling *Unholy Alliance* now in paperback! Former Leftist radical David Horowitz blows the lid off the dangerous liaison between U.S. liberals and Islamic radicals. With America's battle against the disastrous force of terrorism at hand, Horowitz takes us behind the curtain of the unholy alliance between liberals and the enemy-a force with malevolent intentions, and one that Americans can no longer ignore.

Mantua Humanistic Studies. Volume XII Harvard University Press

Il 5 luglio 2014 tutto il mondo ha potuto assistere all'apparizione in video del califfo dello "Stato islamico tra Iraq e Siria" (ISIS), Abū Bakr al-Bağdādī, l'astro nascente del ḡihād globale, il nuovo leader dei combattenti sunniti radicali. Nel video, al-Bağdādī incita i fedeli di tutto il mondo islamico a dichiarare il ḡihād sulla via di Dio, al fine di restituire dignità, diritti e autorità all'Islām, e loda la vittoria che dopo secoli ha permesso di restaurare il califfato. Per comprendere pienamente il senso storico-politico di questa inquietante operazione è necessario riflettere sul significato dell'istituzione califfale nella storia islamica. Questo libro, che colma un'evidente lacuna della saggistica italiana (ma sul tema del califfato mancano da decenni sintesi aggiornate anche in altre lingue), ricostruisce in maniera sintetica ma rigorosa la vicenda storica dei califfati medievali (umayyade, 'abbāside, andaluso, fāṭimida, almohade), fino alle loro estreme propaggini in terra egiziana, all'abolizione del califfato ottomano voluta da Kemal Atatürk e ai recentissimi tentativi di riproposizione di questo modello di governo, con un occhio attento non solo alla prassi ma anche alle teorie elaborate su tale istituzione dal pensiero politico musulmano.

Political Terrorism Regnery Publishing

Quando, nel 1999, il governo della Giordania concesse l'amnistia a un gruppo di prigionieri politici detenuti in un carcere di massima sicurezza in mezzo al deserto, non aveva la minima idea che tra di essi ci fosse anche Abu Musab al-Zarqawi, un terrorista capace di diventare in pochi anni l'architetto del movimento più pericoloso del Medio Oriente prima, e del mondo intero poi. Bandiere

nere di Joby Warrick mostra in modo magistrale come la determinazione di un solo uomo e gli errori strategici dei presidenti americani George Bush e Barack Obama abbiano permesso che le bandiere dell'ISIS si issassero sull'Iraq e la Siria, prima di spargere sangue in tutto il mondo. Sulla base di informazioni ad altri inaccessibili, ottenute sia da fonti giordane che della CIA, Warrick tesse un'avvincente e dettagliata cronaca - attimo dopo attimo, fatto dopo fatto - della nascita e crescita di un mostro che ha adepti in tutto il mondo, e che sta colpendo tanto l'Europa e gli Stati Uniti, quanto l'area mediorientale e oltre. Una storia raccontata dal punto di vista di spie, diplomatici, agenti dei servizi segreti, generali e capi di stato, molti dei quali compresero in anticipo la minaccia, ne intravidero la maggiore pericolosità rispetto a quella di al-Qaida, cercarono di arrestarne in tempo la violenza, ma non vennero ascoltati. Bandiere nere rivela in modo definitivo, avvincente e accessibile il lungo arco di vicende che ha portato alla costituzione della trama terroristica più pericolosa che l'Occidente abbia mai conosciuto. Miglior libro per: "The New York Times", "The Washington Post", "People Magazine", "San Francisco Chronicle", "Kansas City Star" e "Kirkus Reviews". "Non c'è libro migliore per comprendere le origini dello Stato islamico e la mente del suo fondatore al-Zarqawi." The New York Times "Un libro che rimarrà nel tempo." Los Angeles Times "Un page-turner, una lettura necessaria." Chicago Tribune "Ti inchioda dalla prima all'ultima pagina." Rick Atkinson "Un racconto straordinario, scritto col piglio di un vero autore di crime novel." Kirkus Review

Fear, Reverence, Terror Vintage

A Pulitzer Prize-winning intelligence reporter presents a narrative account of a mysterious Jordanian agent that describes how he infiltrated both al-Qaeda and the CIA before killing himself and seven CIA operatives in a suicide bombing, an event that revealed sobering agency weaknesses. Reprint.

The Psychology of Terrorism LIT EDIZIONI

Alessandro Orsini is one of Italy's premier analysts of political extremism. His investigation of the beliefs and mind-sets of Europe's political fringe has largely focused on anarchist and far-left groups, but in *Sacrifice* he turns his inquiry to the rapidly expanding neofascist movement. He joined local groups of a neofascist organization he names *Sacrifice* in two neighboring cities with very different political cultures. In this gripping, "insider" book, which features dialogues with various militia members, Orsini shows how fascists live day to day, how they understand their world, and how they build a parallel universe in which the correctness and probity of their attitudes are clear. Orsini describes the long, troubled process by which these two groups slowly accepted him as an investigator-activist and later expelled him for his ideologically uncommitted stance and refusal to subject his observations to censorship. His activities as a fascist were often mundane: leafleting, distributing food parcels to the indigent, and attending public rallies. In *Sacrifice*, Orsini describes from within the masculine ethos of the militias, the groups' relations with local police and politicians, and the central role of violence and anticommunist actions in building a sense of fascist community.

Black Flags Giunti

This new edition of John Horgan's critically acclaimed book is fully revised and expanded. The book presents a critical analysis of our existing knowledge and understanding of terrorist psychology. Despite the on-going search for a terrorist pathology, the most insightful and evidence-based research to date not only illustrates the lack of any identifiable psychopathology in terrorists, but

demonstrates how frighteningly 'normal' and unremarkable in psychological terms are those who engage in terrorist activity. By producing a clearer map of the processes that impinge upon the individual terrorist, a different type of terrorist psychology emerges, one which has clearer implications for efforts at countering and disrupting violent extremism in today's world. In this 2nd edition, Horgan further develops his approach to the arc of terrorism by delving deeper into his IED model of Involvement, Engagement and Disengagement - the three phases of terrorism experienced by every single terrorist. Drawing on new and exciting research from the past decade, with new details from interviews with terrorists ranging from al-Qaeda to left-wing revolutionaries, biographies and autobiographies of former terrorists, and insights from historic and contemporary terrorist attacks since 2005, Horgan presents a fully revised and expanded edition of his signature text. This new edition of *The Psychology of Terrorism* will be essential reading for students of terrorism and political violence, and counterterrorism studies, and recommended for forensic psychology, criminology, international security and IR in general.

Farrar, Straus and Giroux

In one form or another, water participates in the making and unmaking of people's lives, practices, and stories. Contributors' detailed ethnographic work analyzes the union and mutual shaping of water and social lives. This volume discusses current ecological disturbances and engages in a world where unbounded relationalities and unsettled frames of orientation mark the lives of all, anthropologists included. Water emerges as a fluid object in more senses than one, challenging anthropologists to foreground the mutable character of their objects of study and to responsibly engage with the generative role of cultural analysis.

Partisan Diary Springer

A highly readable look at the role of the US and NATO in Libya's war of liberation, and its lessons for future military interventions.

Unholy Alliance Univ of California Press

This book is a timely addition to the fast-growing international debate on Integrated Reporting, which offers a holistic view of the evolution and practice of Integrated Reporting. The book covers the determinants and consequences of Integrated Reporting, as well as examining some of the most relevant issues (particularly in the context of the United States) in the debate about Integrated Reporting.

The Terror Years Springer

Bandiere nere. La nascita dell'Isis La Nave di Teseo Editore spa

Theory, Tactics and Counter-Measures Lulu Press, Inc

By examining available demographic data and petitions submitted by non-Muslims for accepting Islam, this volume convincingly reconstructs the stages of the Islamization process in the Balkans and offers an insight to the motives and factors behind conversion.

Jihad Corporation Policy Press

Edited collection discusses the first historically important debate on what constitutes modern literature, which focused on two 16th century works: ORLANDO FURIOSO and GERUSALEMME LIBERATA.

Is Globalisation Doomed? Europa Editions

In the first book to investigate the far-reaching emotional impact of globalization, Dominique Moïsi shows how the geopolitics of today is characterized by a “clash of emotions.” The West, he argues, is dominated and divided by fear. For Muslims and Arabs, a culture of humiliation is quickly devolving into a culture of hatred. Asia, on the other hand, has been able to concentrate on building a better future, so it is creating a new culture of hope. Moïsi, a leading authority on international affairs, explains that in order to understand our changing world, we need to confront emotion. And as he makes his case, he deciphers the driving emotions behind our cultural differences, delineating a provocative and important new perspective on globalization.

Bandiere nere. La nascita dell'Isis Anchor

A Times/Sunday Times Book of the Year 'Powerful . . . there is rage in his ink. McKay's book grips by its passion and originality. Some 25,000 people perished in the firestorm that raged through the city. I have never seen it better described' Max Hastings, Sunday Times In February 1945 the Allies obliterated Dresden, the 'Florence of the Elbe'. Explosive bombs weighing over 1,000 lbs fell every seven and a half seconds and an estimated 25,000 people were killed. Was Dresden a legitimate military target or was the bombing a last act of atavistic mass murder in a war already won? From the history of the city to the attack itself, conveyed in a minute-by-minute account from the first of the flares to the flames reaching almost a mile high - the wind so searingly hot that the lungs of those in its path were instantly scorched - through the eerie period of reconstruction, bestselling author Sinclair McKay creates a vast canvas and brings it alive with touching human detail. Along the way we encounter, among many others across the city, a Jewish woman who thought the English

bombs had been sent from heaven, novelist Kurt Vonnegut who wrote that the smouldering landscape was like walking on the surface of the moon, and 15-year-old Winfried Bielss, who, having spent the evening ushering refugees, wanted to get home to his stamp collection. He was not to know that there was not enough time. Impeccably researched and deeply moving, McKay uses never-before-seen sources to relate the untold stories of civilians and vividly conveys the texture of contemporary life. Dresden is invoked as a byword for the illimitable cruelties of war, but with the distance of time, it is now possible to approach this subject with a much clearer gaze, and with a keener interest in the sorts of lives that ordinary people lived and lost, or tried to rebuild. Writing with warmth and colour about morality in war, the instinct for survival, the gravity of mass destruction and the manipulation of memory, this is a master historian at work. 'Churchill said that if bombing cities was justified, it was always repugnant. Sinclair McKay has written a shrewd, humane and balanced account of this most controversial target of the Anglo-American strategic bombing campaign, the ferocious consequence of the scourge of Nazism' Allan Mallinson, author of Fight to the Finish 'Beautifully-crafted, elegiac, compelling - Dresden delivers with a dark intensity and incisive compassion rarely equalled. Authentic and authoritative, a masterpiece of its genre' Damien Lewis, author of Zero Six Bravo 'Compelling . . . Sinclair McKay brings a dark subject vividly to life' Keith Lowe, author of Savage Continent 'This is a brilliantly clear, and fair, account of one of the most notorious and destructive raids in the history aerial warfare. From planning to execution, the story is told by crucial participants - and the victims who suffered so cruelly on the ground from the attack itself and its aftermath' Robert Fox, author of We Were There
