Do you want to help  
your child on the  
autism spectrum to  
verbally communicate  
with you and others?  
You've picked up the  
right book. The Autism  
Language Launcher

gives you something  
totally new: a step-by-  
step guide that ignites  
language lift-off by  
using methods such as  
tapping into your  
child's innate  
intelligence, going with  
your child instead of  
against your child and  
providing techniques  
that work with adults  
on the spectrum.  
Written for parents,  
relatives, professionals,  
educators, or  
caregivers of a child or  
adult who is not yet  
verbal, making some  
sounds, using some  
words, speaking in  
single words, or using  
two-word phrases, this  
book uses the author's  
decades of experience  
with children and  
adults on the  
spectrum. Kate also  
demonstrates how to  
effectively address  
your child's echolalia,  
repetitious language,

and repetitive questions in a way that your child will find supportive, bonding, and even joyful.

Ultimately, this book shows you how to make language happen.

A New Technology for Teaching and Learning

Ty Crowell Company Starting in the middle of the 80s, there has been a growing and fruitful interaction between algebraic geometry and certain areas of theoretical high-energy physics, especially the various versions of string theory. Physical heuristics have provided inspiration for new mathematical definitions (such as that of Gromov-Witten invariants) leading in turn to the solution of problems in enumerative geometry. Conversely, the availability of mathematically

rigorous definitions and theorems has benefited the physics research by providing the required evidence in fields where experimental testing seems problematic.

The aim of this volume, a result of the CIME Summer School held in Cetraro, Italy, in 2005, is to cover part of the most recent and interesting findings in this subject.

*Ending the Crisis of Capitalism Or Ending Capitalism?* GUEPEDIA

In this revolutionary book, a renowned computer scientist explains the importance of teaching children the basics of computing and how it can prepare them to succeed in the ever-evolving tech world. Computers have completely changed the way we teach

children. We have Mindstorms to thank for that. In this book, pioneering computer scientist Seymour Papert uses the invention of LOGO, the first child-friendly programming language, to make the case for the value of teaching children with computers. Papert argues that children are more than capable of mastering computers, and that teaching computational processes like debugging in the classroom can change the way we learn everything else. He also shows that schools saturated with technology can actually improve socialization and interaction among students and between students and teachers. Technology changes

every day, but the basic ways that computers can help us learn remain. For thousands of teachers and parents who have sought creative ways to help children learn with computers, Mindstorms is their bible.

This book is the first work that comprehensively presents the accounts of Lia Eden, a former flower arranger who claims to have received divine messages from the

Archangel Gabriel and founded the divine Eden Kingdom in her house in Jakarta. This book places Lia Eden's prophetic trajectory in the context of diverse Indonesian spiritual and religious traditions, by which hundreds of others also claimed to have been commanded by God to lead people and to establish religious groups. This book offers a fresh approach towards the rich Indonesian religious and spiritual traditions with particular attention to the accounts of the emergence of indigenous prophets who founded some popular religions. It presents the history of prophetic tradition which remains alive in Indonesian society from the colonial to reform period. It also

explores the ways in which these prophets rebelled against two hegemonies: colonial power in the past and Islamic orthodoxy in the present. The discussion of this book focuses on Lia Eden including her biography, claims to prophethood and divinity, the development of her group Eden Kingdom, her challenge to Islamic orthodoxy under the banner of the MUI (Indonesian Ulama Council), her persecution by radical groups, her experiences in court trials and imprisonment, and public responses to her emergence. The discussion also covers other themes currently drawing public attention in Indonesia, such as pluralism,

religious freedom, tolerance, discrimination against minorities, and secularisation.

Pondok pesantren di Madura secara umum pada tahun 1970 -an hanya menyentuh pada segmen pasar masyarakat pelosok desa dan pinggiran. Pada tahun 1980 -an pondok pesantren mulai dikenal oleh masyarakat kota karena telah mengadopsi pendidikan modern dalam bentuk madrasah dan sekolah. Pada saat ini pondok pesantren memasuki dunia global, yang tentu saja transmisi dan tranformasi sosial budaya keislaman

yang tentu saja tidak hanya menjadi pilihan alternatif masyarakat desa, pinggiran dan kota, tetapi merambah ke masyarakat belahan dunia. Karena pondok pesantren sebagai lembaga pendidikan asli (indigenous) akan menjadi tempat peradaban Islam di Indonesia menjadi rujukan kajian peradaban Islam dunia. Disinilah pondok pesantren menjadi edutourism (pusat keilmuan dan destinasi wisata) dunia. Memenuhi harapan itu pondok pesantren di Madura, tidak terkecuali pondok pesantren Darul Ulum Banyuanyar harus melakukan perubahan dan pembaharuan dengan tetap berprinsip kepada “al muhafadzah ala qadim al shaleh wa al akhdu

bi al jadid al ashlah". Adanya perubahan yang berkesinambungan (change and continuity) meliputi aspek; kepemimpinan dan manajemen, kurikulum dan pola pembelajaran yang mengarah kepada integrasi dan interkoneksi keilmuan, serta penataan lingkungan berbasis eco-green.

A group of people are looking at you. They are waiting to start learning. If you are dull you will bore them. If you go into too much detail you will lose them. If you don't know your stuff you will lose their respect in seconds. What are you going to do? As a trainer you simply can't afford to be less than brilliant. The effectiveness of your training skills is what sets you apart from other trainers. Tony Pont provides practical guidance and advice on all aspects of designing and delivering group training: everything from where to position the projector, through understating how people learn and how groups interact, to evaluating and improving your

delivery. Developing Effective Training Skills is the complete guide to delivering training that will make people better.

Yusuf Ishak Institute Just like the Gutenberg revolution in the fifteenth century, which led to the

emergence of non-conventional religious authority in the Christian world, the current information technology revolution, particularly through mediums such as Facebook, Instagram, YouTube, and Twitter, has triggered the reconstruction and decentralization of religious authority in Islam. New santri (pious individuals) and preachers emerged from the non-conventional religious educational system. They not only challenged the traditional authorities, but also redefine and re-conceptualize old religious terminologies, such as hijra and wasatiyya. This book explores the dynamics of religious authority in Indonesia with special attention to the

challenges from the “new santri”. It is a rich and important book on religion. I recommend students of religion in Indonesia and other countries to read it. Ahmad Syafi’i Maarif Professor Emeritus of History at Yogyakarta State University An important and timely volume that addresses the changing nature of Islamic leadership in the world’s most popular Muslim country. This book debunks many (mis)perceptions that Indonesia Islam is monolithic. It also redefines dominant characterization of Islam by Orientalist scholars, such as santri and abangan Muslims. Haedar Nashir Chairman of Muhammadiyah This edited volume evaluates the new

development of Islamic scholarship and authority in Indonesia. Things have changed significantly in recent times that make many observers and researchers wondering: has Indonesia moved from traditional authorities, mainstream Islamic organizations, and the established scholarship to the new actors, movements and platforms? Has the change occurs owing to the democratization and political reforms that took place in the last twenty years or are there other factors we need to take into account? The contributors in this book provide possible answers from many different areas and perspectives. It’s a must-read! Nadirsyah Hosen Monash

 Hadirnya buku ini diharapkan bisa menyuguhkan informasi dan referensi bagi pegiat pendidikan Islam, baik dosen, guru, maupun mahasiswa, baik program sarjana maupun program pascasarjana, pengasuh pesantren, pemangku kebijakan, dan para peneliti untuk mencari format-format ideal tentang kurikulum yang sesuai dengan perkembangan zaman. Selain itu, hadirnya buku ini merupakan wujud kepedulian penulisnya tentang dunia pesantren dan perguruan tinggi, di mana kedua institusi ini harus menjadi kawah candradimuka

dalam pengembangan keilmuan dan pemantapan kepribadian, sehingga tidak akan ada lulusan perguruan tinggi atau pesantren yang memiliki kepribadian terbelah (split personality). Sebaliknya, mereka menjadi pribadi yang memiliki keseimbangan antara IQ, EQ, dan SQ. Inilah profil lulusan perguruan tinggi yang memiliki predikat sebagai insan cerdas komprehensif, yakni cerdas spiritual, cerdas emosional dan sosial, cerdas intelektual, dan cerdas kinestetik, serta insan cerdas kompetitif.
