 Learners is designed to help those
 preparing to teach languages Languages
 and Learners: Making the Match: World
 Language ... At this stage, children
 essentially learn how the sounds in a
 language go together to make meaning.
 For example, they learn that the sounds m
 - ah - m - ee refer to the "being" who
 cuddles and feeds them, their
 mommy. How Do Children Learn
 Language? - Verywell Family - Know
 ... Children usually say their first words
 between nine and 18 months old. The
 most common first words are either
 "mama" or "dada." What's interesting is
 no matter what language children are
 taught, the first words usually reference
 either mother or father. By about 18
 months, a child usually has a vocabulary
 of 50 to 150 words. Look Who's Talking! All
 About Child Language Development And

then make the association between the sound and what it symbolizes. If a child hears few words, if a child is rarely read to, sung to, or talked with, he will not have normal language development. Children growing up in verbally and cognitively impoverished settings have speech and language delays. [How Young Children Learn Language | Scholastic](#) Language is made up of the words we use to share ideas and get what we want. Language includes speaking, understanding, reading, and writing.
