A chance meeting with a charismatic photographer will forever change Elizabeth's life. Until she met Richard, Elizabeth's relationship with Georgia O'Keeffe and her little-known Hawaii paintings was purely academic. Now it's personal. Richard tells Elizabeth that the only way she can truly understand O'Keeffe isn't with her mind—it's by getting into O'Keeffe's skin and reenacting her famous nude photos. In the intimacy of Richard's studio, Elizabeth experiences a new, intoxicating abandon and fullness. It never occurs to her that the photographs might be made public, especially without her consent. Desperate to avoid exposure—she's a rising star in the academic world and the mother of young children—Elizabeth demands that Richard dismantle the exhibit. But he refuses. The pictures are his art. His property, not hers. As word of the photos spreads, Elizabeth unwittingly becomes a feminist heroine to her students, who misunderstand her motives in posing. To the university, however, her actions are a public scandal. To her husband, they're a public humiliation. Yet Richard has reawakened an awareness that's haunted Elizabeth since she was a child—the truth that cerebral knowledge will never be enough. Now she must face the question: How much is she willing to risk to be truly seen and known?

Northern Albania and Montenegro are the only regions in Europe to have retained a true tribal society up to the

mid-twentieth century. This book provides the first scholarly investigation of this tribal society, a pioneer work that offers a detailed survey of all the major Albanian-speaking tribes in Albania, Montenegro and Kosovo. Robert Elsie provides comprehensive material on the 69 different tribes, including data on their locations, religious affiliations, tribal structures and relations, population statistics, tribal folklore, legends and history. Also included are excerpts from the works of prominent nineteenth and early-twentieth century writers, such as Edith Durham and Johann Georg von Hahn, who travelled through the tribal regions, as well as short biographies on prominent figures linked to the tribes. As the first book of its kind, *The Tribes of Albania* will be of interest to scholars and students of the Balkans, of southeastern European anthropology, ethnography and history. *Kanuni i Lekë Dukagjinit* Penguin UK

In many industrial applications, the existing constraints mandate the use of controllers of low and fixed order while typically, modern methods of optimal control produce high-order controllers. The authors seek to start to bridge the resultant gap and present a novel methodology for the design of low-order controllers such as those of the P, PI and PID types. Written in a self-contained and tutorial fashion, this book first develops a fundamental result, generalizing a classical stability theorem – the Hermite-Biehler Theorem – and then applies it to designing controllers that are widely used in industry. It contains material on:

- current techniques for PID controller design;
- stabilization of linear time-invariant plants using PID controllers;
- optimal design with PID controllers;
- robust and non-fragile PID controller design;
-

stabilization of first-order systems with time delay; • constant-gain stabilization with desired damping • constant-gain stabilization of discrete-time plants.

**Queen of the Owls** Arcade Publishing  
This book is the first comprehensive survey of modals and modal constructions in the languages of Europe. It is a collaborative effort between scholars from Europe and the United States, stemming from a workshop on Modals in the Languages of Europe in Valencia. The aim of this book is to describe the properties of modals and modal constructions in the European area and to compare the systems in individual languages or language families from an areal and genetic perspective. For the sake of contrast, the book also looks at the expression of modality in some languages just outside of Europe. The book consists of fourteen chapters on modal systems in individual languages or language families, written by experts in the respective languages, and an introductory and concluding chapter, written by the editors. The book gives both a description of the modals in the individual languages and an account of the nature and status of modals in general. It provides the reader with a theoretical account of how modals and modal constructions are grammaticalized. This theoretical account is informed by the parameters of grammaticalization of Christian Lehmann. These parameters were chosen because they are language-independent, as opposed to more language specific criteria (for instance, the NICE-criteria for English). The parameters themselves are examined as well for their suitability as part of any theory of grammaticalization. The book thus gives readers access to a collection of data on modality that surpasses most

works in this field and also provides a fresh perspective on issues of grammaticalization and language contact. It is therefore of interest to scholars of modality, language contact and areal linguistics, grammaticalization theory and typology.

The Ivory Tower and Harry Potter Simon and Schuster

From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside

by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, *The Siege* is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

Bringing together the Soviet historical experience and Stalin-era art in novels, films, poems, songs, painting, photography, architecture and advertising, Dobrenko examines Stalinism's representational strategies and demonstrates how real socialism was begotten of Socialist Realism.

'Jean-Jacques Lecercle's remarkable *Philosophy of Nonsense* offers a sustained and important account of an area that is usually hastily dismissed. Using the resources of contemporary philosophy - notably Deleuze and Lyotard - he manages to bring out the importance of nonsense' - Andrew Benjamin, University of Warwick  
Why are we, and in particular why are philosophers and linguists, so fascinated with nonsense? Why do Lewis Carroll and Edward Lear appear in so many otherwise dull and dry academic books? This amusing, yet rigorous new book by Jean-Jacques Lecercle shows how the genre of nonsense was constructed and why it has proved so enduring and enlightening for linguistics and philosophy.

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short

History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

*Improving Human Learning in the Classroom* provides a functional and realistic approach to facilitate learning through a demonstration of commonalities between the various theories of learning. Designed to assist educators in eliciting students' prior knowledge, providing feedback, transfer of knowledge, and promoting self-assessment, Taylor and MacKenney provide proven strategies for infusing various learning theories into a curriculum, guiding educators to find their own strategies for promoting learning in the classroom. Both quantitative and qualitative research methods investigate learning theories and reforms in education. Quantitative data sources build the theoretical framework for educating the student, as well as developing strategies for closing the achievement gap. Taylor and MacKenney fuse personal experiences with solid strategies for human learning.

When it was first published in the author's native country, THE PALACE OF

DREAMS was immediately banned. The novel revolves around a secret ministry whose task is not just to spy on its citizens, but to collect and interpret their dreams. An entire nation's unconscious is thus tapped and meticulously laid bare in the form of images and symbols of the dreaming mind.

*The Mirror and the Killer-queen* Simon and Schuster

Professor Skendi, a native of Albania, traces the progress and setbacks of Albania's long struggle for national unity during this least-known period of its intricate history. He discusses the heritage of its people and examines in detail the developments that led to Albanian independence: national resistance to the decisions of the Congress of Berlin, later opposition to Turkey, and the struggle between the Albanians and the Young Turks. Consideration is given to such internal problems as geographic configuration, religious and political division, and to such external problems as Italo-Austrian rivalry, political interference from neighboring states, and the involvement of great powers. Originally published in 1967. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. Two destinies intersect in this novel --

that of Gjorg, a young mountaineer who has just killed a man in order to avenge the death of his older brother, and who expects to be killed himself in keeping with the code of the highlands; and that of a young couple who have come to study the age-old customs, including the blood feud.

Groundbreaking anthropologist and memory champion Lynne Kelly reveals how we can use ancient and traditional mnemonic methods to enhance and expand our memory. Our brain is a muscle. Like our bodies, it needs exercise. In the last few hundred years, we have stopped training our memories and we have lost the ability to memorize large amounts of information—something our ancestors could do with ease. After discovering that the true purpose of monuments like Easter Island and Stonehenge were to act as memory palaces, Kelly takes this knowledge and introduces us to the best memory techniques humans have ever devised, from ancient times and the Middle Ages to methods used by today's memory athletes. A memory champion herself, Kelly tests all these methods and demonstrate the extraordinary capacity of our brains at any age. For anyone who needs to memorize a speech or a script, learn anatomy or a foreign language, or prepare for an exam, Memory Craft offers proven techniques and simple strategies for anyone who has trouble remembering names or dates, or for older people who want to keep their minds agile. In addition to getting in touch with our own human and

anthropological foundations, Memory Craft shows how all things mnemonic can be playful, creative, and fun.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine

Seitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just

thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.
