Fundamentals of Automotive  
Technology: Principles and Practice  
covers crucial material for career and  
technical education, secondary/post-  
secondary, and community college  
students and provides both rationales  
and step-by-step instructions for virtually  
every non-diagnosis NATEF task. Each  
section provides a comprehensive  
overview of a key topic area, with real-  
life problem scenarios that encourage  
students to develop connections  
between different skill and knowledge  
components. Customer service, safety,  
and math, science, and literary  
principles are demonstrated throughout  
the text to build student skill levels.  
Chapters are linked via cross-reference

tools that support skill retention, critical  
thinking, and problem-solving. Students  
are regularly reminded that people skills  
are as important as technical skills in  
customer service fields.
