Two unprecedented, striking developments form part of the reality of many Latin Americans. Recent decades have seen the dramatic rise of a new religious pluralism, namely the spread of Pentecostal Christianity - Catholic and Protestant alike - and the growth of indigenous revitalization movements. This study analyzes these major transitions, asking what roles ethnicity and ethnic identities play in the contemporary process of religious pluralism, such as the growth of the Protestant Pentecostal and neo-

Pentecostal movements, the Catholic Charismatic Renewal, and the indigenous Maya movement in Guatemala. This book aims to provide an understanding of the agenda of religious movements, their motivations, and their impact on society. Such a pursuit is urgently needed in Guatemala, a postwar country experiencing acrimonious religious competition and a highly contentious debate on religious pluralism. This volume is relevant to scholars and students of Latin American Studies, Sociology of Religion, Anthropology, Practical Theology, and Political Sciences.

The theological work and vision of New Testament scholar N.T. Wright is

justifiably well-known across the academy and the church. In this volume a variety of Pentecostal biblical and theological scholars engage his work on many points including: identification of the broad implications of his work for Pentecostals (Jeffrey S. Lamp), Wright's view of Jesus' self-understanding (Chris E.W. Green), the pneumatological dimensions of his hermeneutical method (Timothy Senapatiratne), the relationship between Wright's view of justification and the 'Cry of the Spirit' (Rick Wadholm Jr), the relationship between justification and the Spirit (Frank D. Macchia), reading Paul through the lens of Dispensationalism (Glen W. Menzies), the communion of the Saints in Wright's eschatological perspective (Janet Meyer Everts), and the present mission of the

church in the world (Jeffrey S. Lamp). The Preface to the book is offered by Amos Yong. The volume concludes with an extended response to these studies by N.T. Wright where he enters into constructive conversation with his Pentecostal dialogue partners, a conversation that is certain to continue. *Revised Edition* McClelland & Stewart

A revealing look at the identity and mission of the black church What is the true nature and mission of the church? Is its proper Christian purpose to save souls, or to transform the social order? This question is especially fraught when the church is one built by an enslaved people and formed, from its beginning, at the center of an oppressed community's fight for personhood and freedom. Such is the central tension in

the identity and mission of the black church in the United States. For decades the black church and black theology have held each other at arm's length. Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression, arguing that Jesus urged his disciples to seek the freedom of all peoples. Meanwhile, the black church, even when focused on social concerns, has often emphasized personal piety rather than social protest. With the rising influence of white evangelicalism, biblical fundamentalism, and the prosperity gospel, the divide has become even more pronounced. In *The Divided Mind of the Black Church*, Raphael G. Warnock, Senior Pastor of the historic Ebenezer Baptist Church, the spiritual home of the Rev. Dr. Martin

Luther King, Jr., traces the historical significance of the rise and development of black theology as an important conversation partner for the black church. Calling for honest dialogue between black and womanist theologians and black pastors, this fresh theological treatment demands a new look at the church's essential mission.

This book provides an indispensable voice in the scholarly conversation on migration. It shows how migration has shaped and has been shaped by the three Abrahamic religions - Judaism, Christianity, and Islam. No theory of migration will be complete unless the theological insights of these religions are seriously taken into account.

Renewal Theology deals with the full range of Christian truth from within the charismatic tradition. Previously published as three separate volumes, Renewal Theology represents the first exhaustive, balanced articulation of charismatic theology. Renewal Theology discusses: Book One--God, the World, and Redemption - Book Two--Salvation, the Holy Spirit, and Christian Living - Book Three--The Church, the Kingdom, and Last Things. As theology, this work is an intellectual achievement. But it is much more than that. The author urges the church to undertake its task of theology in the proper spirit: - an attitude of prayer - a deepening sense of reverence - an ever-increasing purity of heart - a spirit of growing love - a

theological approach rooted in the glory of God. Done in such a spirit, theology becomes a faithful and powerful witness to the living God.

In this concise, one-volume systematic theology, celebrated scholar Anthony Thiselton comprehensively covers the spectrum of Christian doctrine with an eye to practical application for Christian discipleship. Written with students and busy ministers in mind, this book is readable and accessible, comprising fifteen chapters of relatively equal length, with each chapter containing five evenly balanced subsections for teaching and learning convenience. Rather than setting out an abstract system, Thiselton explores theology as a

living, organic whole. The book thus includes biblical foundations, historical thought, contemporary writers, and practical implications. Expertly incorporating biblical exegesis, philosophy, conceptual grammar, and hermeneutics, this work is the most succinct multidisciplinary systematic theology available.

Twenty-five doctoral students from around the world recently set out to forge a new path toward a theology of mission. As they blazed a new trail, they discovered the footprints of God--evidence that God was their trial guide. Charles Van Engen led this group of mission practitioners, pastors, teachers, and mission executives as they set out

to discover answers to important questions, such as "What is theology of mission?" and "What is missiology?" The team used a new approach to answer these questions, employing narrative to integrate personal story, community stories, cultural stories, and biblical stories. Each writer brings his or her own unique context to bear on these important questions through personal story and by highlighting the work of a major missiologist who has impacted their life and work. By drawing from personal stories, the authors show how human factors affect missiology. All of the chapters are set within a unique theological framework created by Charles Van Engen that focuses on mission of the way, mission in the way, and mission on the way. This framework

reveals that mission must be "of the way" (Christ-centered), "in the way" (happening among the peoples and cultures of the world), and "on the way" (moving forward over time through God's people as they anticipate Christ's present and coming kingdom). If you are concerned about connecting the Bible, theology, and ministry with the complexity and variety of contexts facing Christians today, then you will want to join this journey to discover the footprints of God. As Van Engen says, you will be encouraged to "think theologically about mission, and missiologically about theology."

Robert Menzies, writing in the lucid, moderate style for which he is well known, skillfully explains Pentecostal theology. His answer for the uncertain and the confused is a skillful melding of sound hermeneutics, solid exegesis, and heartfelt testimony. Pentecost demonstrates that the Pentecostal experience is by far the best twenty-first-century expression of Luke's

distinctive vision of the Spirit-baptized church in mission. This book is a heartfelt invitation for all Christians to be open to a new filling of the Holy Spirit of Jesus so He can continue to do immeasurably more for and through mere human beings than any of us can ask or even imagine!

Demonstrates the reliability of the canonical gospels by exploring the genre of ancient biography The canonical gospels are ancient biographies, narratives of Jesus's life. The authors of these gospels were intentional in how

they handled historical information and sources. Building on recent work in the study of ancient biographies, Craig Keener argues that the writers of the canonical gospels followed the literary practices of other biographers in their day. In *Christobiography* he explores the character of ancient biography and urges students and scholars to appreciate the gospel writers' method and degree of accuracy in recounting the ministry of Jesus. Keener's *Christobiography* has far-reaching implications for the study of the canonical gospels and historical-Jesus research. Table of Contents: Introduction Part 1. Biographies about Jesus 2. Pentecostalism is the most rapidly growing branch of Christianity since the 20th century, yet it does not lend itself well to a singular doctrine and there is, therefore, no single comprehensive account of Pentecostal theology worldwide. In this volume, Wolfgang Vondey suggests an account of Pentecostal theology that is genuine to Pentecostals worldwide while allowing for different adaptation and explication among the various Pentecostal groups. He argues that Pentecostal theology is fundamentally concerned with the renewal of the Christian life identified by the transforming work of the Holy Spirit

and directed toward the kingdom of God. The book unfolds in two main parts illustrating the full gospel story and theology. Eleven chapters identify the spiritual underpinnings and motivations for Pentecostal theology, formulate a Pentecostal theology of action, translate, apply, and exemplify Pentecostal practices and experiences, and integrate Pentecostal theology in the wider Christian tradition.

Many Christians live as though they are

effectively alone in the world. However, there is another realm of intelligent life that plays a role in the world—angelic beings. This book explores the doctrine of angels and demons, answering key questions about their nature and the implications for Christians' beliefs and behavior, helping readers see their place in the larger biblical plotline that includes supernatural beings. An understanding of the reality of angels and demons encourages believers to be vigilant in the light of spiritual warfare and to be confident in Christ's victory on the cross.

Offering a clear understanding of the doctrine of baptism in the Holy Spirit. In the Seventies, James Dunn's publication

of Baptism in the Holy Spirit gave rise to a heated debate within Pentecostals' milieu. Atkinson brings his contribution to the discussion and undertakes the job of synthesizing, evaluating and reviewing the key elements of the debate, with respect to Luke-Acts. Atkinson concludes that Pentecostals are right: for Luke, receiving the Spirit was not the inception of new covenant life; it was a powerful enabling for prophecy and miracles; for the church's outward mission and its internal life.

Pentecostalism is a growing movement in world Christianity. However, the growth of Pentecostalism in South Africa has faced some challenges, including the abuse of religion by some prophets. This

book first names these prophets and the churches they lead in South Africa, and then makes use of literary and media analysis to analyse the religious practices by the prophets in relation to cultism. Additionally, the book analyses the “celebrity cult” and how it helps promote the prophets in South Africa. The purpose of this book is threefold: First, to draw parallels between the abuse of religion and cultism. Second, to illustrate that it is cultic tendencies, including the celebrity cult, that has given rise to many prophets in South Africa. Last, to showcase that the challenge for many of these prophets is that the Pentecostal tradition is actually anti-cultism, and thus there is a need for them to rethink their cultic tendencies in order for them to be truly relevant in a

South African context.

How do we know the Bible is God's Word? What is sin and where did it come from? How is Jesus fully God and fully man? What are spiritual gifts? When and how will Christ return? If you've asked questions like these, then "systematic theology" is no abstract term. It's an approach to finding answers every Christian needs to know. Bible Doctrine takes a highly commended upper-level textbook on systematic theology and makes it accessible to the average reader. Abridged from Wayne Grudem's award-winning Systematic Theology, Bible Doctrine covers the same essentials of the faith, giving you a firm grasp on seven key topics: The Doctrine

of the Word of God The Doctrine of God The Doctrine of Man The Doctrine of Christ The Doctrine of the Application of Redemption The Doctrine of the Church The Doctrine of the Future Like Systematic Theology, this book is marked by its clarity, its strong scriptural emphasis, its thoroughness in scope and detail, and its treatment of such timely topics as spiritual warfare and the gifts of the Spirit. But you don't need to have had several years of Bible school to reap the full benefits of Bible Doctrine. It's easy to understand--and it's packed with solid, biblical answers to your most important questions.

The imagination is where the Creator chooses to meet his creatures, says

renowned theologian Garrett Green. The Word of God and the work of the Holy Spirit set the imagination free for genuine and creative knowledge of God, the world, others, and the self. Green explains that theology is best understood as human imagination faithfully conformed to the Bible as the paradigmatic key to the Christian gospel. He unpacks the implications of the imagination for a variety of theological issues, such as interpretation, aesthetics, eschatology, and the relationship between church and culture.

Worship addresses the question, what is Christian worship and why do Christians worship as they do? Beginning with an overview of the theological, biblical, historical, and anthropological foundations of Christian worship, Susan J. White then turns to discussing its components--prayer, creeds, music, time, ritual, and art. Later, she delves into the nourishment of the Christian life and the major worship events throughout the human life cycle. Finally, she discusses contemporary challenges to Christian worship and concludes with case studies for further exploration. With helpful appendixes and a glossary of liturgical terms, Susan White's Foundations of Christian Worship is an excellent primer for seminary students and ministers early in their careers.
