DAT best seller! Higher score money back guarantee! High yield biology review covering topics tested on DAT. • Cell and Molecular Biology • Diversity of life • Structure and function of systems • Developmental biology • Genetics • Evolution, ecology and behavior This book provides a detailed and thorough review of Biology topics tested on the DAT. The content covers foundational principles and theories necessary to answer related questions on the test. The information is presented clearly and organized in a systematic way to provide students with targeted DAT review tool. You can focus on one knowledge area at a time to learn and fully comprehend important concepts and principles,

or to simply refresh your memory. By reading these review chapters thoroughly, you will learn important biology concepts and the relationships between them. This will prepare you for the DAT and you will significantly increase your score. Scoring well on the DAT is extremely important for admission into dental school. To achieve a high DAT score, you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. Understanding key concepts, having the ability to extract information from the passages and distinguishing between similar answer choices is more valuable than simply memorizing terms. All the material in this book is prepared by our science editors who possess extensive credentials and are educated at top colleges and universities. It was reviewed and organized by our DAT editors to ensure strict adherence to the topics and skills outlined by the ADA for the current DAT. Our editors are experts on teaching, preparing students for standardized tests and have coached thousands of applicants on admission strategies.
