### CAREY JERAMIAH

**Final Cut** CRC Press

In this jam-packed jamboree of conversations, more than 60 movie veterans describe their experiences on the sets of some of the world's most beloved sci-fi and horror movies and television series. Including groundbreaking oldies (Flash Gordon, One Million B.C.); 1950s and 1960s milestones (The War of the Worlds, Psycho, House of Usher); classic schlock (Queen of Outer Space, Attack of the Crab Monsters); and cult TV favorites (Lost in Space, Land of the Giants), the discussions offer a frank and fascinating behind-the-scenes look. Among the interviewees: Roger Corman, Pamela Duncan, Richard and Alex Gordon, Tony "Dr. Lao" Randall, Troy Donahue, Sid Melton, Fess Parker, Nan Peterson, Alan Young, John "Bud" Cardos, and dozens more. *Handbook of Air Conditioning and Refrigeration* Perfection Learning Prebound  
 Finding a solution to the issue of Palestinian refugees has remained the main hurdle for an Israeli-

Palestinian peace settlement. This book represents a comprehensive political analysis of the Palestinian refugee issue. It tackles the matter on four dimensions. First, the historical context of the Palestinian exodus in both 1948 and 1967 is reviewed. Second, the question is traced whether there exists a Palestinian right of return according to international law. Third, an examination is presented regarding how and why the issue of refugees has remained a stumbling block during the Israeli-Palestinian peace talks. Fourth, the main part of the book analyses potential solutions to the refugee question, complementing the existing proposals with models developed by the author. What are their implications for both sides? What are the advantages and disadvantages of each proposal to Israelis and Palestinians, respectively? What is the relevance of each proposal as a mutually acceptable solution? Finally, a set of recommendations and guide-lines for future Israeli-Palestinian negotiations on refugees is presented. Overall, this study constitutes a valuable reference for anyone interested in a solution of the most intractable aspect of the Israeli-Palestinian conflict.

HVAC Water Chillers and Cooling Towers provides fundamental principles and practical techniques for the design, application, purchase, operation, and maintenance of water chillers and cooling towers. Written by a leading expert in the field, the book analyzes topics such as piping, water treatment, noise control, electrical service, and energy efficiency

[Empty Hearts](#) Jo Fletcher Books

'Terrifying and terrifyingly real, a must-read for fans of Stephen King and John Ajvide Lindqvist' - Elizabeth Hand, author of *Hard Light*  
 Welcome aboard the Baltic Charisma. Tonight, twelve hundred expectant passengers have joined the booze-cruise between Sweden and Finland. The creaking old ship travels this same route, back and forth, every day of the year. But this trip is going to be different. In the middle of the night the ferry is cut off from the outside world. There is nowhere to escape. There is no way to contact the mainland. And no one knows who to trust. . . . On the Baltic Sea, no one can hear you scream. 'I will never set foot on a cruise ship again!' - Åsa Larsson, bestselling author of *The Second Deadly Sin* and *Until thy Wrath Be Past*  
**Northern Irish Poetry** Houghton Mifflin

From the man who wrote the music that outsold the Beatles and the Rolling Stones in 1967-1968, . Immerse yourself in Grammy, Golden Globe, and Academy Award nominated songwriter Bobby Hart's world as he shares an exclusive glimpse into his life. Psychedelic Bubble Gum is the story behind his success, the rise of Boyce and Hart as musical goliaths, and their role in launching the Monkees to stardom. With unbending sincerity, Hart details a life of extravagance, betrayal, loss, disillusionment, and an unstoppable personal struggle to find balance, peace, and love. Psychedelic Bubble Gum is a rollercoaster ride through the 1960s and 70s America's whirlwind era of free speech, mysticism, and psychedelic pop culture packed with intimate behind-the-scenes encounters with pop star royalty. Psychedelic Bubble Gum is tempered by humor, honesty, and a singular understanding of the industry.

**Hotel Chiller** Penguin

Take a little Horror home with you! Take a little Horror home with you! Jonathan Chiller has called the kids from books #13-18 back to HorrorLand to collect payment. The only way for the kids to get back home is for them to win at a HorrorLand-style scavenger hunt. They each must find a red chest. Inside, the miniature Horror will act as a portal to send them back home. They'll be competing against Murder the Clown, Chef Belcher, Mondo the Magical, and three other unsavory characters from the previous six books. Little do they know that all six adversaries are actually Chiller in disguise. And Chiller will lie and cheat his way to victory.

**A Novel** Nan A. Talese

This book provides a reference to analysis techniques of common cooling water system problems and a historical perspective on solutions to chronic cooling water system problems, such as corrosion and biofouling. It covers best design practices for cooling water systems that are required to support the operation of all electric power plants. Plant engineers will gain better understanding of the practical issues associated with their cooling water systems and new designs or modifications of their systems should consider the actual challenges to the systems. The book is intended for graduate students and practicing engineers working in both nuclear and fossil power plants and industrial facilities that use large amounts of cooling water.

**A Professional's Guide** Rowman & Littlefield

Guns, moonshine, monsters--there's a lot going on in the backwoods of Kentucky. Iris Gentry is a war veteran who returned from Iraq to find his options for supporting his family limited. Since they live in a "dry" county, Iris has turned to running moonshine for his former ranking officer--meaning the men now share crimes at home and abroad. You see, back in their combat days, Iris's regiment got involved in something they shouldn't have, and now a deadly, otherworldly consequence has come looking for vengeance. Collects THE DARK & BLOODY #1-6.

**Tales from the Cult Film Trenches** Penguin

"From the best-selling author of Maine, a gorgeous, compulsively-readable novel that tells the story of the complex relationship between two women, Elisabeth, a privileged new mother and writer attempting to find her footing after childbirth, and Sam, the idealistic, working-class college student she hires to nanny her young son"--

**Palestinian Refugees and the Search for Middle East Peace** Sparkling Books

One of The Washington Post's 10 Best Books of 2021 \* One of NPR's Best Books of 2021 \* New York Times Book Review Editors' Choice \* Long-listed for the Center for Fiction First Novel Prize "Dizzily original, fiercely funny, deeply wise." —Celeste Ng, #1 bestselling author of Little Fires Everywhere "Sanjena Sathian's Gold Diggers is a work of 24-karat genius." —Ron Charles, The Washington Post How far would you go for a piece of the American dream? A magical realist coming-of-age story, Gold Diggers skewers the model minority myth to tell a hilarious and moving story about immigrant identity, community, and the underside of ambition. A floundering second-generation teenager growing up in the Bush-era Atlanta suburbs, Neil Narayan is funny and smart but struggles to bear the weight of expectations of his family and their Asian American enclave. He tries to want their version of success, but mostly, Neil just wants his neighbor across the cul-de-sac, Anita Dayal. When he discovers that Anita is the beneficiary of an ancient, alchemical potion made from stolen gold—a "lemonade" that harnesses the ambition of the gold's original owner—Neil sees his chance to get ahead. But events spiral into a tragedy that rips their community apart. Years later in the Bay Area, Neil still bristles against his community's expectations—and finds he might need one more hit of that lemonade, no matter the cost. Sanjena Sathian's astonishing debut offers a fine-grained, profoundly intelligent, and bitingly funny investigation into what's required to make it in America. Soon to be a series produced by Mindy Kaling!

**Cracking the Coding Interview** McGraw-Hill Companies

The destruction of the World Trade Center complex on 9/11 set in motion a chain of events that fundamentally transformed both the United States and the wider world. War has raged in the Middle East for a decade and a half, and Americans have become accustomed to surveillance, enhanced security, and periodic terrorist attacks. But the symbolic locus of the post-9/11 world has always been "Ground Zero"--the sixteen acres in Manhattan's financial district where the twin towers collapsed. While idealism dominated in the initial rebuilding phase, interest-group trench warfare soon ensued. Myriad battles involving all of the interests with a stake in that space--real estate interests, victims' families, politicians, the Port Authority of New York and New Jersey, the federal government, community groups, architectural firms, and a panoply of ambitious entrepreneurs grasping for pieces of the pie--raged for over a decade, and nearly fifteen years later there are still loose ends that need resolution. In *Power at Ground Zero*, Lynne Sagalyn offers the definitive account of one of the greatest reconstruction projects in modern world history. Sagalyn is America's most eminent scholar of major urban reconstruction projects, and this is the culmination of over a decade of research. Both epic in scope and granular in detail, this is at base a classic New York story. Sagalyn has an extraordinary command over all of the actors and moving parts involved in the drama: the long parade of New York and New Jersey governors involved in the project, Mayor Michael Bloomberg, various Port Authority leaders, the ubiquitous real estate magnate Larry Silverstein, and architectural superstars like Santiago Calatrava and Daniel Libeskind. As she shows, political competition at the local, state, regional, and federal level along with vast sums of money drove every aspect of the planning process. But the reconstruction project was always about more than complex real estate deals and jockeying among local politicians. The symbolism of the reconstruction extended far beyond New York and was freighted with the twin tasks of symbolizing American resilience and projecting American power. As a result, every aspect was contested. As Sagalyn points out, while modern city building is often dismissed as cold-hearted and detached from meaning, the opposite was true at Ground Zero. Virtually every action was infused with symbolic significance and needed to be debated. The emotional dimension of 9/11 made this large-scale rebuilding effort unique; it supercharged the complexity of the rebuilding process with both sanctity and a truly unique politics. Covering all of this and more, *Power at Ground Zero* is sure to stand as the most important book ever written on the aftermath of arguably the most significant isolated event in the post-Cold War era.

**150 Programming Interview Questions and Solutions** SelectBooks, Inc.

This book is about a married couple, Richard and Leena Fine. Richard Fine is a millionaire, and Leena Fine is a manager of a clothing store and is an actress. Richard Fine is the owner of Hotel Chiller in Los Angeles, California, and runs one of the biggest chains of hotels in the state of California. Fine retired part-time from his job for about a year and wanted to spend more time writing books. He always dreamed of writing books about glamorous actresses whom he met in Hollywood, California, and Los Angeles, who spent their time at Hotel Chiller. Richard was always fascinated with glamorous women. This inspired him to go to college for four years, where he obtained a master's degree in English. During his studies, Richard Fine travelled the world. For years, Richard Fine took photos from events that he attended in England, Italy, and California. He also got his inspiration for writing when his wife, Leena, appeared on the television show *Rikers Hospital* and portrayed a rich lady in Los Angeles. She was a freelance writer for the television series as well. When he travelled the world with his gorgeous wife, Leena, Richard kept a photo collection until he decided when he was ready to write. One can tell that the Fines love travelling around the world. They are not your average everyday couple. Wherever they go, excitement is in the air for these two, and they are always up for a challenge. You never know what is going to happen at any event. Another interesting thing about them is that they seem to find murder or any kind of trouble wherever they go, whether it's on vacation or in book-signing events or because they're trying to help bail out a friend. Murder and trouble are their hobbies. However, as busy as they are, they still find lots of time for love and snuggles in between and keep their marriage full of love. In this book, a fan is stalking Richard Fine. And he and his wife, Leena, are trying to solve the disappearance of their daughter. Richard Fine is on his book-signing tour, and after the third event, he is threatened by a fan online, and security is alerted. Sara, a dedicated fan, becomes suspicious at his first book-signing event and even more suspicious at the third event in New Jersey, where she witnesses the stalker's attempt at trying to hurt Mr. Fine while waiting online. Sara runs to security. Sara does get questioned by Mr. Fine before the last threat and clams up in the photo room, trying to hide information because she's scared. For if a judge where to find out Sara was in

danger, she could be put into custody for her disability. In this story, Richard attends his first book-signing event and speaks about *I Loved Her* in the Eighties. He introduces his actress Maria St. John. He has met her in the eighties, and then he goes and speaks about the nineties and how he photographed gorgeous actors and actresses, including Rachael Goldstein from the picture *Civil Liberties* and Jim Rod, who appeared in *Ben Franklin, Long Ago*. One fan travelled to his events and is suspicious of someone stalking the author Richard Fine. This stalker becomes obsessed with his wife, Leena Fine. The Fines are also undercover to find out information about the disappearance of their daughter. In a year's time, Richard becomes an aspiring writer who gets more than he bargains for when his favorite best-selling book, *I Loved Her* in the Eighties, reaches a stalker who finally threatens Richard and his wife, scaring three thousand people, including his wife, at one of his book-signing events in New Jersey.

**A Novel** Oxford University Press

Called 'an erotic, psychological and nuanced thriller' by NPR, *Final Cut* is the new compulsive read from the New York Times bestselling author of *Before I Go to Sleep*, which sold over 100,000 print and ebook copies in Australia.

**HVAC Water Chillers and Cooling Towers** Hachette Books

Jason Robbins and Helen Jenkins arrive at eerie Heron House in Carmarthenshire. Together they discover what dangers lurk behind the walls; how the post-war past bleeds into the present when the tormented soul of the young woman haunting them will stop at nothing to have her story told. But is the ghost's version of events to be trusted?

**Expert Systems in Data Processing** Knopf Books for Young Readers

\*\*Instant International Bestseller, New York Times Bestseller, USA Today Bestseller, Wall Street Journal Bestseller, Los Angeles Times Bestseller, Publishers Weekly Bestseller\*\* Uncover never-before-told stories in this epic tale of self-discovery by a Rock n Roll disciple and member of the E Street Band. What story begins in a bedroom in suburban New Jersey in the early '60s, unfolds on some of the country's largest stages, and then ranges across the globe, demonstrating over and over again how Rock and Roll has the power to change the world for the better? This story. The first true heartbeat of *Unrequited Infatuations* is the moment when Stevie Van Zandt trades in his devotion to the Baptist religion for an obsession with Rock and Roll. Groups like the Beatles and the Rolling Stones created new ideas of community, creative risk, and principled rebellion. They changed him forever. While still a teenager, he met Bruce Springsteen, a like-minded outcast/true believer who became one of his most important friends and bandmates. As Miami Steve, Van Zandt anchored the E Street Band as they conquered the Rock and Roll world. And then, in the early '80s, Van Zandt stepped away from E Street to embark on his own odyssey. He refashioned himself as Little Steven, a political songwriter and performer, fell in love with Maureen Santoro who greatly expanded his artistic palette, and visited the world's hot spots as an artist/journalist to not just better understand them, but to help change them. Most famously, he masterminded the recording of "Sun City," an anti-apartheid anthem that sped the demise of South Africa's institutionalized racism and helped get Nelson Mandela out of prison. By the '90s, Van Zandt had lived at least two lives—one as a mainstream rocker, one as a hardcore activist. It was time for a third. David Chase invited Van Zandt to be a part of his new television show, the *Sopranos*—as Silvio Dante, he was the unconditionally loyal consigliere who sat at the right hand of Tony Soprano (a relationship that oddly mirrored his real-life relationship with Bruce Springsteen). Underlying all of Van Zandt's various incarnations was a devotion to preserving the centrality of the arts, especially the endangered species of Rock. In the twenty-first century, Van Zandt founded a groundbreaking radio show (*Little Steven's Underground Garage*), created the first two 24/7 branded music channels on SiriusXM (*Underground Garage* and *Outlaw Country*), started a fiercely independent record label (*Wicked Cool*), and developed a curriculum to teach students of all ages through the medium of music history. He also rejoined the E Street Band for what has now been a twenty-year victory lap. *Unrequited Infatuations* chronicles the twists and turns of Stevie Van Zandt's always surprising life. It is more than just the testimony of a globe-trotting nomad, more than the story of a groundbreaking activist, more than the odyssey of a spiritual seeker, and more than a master class in rock and roll (not to mention a dozen other crafts). It's the best book of its kind because it's the only book of its kind.

**Power at Ground Zero** Goodheart-Willcox Pub

"[An] uncanny Gothic mystery... Satisfying."—New York Times Book Review "A romping read with a deliciously dark conceit at its center... Reminded me of *Alias Grace*."—Kiran Millwood Hargrave From the author of *The Silent Companions*, a thrilling Victorian gothic horror story about a young

seamstress who claims her needle and thread have the power to kill Dorothea Truelove is young, wealthy, and beautiful. Ruth Butterham is young, poor, and awaiting trial for murder. When Dorothea's charitable work brings her to Oakgate Prison, she is delighted by the chance to explore her fascination with phrenology and test her hypothesis that the shape of a person's skull can cast a light on their darkest crimes. But when she meets one of the prisoners, the teenaged seamstress Ruth, she is faced with another strange idea: that it is possible to kill with a needle and thread--because Ruth attributes her crimes to a supernatural power inherent in her stitches. The story Ruth has to tell of her deadly creations--of bitterness and betrayal, of death and dresses--will shake Dorothea's belief in rationality, and the power of redemption. Can Ruth be trusted? Is she mad, or a murderer? For fans of Shirley Jackson, *The Poison Thread* is a spine-tingling, sinister read about the evil that lurks behind the facade of innocence.

**Sexual Content in Young Adult Literature** CreateSpace  
American Chillers series.

**Hospitality** Simon and Schuster

Look out for David Owen's next book, *Where the Water Goes*. A challenging, controversial, and highly readable look at our lives, our world, and our future. Most Americans think of crowded cities as ecological nightmares, as wastelands of concrete and garbage and diesel fumes and traffic jams. Yet residents of compact urban centers, Owen shows, individually consume less oil, electricity, and water than other Americans. They live in smaller spaces, discard less trash, and, most important of all, spend far less time in automobiles. Residents of Manhattan--the most densely populated place in North America--rank first in public-transit use and last in percapita greenhouse-gas production, and they consume gasoline at a rate that the country as a whole hasn't matched since the mid-1920s, when the most widely owned car in the United States was the Ford Model T. They are also among the only people in the United States for whom walking is still an

important means of daily transportation. These achievements are not accidents. Spreading people thinly across the countryside may make them feel green, but it doesn't reduce the damage they do to the environment. In fact, it increases the damage, while also making the problems they cause harder to see and to address. Owen contends that the environmental problem we face, at the current stage of our assault on the world's nonrenewable resources, is not how to make teeming cities more like the pristine countryside. The problem is how to make other settled places more like Manhattan, whose residents presently come closer than any other Americans to meeting environmental goals that all of us, eventually, will have to come to terms with.

*HVAC Engineer's Handbook* Hotel Chiller

Significantly revised and updated since its first publication in 1996, *Absorption Chillers and Heat Pumps, Second Edition* discusses the fundamental physics and major applications of absorption chillers. While the popularity of absorption chillers began to dwindle in the United States in the late 1990's, a shift towards sustainability, green buildings and the use of renewable energy has brought about a renewed interest in absorption heat pump technology. In contrast, absorption chillers captured a large market share in Asia in the same time frame due to relative costs of gas and electricity. In addition to providing an in-depth discussion of fundamental concepts related to absorption refrigeration technology, this book provides detailed modeling of a broad range of simple and advanced cycles as well as a discussion of applications. New to the Second Edition: Offers details on the ground-breaking Vapor Surfactant theory of mass transfer enhancement Presents extensively revised computer examples based on the latest version of EES (Engineering Equation Solver) software, including enhanced consistency and internal documentation Contains new LiBr/H<sub>2</sub>O property routines covering a broad range of temperature and the full range of concentration Utilizes new NH<sub>3</sub>/H<sub>2</sub>O helper functions in EES which significantly enhance ease of use Adds a new chapter on absorption technology applications Offers updated absorption fluid transport property information *Absorption Chillers and Heat Pumps, Second Edition* provides an

updated and thorough discussion of the physics and applications of absorption chillers and heat pumps. An in-depth guide to evaluating and simulating absorption systems, this revised edition provides significantly increased consistency and clarity in both the text and the worked examples. The introduction of the vapor surfactant theory is a major new component of the book. This definitive work serves as a resource for both the newcomer and seasoned professional in the field. *Absorption Chillers and Heat Pumps* Springer

Though discussing sexual material in novels aimed at the young adult market may make some individuals blush, the authors of such fiction often seek to represent a very real component in the lives of many teens. Unfortunately, authentic and teen-relatable information on healthy adolescent sexuality is not readily available, and sex education classes have had a minimal effect on positive sexual identity development. Consequently, young adult literature that contains sexual elements can play a critical role in addressing the questions and concerns of teens. In *Sexual Content in Young Adult Fiction: Reading between the Sheets*, Bryan Gillis and Joanna Simpson examine sexual material in canonical, historical, dystopian, romantic, and realistic contemporary fiction for teens. The authors begin with an exploration of sexual identity development and discuss the constructive influence that realistic representations of teen sexual behavior can have on that development. The authors provide a myriad of texts and examples that will help parents, teachers, and librarians better understand the positive role that sexual content in YA fiction can play in the socio-emotional and academic development of adolescents. The book concludes with an overview and analysis of censorship in the world of young adult fiction. In addition to providing a survey of sexual content in young adult literature, this book can help inspire adults to facilitate effective and responsible discussions about young adult fiction that contains sexual material. Featuring a "novels cited" and "works cited" bibliography, *Sexual Content in Young Adult Fiction* is an important resource that parents and educators will find particularly valuable.
