Leather Work B.E.S. Publishing

HOLSTERS have played, and are still playing, a very important part in the history of man. And, since the making and manufacture of the first hand guns, methods for concealing, easier handling and carrying of these weapons have been devised. Trial and error being the surest way of improvement, holster making has now advanced to fill almost every need and requirement of the pistol user. Today, with the hundreds of Makes, Models, and barrel lengths of hand guns, it would be virtually impossible to reproduce holster patterns for each and every one into book form. The Holster Patterns presented in this book are a cross-section of a few of the most popular Makes and Models of the guns in use today; with alternate designs and added barrel lengths as space permits. Most of the Carving Designs presented can be altered for shorter, longer, or odd barrel lengths by adding or omitting a leaf, scroll, etc. The designs can also be used on similar holster patterns for other guns by "stretching" or "squeezing" the flowers, leaves, etc., to fit the confines of the border lines. With a little Imagination and Ingenuity, the Carving Designs in this book can be used on hundreds of holster patterns. Remember... the patterns shown will also fit many other similar makes and models of guns ... too numerous to mention. The purpose of this book is to assist and instruct the craftsman in various methods of Holster Construction and Holster Pattern Making. Each phase is shown with clearly defined step-by-step photos and drawings. It is hoped that this book will aid the Self Taught Student, Instructor, and Professional Craftsman alike to further their knowledge of "How To Make Holsters" for Profit, Personal Satisfaction and Fun! A "special" thanks to my wife, Terry, who has

devoted countless hours and painstaking effort to produce all of the photographs appearing in this book. Many thanks to Ralph Tiner . . . Sporting Goods Center, Hemet, Calif. ... for his willing cooperation in supplying guns and information. Thanks to Lee Kelly, U. S. Forestry Service, and many other friends who have given unselfishly of their time and assistance. To the Leathercraftsman: Thanks for your patience in awaiting the first publication of "How To Make Holsters" . . . Many Happy Hours! Sincerely, Al Stohlman

Design Originals

Peter Main teaches how to carve oak leaves, acorns, wild roses and other flowers, as well as, many styles of leaves and scrolls by Al Stohlman's methods.

Beginner Friendly Guide to Leather Crafting Process, Tips and Techniques Courier Dover Publications

Drawing with Fire on Leather, Gourds, Cloth, Paper, and Wood Read Books Ltd

A hand-carved gunstock adds both beauty and value to a firearm. A well-executed pattern or motif on a hand-carved stock enhances the personal and monetary value of any gun. Create your own one-of-a-kind functional artwork that will be cherished for years to come with this treasury of classic gunstock carving patterns. You're sure to find the best carving pattern here for your next project. From basic checkering to dramatic relief carved scenes, nationally recognized carving artist Lora S. Irish presents 135 great gunstock patterns featuring traditional sportsman and hunting-related themes. She offers an array of excellent choices for every skill level, from beginner to expert, so you can start with a basic pattern and tackle more intricate designs as your experience in gunstock carving grows. The patterns in this book are designed for rifle stocks, but small changes will make them just as applicable to knife handles, pistol grips, or duck calls. And while these patterns are specifically designed to be relief carved with hand tools, they are equally usable with power carving tools, woodburners, laser engravers, and sand blasters. Inside 135 Gunstock Carving Patterns you'll find: " Animal patterns including deer, elk, moose, bears, mountain goats, puma, and more " Bird and waterfowl patterns from quail and pheasant to ducks, geese, and eagles " Designs for panels, ornaments, banners, and scrolls " Oak leaves, fishscale, basketweave, and checkering " Advice for choosing your pattern, wood, tools, and carving method " Whether to start from scratch or use a kit

Leather Work Harper Collins

This book shows how to make 40 bags and miscellaneous goods with very simple, clear-cut instructions that even total beginners can follow. What makes this book special is that it has patterns with stitch marks at the end of the book. Leather is usually sewn after piercing holes for stitching, which means that punching the holes is the most important part. If the number of holes and their stitching positions match, all that is left to do is sew the item together along the holes.

Tanned leather gradually softens. In this book, since thick leather is used and linings are not, the shape of your bag may change depending on age and use. This is actually one of the wonders of aged, tanned leather, that you will enjoy.

Leatherwork Manual Randy Paul Spencer

This vintage book contains a detailed guide to leather working. Profusely illustrated and written in simple, plain language, this volume is highly recommended for those with little previous experience. Although old, "Leather Work" contains a wealth of information that will be useful to the modern reader. Contents include: "Kinds of Leather and Their Treatment", "Design", "Tracing and Design", "Pyrography", "Carving and Incising", "Engraving", "Modeling and Embossing", "Stamping and Tooling", "Cut Work", "Applique", "Inlay and Mosaic", "Coloring and Gilding", "Illustrations", and "Patterns". Many vintage books such as this are increasingly scarce and expensive. We are republishing this volume now in an affordable, modern edition complete with a specially commissioned new introduction. First published in 1908.
