 Budō Taijutsu (Martial Arts Body Technique), combines the essence of nine classical martial art systems from Japan. Through his organisation, the Bujinkan, Grandmaster Masaaki Hatsumi-sensei has overseen the growth of Budō Taijutsu to many thousands of practitioners worldwide. Its training philosophy of developing your response in accordance with the situation provides both a dynamic martial art and practical form of self-

defence. In Budō Taijutsu: An Illustrated Reference Guide of Bujinkan Dōjō Budō Taijutsu, author and illustrator Duncan Mitchell provides a comprehensive training manual for both beginners and experienced students. The book starts with basic training advice, physical preparation exercises and how to take a fall safely before moving on to providing clear diagrams and brief explanations for the essential basic techniques of striking, joint locks, throws, choking and self-defence. The second half of the guide then gives detailed descriptions of Kata (practice forms) for: Shinden Fudō Ryū Dakentaijutsu Kuki Shinden Ryū Dakentaijutsu Takagi Yōshin Ryū Jūtaijutsu Gyokko Ryū Kosshijutsu Kotō Ryū

 TRANSLATOR' S INTRODUCTION We would like to begin by thanking Doshu Ueshiba Kisshomaru and the Aikikai Foundation for making this family treasure available for publication. We also wish to express our appreciation to those teachers who gave their invaluable help in explaining difficult passages. Due to the historical nature of this work certain difficulties arose, especially in deciding to what degree we should try to produce clear and precise English. Any precise translation could easily become a personal translation, limiting the contents and range of the translator's individual understanding at

this particular point in his or her training. Therefore, after consulting some of the highest Sensei in Aikido and other arts it was decided to strive for a translation that would both preserve the simplicity of the original expression and at the same time leave open to the reader at least the possibility of coming up with the broad set of ideas and associations indicated in the Japanese. This book appeared in 1933 and is the first published account of O-Sensei's art. Although not actually written down by him, it is a transcription of lectures and explanations which was later reviewed by the founder and approved as a teacher's manual. The political and historical context of the times should be kept in mind. No attempt has been made to edit the text. The original copy has O-Sensei's title which was simply "Budo Renshu", i.e. "Budo Training". Later the second Doshu annotated this with the word "Aikido". The Dojo decided on using the original name here despite the fact that most Japanese copies are entitled "Aikijujutsu Ogi", or "The Secrets of Aikijujutsu". The latter is actually an interpretive heading used by the copyists. The original was hand-written and illustrated. Later this was copied out several times, using tracing paper to reproduce the illustrations. During this process errors easily crept in. By comparing various copies, most of the poems could be deciphered despite their flowery writing style. However only a few of the tracing mistakes have been corrected here. In other cases the terms 'left' and 'right' had been reversed. This seems to be the result of confusing Nage's point of view Uke's. In this edition these obvious errors have been corrected to match the illustrations. The poems presented the biggest problems. Much effort was spent to offer the reader a translation which presents as closely as possible the same degree of leeway for interpretation, insight and error, as appears in the original. Two versions are offered. One reflects the 5-7-5-7-7 syllabic structure of five line, Japanese Waka poetry. Each line in English contains the same groups of words found in the corresponding line of Japanese. The second attempt is to put the poem into a somewhat clearer English syntax. Another interesting point about the poems is that not all of them are original compositions of O-Sensei. At least a few can be traced to other martial traditions. Please note that the parentheses indicate the insertion, for your reference, of a Japanese word used in the text for the preceding English word (except for a few cases in the technique section where O-Sensei used parentheses in the original). Square brackets are the

translator's insertions for the sake of the English. By simply deleting the sections enclosed by them, they allow readers to refer to O-Sensei's exact words, if they choose to do so. Although not for the beginner, it is hoped that access to this historically important text will be useful in understanding Aikido and its origins for those who have taken Budo as their 'Way'. In *The Art of the Japanese Sword*, master swordsmith Yoshindo Yoshihara offers a detailed look at the entire process of Japanese sword making, including the finishing and appreciation of Japanese blades. Japanese sword art stands out in many ways: functionality as a weapon, sophisticated metallurgy and metalsmithing, the shape of the blade itself--all contribute to the beauty of these remarkable weapons. *The Art of the Japanese Sword* conveys to the reader Japanese samurai sword history and Japanese sword care, as well as explaining how to view and appreciate a blade. With 256 full-color pages, this sword book illustrates in meticulous detail how modern craftsmen use traditional methods to prepare their steel, forge the sword and create the unique hardened edge. By gaining a good understanding of how a sword is actually made, the reader will be able to appreciate the samurai sword more fully. A Jujutsu instruction manual for the Shinto Rikugo School, which was a blend of six different classical Jujutsu schools published in Japan in 1913. This school was set up to compete with the popular Kodokan Judo. Jujutsu 1913 was one of the earliest Japanese martial arts guides to use photographs to show how to do techniques. Jujutsu 1913 contains 200 black and white photographs and illustrations showing the proper way to set up various throws, sweeps, chokes and grappling techniques. The titles and descriptions have all been translated into English for the first time. An invaluable look into how Jujutsu was taught in the pre-war era. An excellent book for Jujutsu (Jujitsu), Judo, BJJ or Japanese martial arts researchers or practitioners.

Secrets of the Samurai is the definitive study of the martial arts of feudal Japan, explaining in detail the weapons, techniques, strategies, and principles of

combat that made the Japanese warrior a formidable foe. The work begins with a panoramic survey of the tumultuous early struggles of warlords contending for political ascendancy and then outlines the relentless progression of the military class toward absolute power. In addition to illustrating actual methods of combat, the authors discuss in detail the crucial training necessary to develop a warrior's inner power and to concentrate all his energies into a single force. *Secrets of the Samurai* is an essential text for anyone with an interest in Japanese combat techniques, weaponry, or military history. This edition also contains a new foreword by Adele Westbrook and numerous previously unpublished illustrations by Oscar Ratti. Chapters include: The Bushi The Heimin The Centers of Martial Instruction Armed Bujutsu Unarmed Bujutsu Control and Power Strategic Principles Morality of Bujutsu Miyamoto Musashi Japan Publications This excellent staff training book contains over 250 detailed jojutsu illustrations with introduction, biography, notes and insights. Legend has it that the Shinto Muso Ryu style of Jojutsu was founded after Muso Gonnosuke Katsuyoshi (17th century samurai) lost a duel. Katsuyoshi traveled on his musha shugyo to test what he had mastered in Tenshin Shoden Katori Shinto Ryu. He was unprepared for his loss to Miyamoto Musashi (1584-1645) who was an expert swordsman and ronin, credited with winning over 60 duels. After his loss, Katsuyoshi withdrew into seclusion, practicing swordsmanship and performing purification rituals in an effort to perfect his technique. Fujita Seiko (1898-1966) was a Japanese martial artist and military instructor who many consider to be the last Koga Ninjutsu master. During the World War 2 he taught special training in the Army Academy of Nakano.

Western scholars and educators are generally far less familiar with the samurai in his original-and, ostensibly, primary-role as warrior and masters of arms than in his other functions as landowner, feudal lord, literature, or philosopher. Yet, any attempt to comprehend fully the samurai without considering his military abilities and training (bugei) is futile. With verve and wit, Karl Friday combines the results of nearly two decades of fieldwork and archival research to examine samurai martial culture from a broad perspective: as a historical phenomenon, as a worldview, and as a system of physical, spiritual, and moral education.

"The techniques are really a vessel for carrying all the things that are budo..."

Most books about martial arts (budo) focus on techniques, although some tell the history, and a few wax philosophical. It is rare indeed to discover a book that so fluently combines all this within the broader context of culture and lifestyle, and does so in such a humble, engaging, and accessible way. "Budo Bum Anthology" is a book that answers not so much "how" or "what" as it does "why?" Why call budo teachers "sensei"? Why do we bow? Why kata? Why keep training? Peter Boylan, aka the Budo Bum, has achieved high rank in several martial arts - judo, iaido, jodo, and more--spending decades immersed within budo, straddling the worlds and cultures of Japan and America, and translating between them. In these essays, the reader is invited to walk alongside a quiet man who thinks deeply about the worlds in which budo was created and is practiced, and who brings the meaning of "all the things that are budo" into our daily lives. CONTENTS Introduction Getting Started Do you have to study in Japan to understand budo? Miyamoto Musashi's Go Rin no Sho or the book of five rings, is considered a classic treatise on military strategy, much like Sun Tzu's The Art of War and Chanakya's Arthashastra. The five "books" refer to the idea that there are different elements of battle, just as there are different physical elements in life, as described by Buddhism, Shinto, and other Eastern religions. Through the book Musashi defends his thesis: a man who conquers himself is ready to take it on on the world, should need arise.

Bill commenced his study of Asian fighting arts in 1969 in Melbourne, Australia. In the early 1980s he travelled to Japan and later China training, competing and learning about life, Asian cultures and languages and the part they play in the traditional fighting arts of Asia. His hard work, determination and fighting spirit quickly won the respect of many combat masters of Japan and China, several of whom would later become lifelong friends and mentors. This is the story of a man who was given up for dead by doctors at thirteen, who became a drifter without any particular focus and who was brought full circle by the culture and fighting masters of two ancient civilizations. It is also the story of wonderful people - the men and women who study and teach the Asian fighting arts to any genuine seeker with the right spirit.
