Conflict and the Progress of Civilization from Primates to Robots

University of Pennsylvania Press
 One of the New York Times's 100 Notable Books of 2016 One of NPR's 10 Best Books of 2016 "Heartachingly relevant...the Eleanor Roosevelt who inhabits these meticulously crafted pages transcends both first-lady history and the marriage around which Roosevelt scholarship has traditionally pivoted." -- The Wall Street Journal The final volume in the definitive biography of America's greatest first lady. "Monumental and inspirational...Cook skillfully narrates the epic history of the war years... [a] grand biography." -- The New York Times Book Review Historians, politicians, critics, and readers everywhere

have praised Blanche Wiesen Cook's biography of Eleanor Roosevelt as the essential portrait of a woman who towers over the twentieth century. The third and final volume takes us through World War II, FDR's death, the founding of the UN, and Eleanor Roosevelt's death in 1962. It follows the arc of war and the evolution of a marriage, as the first lady realized the cost of maintaining her principles even as the country and her husband were not prepared to adopt them. Eleanor Roosevelt continued to struggle for her core issues—economic security, New Deal reforms, racial equality, and rescue—when they were sidelined by FDR while he marshaled the country through war. The chasm between Eleanor and Franklin grew, and the strains on their relationship were as political as they were personal. She also had to negotiate the fractures in the close circle of influential women

around her at Val-Kill, but through it she gained confidence in her own vision, even when forced to amend her agenda when her beliefs clashed with government policies on such issues as neutrality, refugees, and eventually the threat of communism. These years—the war years—made Eleanor Roosevelt the woman she became: leader, visionary, guiding light. FDR's death in 1945 changed her world, but she was far from finished, returning to the spotlight as a crucial player in the founding of the United Nations. This is a sympathetic but unblinking portrait of a marriage and of a woman whose passion and commitment has inspired generations of Americans to seek a decent future for all people. Modest and self-deprecating, a moral force in a turbulent world, Eleanor Roosevelt was unique.

Dan Billany's *The Trap*, first published in 1950, still stands - in the opinion of M.R.D. Foot - as 'one of the most powerful English novels to come out of the [Second World War].' It echoes the wartime experiences of its author, who is believed to have died in 1943 while on the run from an Italian POW camp, but not before entrusting the manuscripts of *The Trap* to safekeeping. The book's narrator, army lieutenant Michael Carr, tells of his early years in Cornwall, of the girl he met and loved there, and of the hard times her family endured between the wars. These troubles and joys give way to the tragedy of war, and the book's narrative becomes one of comradeship, suspense and fighting in the North African desert. 'The Trap is an outstanding novel by a writer of natural genius... written with great force and honesty... profoundly impressive.' *Times Literary Supplement*

A World War II Story of Survival, Resilience, and Redemption Simon and Schuster

Startling and scandalous, this is an intimate insider's story of Osama bin Laden's retinue in the ten years after 9/11, a family in flight and at war. From September 11, 2001 to May 2, 2011,

Osama Bin Laden evaded intelligence services and special forces units, drones and hunter killer squads. *The Exile* tells the extraordinary inside story of that decade through the eyes of those who witnessed it: bin Laden's four wives and many children, his deputies and military strategists, his spiritual advisor, the CIA, Pakistan's ISI, and many others who have never before told their stories.

Investigative journalists Cathy Scott-Clark and Adrian Levy gained unique access to Osama bin Laden's inner circle, and they recount the flight of Al Qaeda's forces and bin Laden's innocent family members, the gradual formation of ISIS by bin Laden's lieutenants, and bin Laden's rising paranoia and eroding control over his organization. They also reveal that the Bush White House knew the whereabouts of bin Laden's family and Al Qaeda's military and religious leaders, but rejected opportunities to capture them, pursuing war in the Persian Gulf instead, and offer insights into how Al Qaeda will attempt to regenerate itself in the coming years. While we think we know what happened in Abbottabad on May 2, 2011, we know little about the wilderness years that led to that shocking event. As authoritative in its scope and detail as it is propulsively readable, *The Exile* is a landmark work of investigation and reporting.

Clodagh Finn has travelled throughout Europe to piece together the story of this remarkable, unknown Irish woman, meeting many of those children Mary Elmes saved. Here, in a book packed with courage, heroism, adventure and tragedy, her story is finally remembered. The children called her 'Miss Mary', and they remember her kindness still. She gave them food and shelter and later risked her life to help them escape the convoys bound for Auschwitz. Turning her back on a brilliant academic career, Mary Elmes ventured into a war zone to help children in the Spanish Civil War. In 1939, she fled Franco's forces but continued to work with refugees in France when the Second World War broke out. In 1942, when it became evident that Jews were being deported to their deaths, she smuggled children to safety in the boot of her car. She was arrested and imprisoned by the Gestapo, but went straight back to work after her release. When the war was over, Mary married and settled down, never speaking about what she had done. Her story was forgotten. In *A Time to Risk* All her remarkable story is finally remembered as it should be. 'A compelling portrait of an unsung Irish heroine of two wars' Madeleine Keane, Literary Editor, Sunday Independent 'Brings to light the life of Mary Elmes, showing a remarkable, independent and courageous woman whose compassion knew no borders.' Yvonne Altman O'Connor, Culture and Education Director, Irish Jewish Museum

Uranium Wars Thomas Nelson

A New York Times Notable Book, winner of the Jerwood Award from the Royal Society of Literature, a New York Times Book Review Editors' Choice, and named a Book of the Year by the Telegraph, Spectator, Observer, and BBC History Magazine, this bold new history of the rise of Christianity shows how its radical followers helped to annihilate Greek and Roman civilizations. *The Darkening Age* is the largely unknown story of how a militant religion deliberately attacked and suppressed the teachings of the Classical world, ushering in centuries of unquestioning adherence to "one true faith." Despite the long-held notion that the early Christians were meek and mild, going to their martyrs' deaths singing hymns of love and praise, the truth, as Catherine Nixey reveals, is very different. Far from being meek and mild, they were violent, ruthless, and fundamentally intolerant. Unlike the polytheistic world, in which the addition of one new religion made no fundamental difference to the old ones, this new ideology stated not only that it was the way, the truth, and the light but that, by extension, every single other way was wrong and had to be destroyed. From the first century to the sixth, those who didn't fall into step with its beliefs were pursued in every possible way: social, legal, financial, and physical. Their altars were upturned and their temples demolished, their statues hacked to pieces, and their priests killed. It was an annihilation. Authoritative, vividly written, and utterly compelling, this is a remarkable debut from a brilliant young historian.

A Woman in Amber Bold Type Books

How did one of the world's "buzzy hotspots" (Fodor's 2013) become one of the top ten places to avoid (Fodor's 2018)? Precariously positioned between China and India, Burma's population has suffered dictatorship, natural disaster, and the dark legacies of colonial rule. But when decades of military dictatorship finally ended and internationally beloved Nobel laureate Aung San Suu Kyi emerged from long years of house arrest, hopes soared. World leaders such as Barack Obama ushered in waves of international support. Progress seemed inevitable. As historian, former diplomat, and presidential advisor,

Thant Myint-U saw the cracks forming. In this insider's diagnosis of a country at a breaking point, he dissects how a singularly predatory economic system, fast-rising inequality, disintegrating state institutions, the impact of new social media, the rise of China next door, climate change, and deep-seated feelings around race, religion, and national identity all came together to challenge the incipient democracy. Interracial violence soared and a horrific exodus of hundreds of thousands of Rohingya refugees fixed international attention. Myint-U explains how and why this happened, and details an unsettling prognosis for the future. Burma is today a fragile stage for nearly all the world's problems. Are democracy and an economy that genuinely serves all its people possible in Burma? In clear and urgent prose, Myint-U explores this question—a concern not just for the Burmese but for the rest of the world—warning of the possible collapse of this nation of 55 million while suggesting a fresh agenda for change.

The War for Cyberspace Courier Dover Publications

"Essential . . . one for the ages . . . a must read for all who care about presidential power." —The Washington Post "Authoritative . . . The most comprehensive account yet of that smoldering wreck of foreign policy, one that haunts us today." —LA Times One of BookPage's Best Books of 2020 To Start a War paints a vivid and indelible picture of a decision-making process that was fatally compromised by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and a set of actors with idées fixes who gamed the process relentlessly. Everything was believed; nothing was true. Robert Draper's fair-mindedness and deep understanding of the principal actors suffuse his account, as does a storytelling genius that is close to sorcery. There are no cheap shots here, which makes the ultimate conclusion all the more damning. In the spirit of Barbara W. Tuchman's *The Guns of August* and Marc Bloch's *Strange Defeat*, To Start A War will stand as the definitive account of a collective scurrying for evidence that would prove to be not just dubious but entirely false—evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing.

War Is Not Over When It's Over Cassell

This ground-breaking book chronicles the 1971 war in South Asia by reconstituting the memories of those on opposing sides of the conflict. 1971 was marked by a

bitter civil war within Pakistan and war between India and Pakistan, backed respectively by the Soviet Union and the United States. It was fought over the territory of East Pakistan, which seceded to become Bangladesh. Through a detailed investigation of events on the ground, Sarmila Bose contextualises and humanises the war while analysing what the events reveal about the nature of the conflict itself. The story of 1971 has so far been dominated by the narrative of the victorious side. All parties to the war are still largely imprisoned by wartime partisan mythologies. Bose reconstructs events via interviews conducted in Bangladesh and Pakistan, published and unpublished reminiscences in Bengali and English of participants on all sides, official documents, foreign media reports and other sources. Her book challenges assumptions about the nature of the conflict, and exposes the ways in which the 1971 war is still playing out in the region.

A Time to Risk All Macmillan

"A prescient and important book. . . .

Fascinating."—The New York Review of Books No single invention of the last half century has changed the way we live now as much as the Internet. Alexander Klimburg was a member of the generation for whom it was a utopian ideal turned reality: a place where ideas, information, and knowledge could be shared and new freedoms found and enjoyed. Two decades later, the future isn't so bright any more: increasingly, the Internet is used as a weapon and a means of domination by states eager to exploit or curtail global connectivity in order to further their national interests. Klimburg is a leading voice in the conversation on the implications of this dangerous shift, and in *The Darkening Web*, he explains why we underestimate the consequences of states' ambitions to project power in cyberspace at our peril: Not only have hacking and cyber operations fundamentally changed the nature of political conflict—ensnaring states in a struggle to maintain a precarious peace that could rapidly collapse into all-out war—but the rise of covert influencing and information warfare has enabled these

same global powers to create and disseminate their own distorted versions of reality in which anything is possible. At stake are not only our personal data or the electrical grid, but the Internet as we know it today—and with it the very existence of open and democratic societies. Blending anecdote with argument, Klimburg brings us face-to-face with the range of threats the struggle for cyberspace presents, from an apocalyptic scenario of debilitated civilian infrastructure to a 1984-like erosion of privacy and freedom of expression. Focusing on different approaches to cyber-conflict in the US, Russia and China, he reveals the extent to which the battle for control of the Internet is as complex and perilous as the one surrounding nuclear weapons during the Cold War—and quite possibly as dangerous for humanity as a whole. Authoritative, thought-provoking, and compellingly argued, *The Darkening Web* makes clear that the debate about the different aspirations for cyberspace is nothing short of a war over our global values.
