Ear, Nose and Throat (ENT) surgery has traditionally been a difficult and specialised topic in undergraduate medicine and for junior doctors. Many textbooks are too detailed for undergraduate use, or lack self assessment questions to help those wishing to underpin their learning. This concise and easy-to-read self-assessment guide aims to clarify the topic, and find and fill gaps in understanding. The multiple choice questions (MCQs) contained cover all levels of knowledge and the learning objectives of most of the UK medical school curricula, aiding preparation for end of unit, module and final exams for ENT. This book will be a valuable companion for clinics and teaching sessions and an indispensable revision primer for graduate entry medical curricula. 'An excellent means of preparation for medical undergraduate examinations as gaps in core knowledge are quickly revealed. Further, this text is a good guide for students to identify those subject areas requiring more focused study, especially when time is short.' - From the Foreword by

Ophthalmology Fact Fixer Thieme

In the tradition of the acclaimed first edition, experts from the University of Cincinnati's Department of Otolaryngology-Head and Neck Surgery present new case reviews. Every chapter

presents patient-based scenarios to prepare practitioners for ENT cases they will encounter during rounds, rotations, and patient exams. By establishing a uniform algorithm in obtaining and utilizing discreet points of data, the authors encourage a disciplined approach to patient assessment and management options. Sections organized by anatomy and subspecialty enhance the ability to learn and retain knowledge. For example, benign and malignant pathologies are systematically detailed in anatomical sections dedicated to the neurovascular structures, oral cavity and pharynx, larynx, thyroid, salivary gland, and skin. The text covers the full age continuum - including congenital, acquired, benign, and malignant disorders such as pediatric subglottic stenosis and facial, head, and neck cancers that primarily affect adults. Key Highlights Presentation of 100 practical cases including history, differential diagnoses, test interpretations, definitive diagnoses, medical and surgical management, rehabilitation, and follow-up. Up-to-date coverage of every major ENT specialty: otology and neurotology, the skull base, rhinology, laryngology, head and neck cancer, sleep disorders, pediatric otolaryngology, trauma, and facial plastic and reconstructive surgery. Nearly 150 meticulous color photographs and graphics elucidate disease characteristics and clinical findings Chapter bibliographies with current literature sources augment case reviews. Multiple-choice questions serve as a robust study tool, optimizing knowledge acquisition and retention. This must-have resource enables otolaryngology residents and practitioners to learn from case studies and incorporate state-of-the-art techniques into daily practice, thereby optimizing patient care.

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice - from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app - a separate product containing 180 randomised multiple-choice questions on all the topics within the book.
