Excerpt from Two-Book Course in English, Vol. 2: Practical English  
Grammar With Exercises in Composition The aim of the work is to  
give the pupil a mastery of the fundamental facts of English  
grammar, and to lead him to use that knowledge in the  
interpretation of literature and in the expression of his own  
thought. The instruction has been made concrete by the use of  
illustrative examples. These examples have been selected with  
great care from the works of the best writers, and they not only  
serve to make clear the grammatical points under consideration,

but also aid in the formation of the pupil's literary taste, and help  
him to see that the laws of language are derived from the usage  
of the best writers and speakers. About the Publisher Forgotten  
Books publishes hundreds of thousands of rare and classic books.
