More Time for Politics

When Tony Benn left Parliament after 51 years he quoted his wife Caroline's remark that now he would have 'more time for politics'. And so this has proved: in the first seven years of this century he has helped reinvigorate national debate through public meetings, mass campaigns and appearances in the media, passionately bringing moral and political issues to wide audiences. And

throughout, as ever, he has been keeping his diaries. Commenting on the demise of the New Labour project from the re-election of Tony Blair in 2001 to the ultimate foreign policy disasters of Afghanistan and Iraq, he gives other prescient accounts of the government's by-passing of Cabinet, parliament and the party, of the 'war on terror', the debate about Islam, globalisation and the changes in British society. Although he is no longer in power or in parliament, Tony Benn remains a figure of enormous respect whose direct views, honestly expressed, have often awakened the national conscience. His latest Diaries, human and challenging in turn, are an enthralling read.

Something Special

This CIGRE Green Book provides the entire know-how about switches in a high voltage system. The switching equipment includes circuit breakers, vacuum interrupters, disconnecting switches, and earthing switches used in AC & DC transmission and distribution systems. The Green book describes different switching equipments and their roles in the power systems. It explains the fundamental switching behaviors in power systems targeted for practitioners and students and joining electrical industries. The Green book also covers fundamental specific subjects including DC circuit breakers, controlled switching, fault current limiting devices and future technologies. Like all Green books, this book covers the cumulative understanding of numerous experts in the CIGRE study committee. It offers the approved and outstanding practical knowledge of CIGRE Study committee A3 and was collected by Dr. Hiroki Ito.
