Financial Markets and Institutions Pearson

Due to ongoing advancements in technology, new legislation, and other innovations, the field of finance is rapidly changing. Developments in financial markets and investments necessitate that students be exposed to these topics as well as to financial management, the traditional focus of the introductory finance course. Introduction to Finance develops the three components of finance in an interactive framework that is consistent with the responsibilities of all financial professionals, managers, intermediaries, and investors in today's economy. To show the interrelationships between the areas of finance, the text emphasizes how investor activities monitor firms and focuses on the role of financial markets in channeling funds from investors to firms.

Introduction to Finance Financial Markets & Institutions

Financial Institutions and Markets focuses on the operation of Australia's financial system.

Thoroughly updated, this eighth edition retains the structure of the seventh edition, examining the financial system's three main functions: settlement, flow-of-funds and risk transfer. The book provides a comprehensive and comprehensible integrated account of the activities of Australia's financial institutions and markets and their instruments including the major capital and foreign exchange markets, and the markets for derivatives. This new edition is complemented by digital resources on the MindTap online platform - also enabling flipped delivery of the content, expanded learning objectives, and updated case studies and research to cover recent events such as Brexit. Premium online teaching and learning tools are available to purchase on the MindTap platform Learn more about the online tools cengage.com.au/learning-solutions
