Powers and Pieties CRVP

Masculinities in Contemporary American Culture offers readers a multidisciplinary, intersectional overview of masculinity studies that includes both theoretical and applied lenses. Keith combines

current research with historical perspectives to demonstrate the contexts in which masculine identities have come evolved. With an emphasis on popular culture -- particularly film, TV, video games, and music -- this text invites students to examine their gendered sensibilities and discuss the ways in which different forms of media appeal to toxic masculinity.

Cases on Corporate Social Responsibility and Contemporary Issues in Organizations Cultural Traditions and Contemporary Challenges in Southeast Asia Hindu and Buddhist

In Cultural Rights in International Law and Discourse, Pok Yin S. Chow explains why the very understanding of 'culture' as described in international human rights law failed to capture and address the cultural concerns of groups and communities worldwide.

The Case of Computer Sciences Corporation in Three Different Regions : Master's Thesis CRVP

International business is synonymous with big challenges. Cultural and institutional complexities remain ever potent, so are 'newer' concerns like climate change and international terrorism. This timely book examines these challenges from the perspectives of different international business actors.

Indian Ethics IGI Global

The last decades witnessed a vigorous debate over the role of corporations in society. Interest in corporate social responsibility (CSR) has become intense as corporate stakeholders have called for higher performance and ethical standards from businesses, and many corporations have developed CSR programs to harvest the benefits resulting from such initiatives. CSR practices have become a crucial component of business strategy contributing to organizational success and sustainable competitiveness. Cases

on Corporate Social Responsibility and Contemporary Issues in Organizations is an essential reference source that provides specific case studies that elaborate on the strategies and policies enacted by contemporary organizations to address environmental and social issues, as well as economic and financial ones. Featuring research on topics such as sustainable development goals, CSR pillars, employee retention, gender equality, and social accountability, this book is ideally designed for business managers, researchers, practitioners, and students seeking coverage on innovative business practices enacted in multiple organizations/industries.

Contemporary Issues in Construction in Developing Countries John Wiley & Sons

Economic growth and socio-economic development are particularly important for developing countries, and the construction industry plays a central role in driving both of these. Traditionally the issues faced have been assumed to be merely offshoots of those encountered in industrialised nations and are usually discussed only in this context. In addition, research in construction management and economics has generally failed to take proper account of the unique or highly emphasised characteristics of the industries in developing countries, or their economic and social environment. This volume challenges underlying assumptions and focuses on the distinct characteristics of construction in developing countries. In so doing it considers the issues from the perspective of the developing countries themselves to present a strong contemporary picture for researchers. It forms a companion volume to *New Perspectives on Construction in Developing*

Countries which provides an update on the generic subjects relating to the construction industry in developing countries, and covers new concepts and issues.

Contemporary Challenges to Corporate Culture Implementation in a Global Environment CRVP

Every human life form encapsulates an idea of humankind and humanity. Today, this very idea is challenged by the various and diverging needs for cultural orientation in the age of globalization. One of the recent attempts to meet these challenges is provided by a new humanism with an intercultural intent. Such humanism can be conceptualized only by the collaborative efforts of different academic disciplines at exploring the human being as the gist of what is meant by humanity. Thus, this volume explores the pertinent fields of knowledge from the perspectives of philosophy, theology, anthropology, sociology, economy, psychology, neurobiology, history, and gender studies. Focusing on the guiding question of what is meant by being a human, the contributions of this volume encompass a fascinating spectrum of insights, which will orientate future discussions on humanity and humanism.

Paths to the Divine UNESCO

Confucianism is reviving in China and spreading in America. This multidisciplinary volume includes philosophical and theological articulations of Confucianism and other spiritual traditions for the modern and globalizing world, and empirical studies of and analytical reflections on Confucianism and other traditions in Chinese societies by historians, sociologists, and anthropologists. *Resistance and Politics in Contemporary East African Theatre* Meyer & Meyer Verlag

The articles selected for this volume explore emergent issues in the contemporary relationship between Islam and science and present studies of eight major voices in the discourse. Also included is a section on the operationalization of Islamic science in the modern world and a section on studies in traditional Islamic cosmology.

Classical Traditions and Contemporary Challenges: CRVP

The main strength of this book is the international exchange of ideas that will not only highlight many of these crucial bioethical issues but will strengthen the discipline of bioethics both nationally and globally. A critical exchange of ideas allows everyone to learn and benefit from the insights gained through others experiences. Analyzing and understanding real medical-ethical issues and cases and how they are resolved is the basis of education in bioethics for those who will have to make these decisions in the future. The more we examine, analyze, and debate these bioethical issues and cases, the more knowledge will be gained and hopefully, we will all gain more practical wisdom.

The Vitality and Vibrancy of Lau Hala Weaving Traditions in Hawai'i Routledge

This book provides an insight into the current situation of PE in schools across Europe as a forerunner to addressing PE related existing and emerging issues in various contexts.

Tourism Development Cambridge University Press

This volume tackles key issues in the changing nature of family life from a global perspective, and is essential reading for those studying and working with families. Covers changes in couple relationships and the challenges these pose; parenting practices

and their implications for child development; key contemporary global issues, such as migration, poverty, and the internet, and their impact on the family; and the role of the state in supporting family relationships Includes a stellar cast of international contributors such as Paul Amato and John Coleman, and contributions from leading experts based in North Africa, Japan, Australia and New Zealand Discusses topics such as cohabitation, divorce, single-parent households, same-sex partnerships, fertility, and domestic violence Links research and practice and provides policy recommendations at the end of each chapter

Contemporary Issues in Child Welfare Practice World Scientific

Asian Alterity is an interdisciplinary theoretical analysis that vigorously contests the homogeneity of the mainstream Eurocentric values. Part I argues for the need for an alternate perspective to be introduced so as to understand the diversity of Asia's cultural differences at their varied development stages and to meet the complex challenges of the explosive urban expansion and disruptive changes in traditional cultures and lifestyles. Part II of the book consists of nine case studies of Asian major urban cities by well-established academic writers and urban theorists. Each author presents diverse aspects of urban dynamism. The case studies will collectively demonstrate a broad framework to understand the essentiality of the interdisciplinary mode of Cultural Studies as an important lens towards meeting the challenges in Asian Architecture and Urbanism. Highlights of the book:

Contemporary Challenges and Interdisciplinary Perspectives BoD – Books on Demand

Brunei, although a relatively small state, is disproportionately

important on account of its rich resource base. In addition, in recent years the country has endeavoured to play a greater role in regional affairs, especially through ASEAN, holding the chair of the organisation in 2013, and also beyond the region, fostering diplomatic, political, economic and educational ties with many nations. This book presents much new research and new thinking on a wide range of issues concerning Brunei largely drawn from Bruneian academics. Subjects covered include Brunei's rich history – the sultanate formerly had much more extensive territories and was a key player in regional affairs; the country's economy, politics, society and ethnicities; and resource issues and international relations.

Cultural Rights in International Law and Discourse Ashgate Publishing, Ltd.

Indian ethics is one of the great traditions of moral thought in world philosophy whose insights have influenced thinkers in early Greece, Europe, Asia, and the New World. This is the first such systematic study of the spectrum of moral reflections from India, engaging a critical cross-cultural perspective and attending to modern secular sensibilities. The volume explores the scope and limits of Indian ethical thinking, reflecting on the interpretation and application of its teachings and practices in the comparative and contemporary contexts. The chapters chart orthodox and heterodox debates, from early classical Hindu texts to Buddhist, Jaina, Yoga, and Gandhian ethics. The range of issues includes: life-values and virtues, karma and dharma, evil and suffering, renunciation and enlightenment; and extends to questions of human rights and justice, ecology and animal ethics, nonviolence and democracy. Ramifications for rethinking ethics in a

postmodern and global era are also explored. Indian Ethics offers an invaluable resource for students of philosophy, religion, human sciences and cultural studies, and to those interested in South Asian responses to moral dilemmas in the postcolonial era. *Masculinities in Contemporary American Culture* Vandenhoeck & Ruprecht

Child welfare is the oldest specialization within social work practice and the only specialty area in which social work is the host profession. This edited volume provides a unique and comprehensive overview of practice issues relevant to contemporary child welfare professionals entering the field as well as those already working in direct service and management positions. This book's emphasis on systemic, integrated, and evidence-informed practices at the individual, family, and organizational level is in keeping with child welfare's core mission of child protection, family support, and permanency for youth. This volume also explores the challenges and opportunities present in a contemporary practice environment, which are driven by the attainment of defined outcomes, fiscal limitations, and the need for an informed professionalized child welfare workforce.

Ancient and Indian CRVP

This work combines a study of contemporary issues in tourism development with a close examination of approaches to tourism

research. Looking beyond the much-studied mass tourism industries, leading international academics who are members of the International Academy for the Study of Tourism, explore new issues raised by emerging tourist destinations such as Ghana, Samoa, Vietnam and India's Bhyundar Valley. A fascinating work, *Contemporary Issues in Tourism Development* discusses a wide range of topics such as: * reasons for development * tourism development as a strategy for urban revitalization * tourism's links to heritage conservation and regional development * sustainability and the adverse impacts of development * cultural considerations and community participation * the importance of context for individual tourism projects.

Dialogues of Philosophies, Religions and Civilizations in the Era of Globalization Routledge

Contemporary Issues in Art Education by Yvonne Gaudelius and Peg Speirs is a collection of essays that are framed around social issues, art, and teaching. Using an issues-based approach, the authors provide a valuable resource for teaching issues-based content, especially as these issues are explored through contemporary art and visual culture in the classroom. The authors present ideas for educators at all levels who want to incorporate an issues-based approach to teaching. This book combines theoretical perspectives with tangible and practical strategies for generating content and pedagogical approaches. The book, while primarily written for pre-service elementary teachers, will prove useful to general classroom teachers and art educators at all levels, whether they are teaching in the K-12 or the college classroom. The authors in this book are highly respected within the field of art education. They provide

thoughtful approaches to a realm of complex ideas encompassing artistic, social, political, and educational issues. Readers will develop and understanding of a variety of ways to teach about such issues in the classroom, how to draw upon the contemporary artworld, and a sense of the critical frameworks within which we need to explore such issues.
