NEW YORK TIMES NOTABLE BOOK A literary crime thriller with "a clever plot that always surprises, told with dark humor and dry wit" (The New York Times Book Review, Editor's Choice), this brilliant debut follows a famous author whose wife—the brains behind his success—meets an untimely death, leaving him to deal with the consequences. Henry Hayden seems like someone you might admire, or even come to think of as a friend. A famous bestselling author. A loving and devoted husband. A generous and considerate neighbor. But Henry Hayden is a construction, a mask. His past is a secret, his methods more so. Only he and his wife know that she is the actual writer of the novels that made him famous. When his hidden-in-plain-sight mistress becomes pregnant, it seems his carefully conceived façade is about to crumble. And on a rain-soaked night at the edge of a dangerous cliff, his permanent solution becomes his most terrible mistake. Now not only are the police after Henry but his past—which he has painstakingly kept hidden—threatens to catch up with him as well. Henry is an ingenious man, and he works out an ingenious plan, weaving lies, truths, and half-truths into a story that might help him survive. Still, the noose tightens. Smart, sardonic, and compulsively readable, this is the story of a man whose cunning allows him to evade the consequences of his every action, even when he's standing on the edge of the abyss.

The Inkheart Trilogy Macmillan

This volume examines the unprecedented growth of several cities in Latin America from 1830 to 1930, observing how sociopolitical changes and upheavals created the conditions for the birth of the metropolis. In the century between 1830 and 1930, following independence from Spain and Portugal, major cities in Latin America experienced large-scale growth, with the development of a new urban bourgeois elite interested in projects of modernization and rapid industrialization. At the same time, the lower classes were eradicated from old city districts and deported to the outskirts. The Metropolis in Latin America, 1830–1930 surveys this expansion, focusing on six capital cities—Havana, Mexico City, Rio de Janeiro, Buenos Aires, Santiago de Chile, and Lima—as it examines sociopolitical histories, town planning, art and architecture, photography, and film in relation to the metropolis. Drawing from the Getty Research Institute's vast collection of books, prints, and photographs from this period, largely unpublished until now, this volume reveals the cities' changes through urban panoramas, plans depicting new neighborhoods, and photographs of novel transportation systems, public amenities, civic spaces, and more. It illustrates the transformation of colonial cities into the monumental modern metropolises that, by the end of the 1920s, provided fertile ground for the emergence of today's Latin American megalopolis.
