Apocalypse, Revisited: A Critical Study on End Times explores why and how Apocalypse has been revisited in myriad contexts from literature to history, religion to social life and media to popular culture.

The World Almanac and Book of Facts, 1986 Copyright Office, Library of Congress

This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. Supporting Reading Grades 6-12: A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation

and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.

This book uses narrative responses to the 2010 Haiti earthquake as a starting point for an analysis of notions of disaster, vulnerability, reconstruction and recovery. The turn to a wide range of literary works enables a composite comparative analysis, which encompasses the social, political and individual dimensions of the earthquake. This book focuses on a vision of an open-ended

future, otherwise than as a threat or fear. Mika turns to concepts of hinged chronologies, slow healing and remnant dwelling. Weaving theory with attentive close-readings, the book offers an open-ended framework for conceptualising post-disaster recovery and healing. These processes happen at different times and must entail the elimination of compound vulnerabilities that created the disaster in the first place. Challenging characterisations of the region as a continuous catastrophe this book works towards a bold vision of Haiti's and the Caribbean's futures. The study shows how narratives can extend some of the key concepts within discipline-bound approaches to disasters, while making an important contribution to the interface between disaster studies, postcolonial ecocriticism and Haitian Studies.

**The New York Times 1998 Almanac** American Library Association

-- The government, population, and history of every state in the United States -- The economy, population, and brief history of every country in the world -- The winners of the Academy Award in every major category since its inception in 1928 -- The names and lifetime statistics of every player in the Baseball Hall of Fame -- All Nobel laureates, and why they won their prizes -- Every

endangered species in the United States, and their habitats -- Sales figures for every Fortune 500 company -- Obituaries of leading world figures -- The astronauts and accomplishments of every space flight in history The New York Times Almanac brings together more information on more subjects -- and in a more readable manner -- than any other almanac on the market. Up-to-date, with key facts and figures organized in an easily accessible fashion and set in historical context, this is the first choice for students, journalists, and researchers -- for anyone who needs timely, accurate information about the United States and other nations around the globe. Drawing on the unmatched resources of The New York Times, this volume gives more in-depth news than rival almanacs, and provides detailed coverage of many subjects omitted from other fact-finders.

**Food and Drug Administration Location Directory** BRILL

Presents thousands of facts and statistics about a wide variety of subjects. Includes the year in review, discussion of the new millennium, and a color section of world maps and flags.

*The New York Times Almanac 2001* Doubleday Books

First multi-year cumulation covers six years: 1965-70.

The most trusted guide to publishing poetry! Want to get your poetry published? There's no better tool for making it happen than Poet's Market 2018, which features hundreds of publishing opportunities specifically for poets, including listings for book and chapbook publishers, print and online poetry publications, contests, and more. These listings include contact information, submission preferences, insider tips on what specific editors want, and--when offered--payment information. In addition to the completely updated listings, Poet's Market offers brand-new articles devoted to the craft and business of poetry, including how to handle a book launch, delivering poetry in unusual places, starting your own poetry workshop, and more. You will also gain access to:

- A one-year subscription to the poetry-related information and listings on WritersMarket.com
- Lists of conferences, workshops, organizations, and grants
- A free digital download of Writer's Yearbook, featuring the 100 Best Markets: WritersDigest.com/WritersDigest-Yearbook-17

Includes exclusive access to the webinar "PR for Poets: The Secret to Getting Your Poems Read" from Jeannine Hall Gailey, author of *Field Guide to the End of the World* and *The Robot Scientist's Daughter*.

**Computerworld** Taylor & Francis

Imagine if going to school meant more than preparing kids for a test, teaching a canned curriculum, and training students for their future as workers. What if school were also about cultivating students to be caring, community-involved citizens and critical, creative thinkers who love to read? In *Caring Hearts & Critical Minds*, teacher-author Steven Wolk shows teachers how to help students become better readers as well as better people. I want [my students] to be thinkers and have rich conversations regarding critical issues in the text and be able to formulate opinions regarding these issues, says Leslie Rector, a sixth-grade teacher who collaborated with Wolk on some of the units featured in this book. Wolk demonstrates how to integrate inquiry learning, exciting and contemporary literature, and teaching for social responsibility across the curriculum. He takes teachers step-by-step through the process of designing an inquiry-based literature unit and then provides five full units used in real middle-grade classrooms. Featuring a remarkable range of recommended resources and hundreds of novels from across the literary genres, *Caring*

*Hearts & Critical Minds* gives teachers a blueprint for creating dynamic units with rigorous lessons about topics kids care about'sfrom media and the environment to personal happiness and global poverty. Wolk shows teachers how to find stimulating, real-world complex texts called for in the Common Core State Standards and integrate them into literature units. I know from experience that a great book changes the reader, says Karen Tellez, an eighth-grade teacher featured in the book. For me, books have helped me escape, fall in love, recover from heartbreak, and have broken open my mind from the age of twelve. . . . I hope [my students] gain better reading comprehension, confidence as readers, connections to the characters and events, a curiosity for the world, and tolerance for others. *Caring Hearts & Critical Minds* shows teachers how to turn these hopes and goals into reality.

*The World Almanac and Book of Facts, 1999* Creative Education

Each issue lists papers published during the preceding year.

An invisible, growing monster roams the streets, preying on millions of innocent victims in the United States and overseas. This monster is child slavery, and it is woven into the very fabric of our daily lives. Because it touches every aspect of our lives, however, it can be addressed and solved. In *Facing the Monster*, author Carol Hart Metzker calls attention to the plight of the world's children who live a life of modern slavery. She tells how an unexpected encounter with a n eleven-year-old girl led her into the dark world of human trafficking, forced sex trade, and child slavery. Metzker's quest to find hope, to help end slavery, and to aid survivors took her as far as children's shelters in remote villages in India and as close as a special home just miles from her front door in Pennsylvania. *Facing the Monster* narrates the stories of rescued child slaves and paints a poignant picture of the plight of hidden victims worldwide. Metzker's inspiring chronicle reveals the monstrous truths about child slavery, provides an action plan to become an agent of change, and presents solutions to end it. It shows how one person's actions can change the lives of many and that everyone can take a step to fight child slavery.

**Facing the Monster** Enslow Publishing, LLC

An extraordinary and timely novel, a Walter Dean Myers Award Honor Book, examines what it's like to grow up under surveillance in America. Be careful what you say and who you say it to. Anyone might be a watcher. Naeem is a Bangladeshi teenager living in Queens who thinks he can charm his way through anything. But then mistakes catch up with him. So do the cops, who offer him an impossible choice: spy on his Muslim neighbors and report back to them on shady goings-on, or face a police record. Naeem wants to be a hero—a protector. He wants his parents to be proud of him. But as time goes on, the line between informing and entrapping blurs. Is he saving or betraying his community? Inspired by actual surveillance practices in New York City and elsewhere, Marina Budhos's extraordinary and timely novel examines what it's like to grow up with Big Brother always watching. Naeem's riveting story is as vivid and involving as today's headlines. Walter Dean Myers Award Honor Book, We Need Diverse Books Asian/Pacific American Award for Literature Honor Book YALSA Best YA Fiction for Young Adults "A fast-moving, gripping tale." —SLJ, Starred

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
