Gathering Dark is a new standalone thriller set in Los Angeles from #1 New York Times and Globe and Mail bestselling author Candice Fox. A convicted killer. A gifted thief. A vicious ganglord. A disillusioned cop. Together they're a missing girl's only hope. Dr. Blair Harbour, once a wealthy, respected pediatric surgeon, is now an ex-con down on her luck. She's determined to keep her nose clean and win back custody of her son. But when her former cellmate begs for help to find her missing daughter, Blair is compelled to put her new-found freedom on the line. Detective Jessica Sanchez has always had a difficult relationship with the LAPD. And her inheritance of a multi-million dollar mansion as a reward for catching a killer has just made her police enemy number one. It's been ten years since Jessica arrested Blair for cold-blooded murder. So when Jessica opens the door to the disgraced doctor late one night she expects abuse, maybe even violence. What comes next is a plea for help... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.

A striking first novel about the dark side of the American Dream Suzy Park is a twenty-nine-year-old Korean American interpreter for the New York City court system. Young, attractive, and achingly alone, she makes a startling and ominous discovery during one court case that forever alters her family's history. Five years prior, her parents--hardworking greengrocers who forfeited

personal happiness for their children's gain--were brutally murdered in an apparent robbery of their fruit and vegetable stand. Or so Suzy believed. But the glint of a new lead entices Suzy into the dangerous Korean underworld, and ultimately reveals the mystery of her parents' homicide. An auspicious debut about the myth of the model Asian citizen, *The Interpreter* traverses the distance between old worlds and new, poverty and privilege, language and understanding.

Hunter S. Thompson, "smart hillbilly," boy of the South, born and bred in Louisville, Kentucky, son of an insurance salesman and a stay-at-home mom, public school-educated, jailed at seventeen on a bogus petty robbery charge, member of the U.S. Air Force (Airmen Second Class), copy boy for Time, writer for The National Observer, et cetera. From the outset he was the Wild Man of American journalism with a journalistic appetite that touched on subjects that drove his sense of justice and intrigue, from biker gangs and 1960s counterculture to presidential campaigns and psychedelic drugs. He lived larger than life and pulled it up around him in a mad effort to make it as electric, anger-ridden, and drug-fueled as possible. Now Juan Thompson tells the story of his father and of their getting to know each other during their forty-one fraught years together. He writes of the many dark times, of how far they ricocheted away from each other, and of how they found their way back before it was too late. He writes of growing up in an old farmhouse in a narrow mountain valley outside of Aspen—Woody Creek, Colorado, a ranching community with Hereford cattle and clover fields . . . of the presence of guns in the house, the boxes of ammo on the kitchen shelves behind the glass doors of the country cabinets, where others might have placed china and knickknacks . . . of climbing on the back of Hunter's Bultaco Matador trail motorcycle as a young boy, and father and son roaring up the dirt road, trailing a cloud of dust . . . of being taken to bars in town as a small boy, Hunter holding court while Juan crawled around under the bar stools, picking up change and taking his found loot to Carl's Pharmacy to buy Archie comic books . . . of going with his parents as a baby to a Ken

Kesey/Hells Angels party with dozens of people wandering around the forest in various stages of undress, stoned on pot, tripping on LSD . . . He writes of his growing fear of his father; of the arguments between his parents reaching frightening levels; and of his finally fighting back, trying to protect his mother as the state troopers are called in to separate father and son. And of the inevitable—of mother and son driving west in their Datsun to make a new home, a new life, away from Hunter; of Juan's first taste of what "normal" could feel like . . . We see Juan going to Concord Academy, a stranger in a strange land, coming from a school that was a log cabin in the middle of hay fields, Juan without manners or socialization . . . going on to college at Tufts; spending a crucial week with his father; Hunter asking for Juan's opinion of his writing; and he writes of their dirt biking on a hilltop overlooking Woody Creek Valley, acting as if all the horrible things that had happened between them had never taken place, and of being there, together, side by side . . . And finally, movingly, he writes of their long, slow pull toward reconciliation . . . of Juan's marriage and the birth of his own son; of watching Hunter love his grandson and Juan's coming to understand how Hunter loved him; of Hunter's growing illness, and Juan's becoming both son and father to his father . . .

A two-man undercover team working for U.S. Customs to disrupt drug smuggling across the Mexican border is missing. The school teacher brother of one missing team member finds their safe house and learns about their mission and the high tech electronics and weapons they use. Since he knows nothing about how spooks operate, the teacher hires a Native American Viet Nam veteran to help him track down the men. Together, the two amateurs slip into drug cartel territory and begin their search for the covert team, or their bodies. Before long, the amateurs discover the missing team is in jail. However, they don't know they were betrayed by a U.S. Customs official who is dirty with drug money payoff. Recruiting some locals, the amateurs formulate a plan to break the team out of jail, not realizing their movements are being monitored by the highest U.S. espionage bureau, the NSA.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over

the tele-privilege-schedule long enough to get the job done! Not likely.

"[The Breaking Point] suggests that the national conversation is about to have a hot flash. The passage through middle age of so large a clump of women . . . guarantees that some rules may have to be rewritten and boundaries moved to accommodate them." -Time magazine From the cover of Time to Desperate Housewives, the phenomenon of women in midlife experiencing a period of tumultuous personal upheaval-a breaking point-has reached a peak in our culture. Today, more than 15 million baby boomer women report having a midlife crisis compared to 14 million men. In The Breaking Point, Wall Street Journal columnist Sue Shellenbarger looks beyond the numbers to discover the root of all this angst and examine the ways, both successful and not, that women are navigating this crucial transition period. Drawing on original research data and interviews with more than fifty women, The Breaking Point uses real-life stories to illustrate the different archetypes and modes the course of reinvention follows. The book also shows women how to avoid the pitfalls of a midlife meltdown-ruined relationships and jettisoned careers-and instead transform this turbulent time into a period of personal growth that will enrich the rest of their lives. Once every decade or so a book comes along that defines the collective experience of an entire generation. Provocative, insightful, and resonant, The Breaking Point is just such a book. "Every once in a while you read a book that transforms you. Like the shift of a kaleidoscope, it reconfigures your view of life's journey. This is such a book. It may stimulate you to change directions, perhaps even enable you to find life's greatest joy: fulfillment. An invigorating read." -Helen Fisher, author of Why We Love "This catchy work is tailor-made for the 36 percent of women who will eventually have what they

regard as midlife crises' . . . an illuminating guide." -Publishers Weekly

*WALNECK'S CLASSIC CYCLE TRADER, MARCH 2000* Causey Enterprises, LLC

What exactly is a shadow? Is it light tracing an object or the shape a body throws when it comes between a light source and a surface? Is it a metaphor for the intimate, darker side of a person's nature-as Carl Jung postulated-and the unconscious side of one's self, where daemons and secrets are kept hidden or repressed? Is it an allegorical place between darkness and light, death and living? Or is it a state of illusion, like Plato's cave? Is it a verb that means to follow or accompany, or even to spy on? Shadows, a new collaborative series by Alexandra Grant and Keanu Reeves, explores the real and symbolic nature of the shadow as image and figure of speech. Grant's photographs capture Reeves's shadow at times as a silhouette and at others as traces of light as he and the camera move together. In transforming the images into color and reversing light for dark, Grant has made the shadows themselves the source of light. Reeves's texts, written in tandem with the creation of the images, give voice to the multiple manifestations of the shadow: as a projected figure, a place of concealed emotion and an invocation to shadow play.
