Human Interaction and Emotional Awareness in Gestalt Therapy Springer Science & Business Media
An artist of singular originality and vision, award-winning landscape photographer Mark Klett has built a profound and dynamic career that captures the space and history of the American West while evoking notions of time, perception, and cultural memory. His practice is grounded in both artistic inquiry and the evolution of photographic technologies, reflecting a constellation of ideas that blend science with poetry. Over a career spanning more than four decades, Klett has advanced a new notion of landscape photography that reframes our sense of what pictures of the land mean. *Seeing Time* is the first retrospective of Klett's career. It presents selected photographs from thirteen different projects, some never before seen. The book showcases work from individual and collaborative projects alongside texts by distinguished curators who examine the ideas behind Klett's practice, its historical context, and his collaborative processes. From his rephotographic surveys, which pair conceptual art with questions about how lands change through human intervention, to the series of portraits with his eldest daughter on their shared birthday, the images presented here combine to form a body of work at once expansive and richly personal.

Simone ("Simca") Beck is known to millions of Americans as Julia Child's French partner in the creation of the two classic volumes of *Mastering the Art of French Cooking*. Now, she gives us her own delectable recipes—the ones she most treasures out of a lifetime of cooking creativity that has made her one of the great cuisinières of her day. Here are recipes that were inspired by old French family specialties found in her mother's and grandmother's well-thumbed notebooks; recipes that grew out of Simca's life in the provinces (particularly Normandy, Alsace, and Provence) where she has gardened, cooked, dined out, and entertained; simple delights and fabulous concoctions all set down with a beautiful French clarity. Skillfully adapting her French ways to American needs, she presents over 100 recipes in 31 alluring menus designed for every sort of occasion—a warming dinner after a winter walk in the woods, a feast to dazzle your friends, a buffet for winter and one for summer, even an elegant picnic. For each menu Simca has written a charming, altogether personal introduction filled with nuggets of useful information, like what can be cooked ahead of time or how long last-minute preparations will take. Specific wines are always suggested with the menus, along with specific cheeses when called for. In addition, this volume features a small collection of other favorite dishes that did not fit into the menus but were simply too good to leave out. All in all, *Simca's Cuisine* is a lasting treasure for everyone in search of new delicacies to serve, new menus that will enchant, new aromas and flavors in the French tradition, and new ways to find expertise in the kitchen and joy at the table.

This book examines contemporary female portrayals of male Shakespearean roles and shows how these performances invite audiences to think differently about Shakespeare, the English nation, and themselves.

Kent Ryden does not deny that the natural landscape of New England is shaped by many centuries

of human manipulation, but he also takes the view that nature is everywhere, close to home as well as in more remote wilderness, in the city and in the countryside. In *Landscape with Figures* he dissolves the border between culture and nature to merge ideas about nature, experiences in nature, and material alterations of nature. Ryden takes his readers from the printed page directly to the field and back again-. He often bypasses books and goes to the trees from which they are made and the landscapes they evoke, then returns with a renewed appreciation for just what an interdisciplinary, historically informed approach can bring to our understanding of the natural world. By exploring McPhee's *The Pine Barrens* and Ehrlich's *The Solace of Open Spaces*, the coastal fiction of New England, surveying and Thoreau's *The Maine Woods*, Maine's abandoned Cumberland and Oxford Canal, and the natural bases for New England's historical identity, Ryden demonstrates again and again that nature and history are kaleidoscopically linked.

This is a story of a person arriving in this country in this country and in this city where he eventually ended up in the middle of the night, not knowing a soul in Canada and having just about \$10.- in his pocket. Using my imagination I let this imaginary person - Peter- show the reader the adventures and misadventures he and eventually his family experienced in this for him so strange and at the same time exciting new place. I decided to cover a period of roughly the first 25 years Peter spent in his new chosed homeland. I could have continued showing the development of his and his family's life after the 25 year period, but I decided against that. I wanted this story to have closure. Another possible book would show the reader how Peter's life continued after 25 years and would show us how he and his loved ones continued with their lives with its ups and downs. The gist of the events occurred from the mid 1950's until the early 1980's. I actually completed this book in 1982. It was lying in my filing cabinet for 30 years, because I never had either the time or inclination to publish in writing. The title of this publication: "Destiny has no Favorites" is correct. Destiny, or fate, has no favorites and we all are at the mercy of this destiny destined for us by that higher power we may call God, Nature, the Absolute Being, the Creator, Providence, the Omnipotent, Being the Supreme Soul or whatever mage us feel better to accept the unacceptable.

George Lyman Kittredge's insightful editions of Shakespeare have endured in part because of his eclecticism, his diversity of interests, and his wide-ranging accomplishments, all of which are reflected in the valuable notes in each volume. These new editions have specific emphasis on the performance histories of the plays (on stage and screen). Features of each edition include: The original introduction to the Kittredge Edition Editor's Introduction to the Focus Edition. An overview on major themes of the plays, and sections on the play's performance history on stage and screen. Explanatory Notes. The explanatory notes either expand on Kittredge's superb glosses, or, in the case of plays for which he did not write notes, give the needed explanations for Shakespeare's sometimes demanding language. Performance notes. These appear separately and immediately below the textual footnotes and include discussions of noteworthy stagings of the plays, issues of interpretation, and film and stage choices. How to read the play as Performance Section. A discussion of the written play vs. the play as performed and the various ways in which Shakespeare's words allow the reader to envision the work "off the page." Comprehensive Timeline. Covering major historical events (with brief annotations) as well as relevant details from Shakespeare's life. Some of the Chronologies include time chronologies within the plays. Topics for Discussion and Further Study Section. Critical Issues: Dealing with the text in a larger context and considerations of character, genre, language, and interpretative problems. Performance Issues: Problems and intricacies of staging the play connected to chief issues discussed in the Focus Editions' Introduction. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment—and redemption. "A smart jigsaw puzzle of a novel." —New York Times

The Light Years is a joyous and defiant coming-of-age memoir set during one of the most turbulent times in American history Chris Rush was born into a prosperous, fiercely Roman Catholic, New Jersey family. But underneath the gleaming mid-century house, the flawless hostess mom, and the thriving businessman dad ran an unspoken tension that, amid the upheaval of the late 1960s, was destined to fracture their precarious facade. His older sister Donna introduces him to the charismatic Valentine, who places a tab of acid on twelve-year-old Rush's tongue, proclaiming: "This is sacrament. You are one of us now." After an unceremonious ejection from an experimental art school, Rush heads to Tuscon to make a major drug purchase and, still barely a teenager, disappears into the nascent American counterculture. Stitching together a ragged assemblage of lowlifes, prophets, and fellow wanderers, he seeks kinship in the communes of the west. His adolescence is spent looking for knowledge, for the divine, for home. Given what Rush confronts on his travels—from ordinary heartbreak to unimaginable violence—it is a miracle he is still alive. The Light Years is a prayer for vanished friends, an odyssey signposted with broken and extraordinary people. It transcends one boy's story to perfectly illustrate the slow slide from the optimism of the 1960s into the darker and more sinister 1970s. This is a riveting, heart-stopping journey of discovery and reconciliation, as Rush faces his lost childhood and, finally, himself.

This work reports the findings of the Professional Competence of Teachers, Cognitively Activating Instruction, and Development of Students' Mathematical Literacy project (COACTIV). COACTIV applies a broad, innovative conceptualization of teacher competence to examine how mathematics teachers' knowledge, beliefs, motivational orientations, and self-regulation skills influence their instructional practice and teaching outcomes In this project data was collected on various aspects of teacher competence and classroom instruction from the perspective of both the teachers themselves and their students. Moreover, it gauges the effects of these teacher characteristics on student learning, as indexed by the progress students in each class. Questions addressed in the study which are reported in this volume include: What are the characteristics of successful teaching? What distinguishes teachers who succeed in their profession? How can the quality of instruction be improved?

In *Human Interaction and Emotional Awareness in Gestalt Therapy* H. Peter Dreitzel explores a model of the contacting processes between human beings and their environments and presents a phenomenological exploration of the emotions guiding such contacts. The book makes an important

contribution to our understanding of the role of psychotherapy in the modern world, especially in the context of change and crisis. Dreitzel sets out a new perspective of how we interact with each other, how we frame our encounters and differentiate them from one another, how we give them meaning, and how they are related to our needs and wants. This is followed by a unique phenomenological exploration of the emotions guiding such contacts, the first time the world of human feelings has been explored in depth and systematically analysed in Gestalt thought. These innovative explorations are framed first by a discussion of the historical development of Western conventions regarding everyday behaviour, and secondly by an examination of perspectives on climate change. Dreitzel analyses the mental and emotional states of potential clients as they are affected by these global processes and the book also includes an epilogue which evaluates how to work with climate anxiety. Dreitzel's conception of social change, with Gestalt therapy at its core, is relevant to all aspects of humanistic psychology. It elevates empathy, emotional development and the prevention of suffering at all levels of society, filling important gaps in Gestalt therapy theory and expanding it into exciting new territory. *Human Interaction and Emotional Awareness in Gestalt Therapy* also contains an insightful foreword by Michael Vincent Miller, PhD, and will be essential reading for Gestalt therapists, other professionals with an interest in Gestalt approaches and readers interested in social interaction, climate change and the role of psychotherapy in a changing world.

"Highsmith is no more a practitioner of the murder mystery genre...than are Doestoevsky, Faulkner and Camus."—Joan Smith, Los Angeles Times
The Patricia Highsmith renaissance continues with *Nothing That Meets the Eye*, a brilliant collection of twenty-eight psychologically penetrating stories, a great majority of which are published for the first time in this collection. This volume spans almost fifty years of Highsmith's career and establishes her as a permanent member of our American literary canon, as attested by recent publication of two of these stories in *The New Yorker* and *Harper's*. The stories assembled in *Nothing That Meets the Eye*, written between 1938 and 1982, are vintage Highsmith: a gigolo-like psychopath preys on unfulfilled career women; a lonely spinster's fragile hold on reality is tethered to the bottle; an estranged postal worker invents homicidal fantasies about his coworkers. While some stories anticipate the diabolical narratives of the Ripley novels, others possess a Capra-like sweetness that forces us to see the author in a new light. From this new collection, a remarkable portrait of the American psyche at mid-century emerges, unforgettably distilled by the inimitable eye of Patricia Highsmith. A New York Times Notable Book and a Washington Post Rave of 2002.

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.
