Observance of the principle of loyalty until death, and indeed for the duration of several existences, justified their actions. The book analyses aspects hitherto largely ignored by scholars, such as the attitudes of the bushi themselves towards such characteristic features of their life as the sword and sword-fighting techniques, the taking of enemy heads on the battlefield, ritual suicide (seppuku) and human sacrifice (junshi and hito-bashira).

Honor For Us is the first contemporary

philosophical inquiry into the concept of honor. It is unique not only in its analysis of six distinct concepts of honor, which includes an investigation into the place of honor in religious thought and ethics, but also in its interpretation of honor's prevalence in our own culture. Many would like to discard honor altogether as 'obsolete', but Sessions contends that the concept of honor is poorly understood, standing sorely in need of clarification. He argues that the notion of honor remains viable in the face of powerful criticism, and that it has important features which warrant our normative interest. While not downplaying the 'dark side' of honor (violence, sexism, inegalitarianism, its abuse in religion), Sessions shows that honor not only constitutes a

descriptively useful concept but also remains a potentially valuable concept for us today.

The Origin, Inner Philosophy, History, and Symbolism of the Buddhist Martial Art Within India and China Bloomsbury Publishing

Die Religionsgeschichte im Okzident besitzt – wie jede religiöse Tradition – ein spezifisches Profil, so die These dieses Buches: In der Spätantike entstand ein

neues Konzept religiöser Zugehörigkeit, das Europa fundamental und bis heute prägt: Menschen konnten einer „Religion“ nicht mehr nur durch Geburt, sondern auch aufgrund einer Entscheidung angehören. Das klingt banal, revolutionierte aber das Religionssystem. Dies dokumentieren Erfindungen des frühen Christentums: ein Ritus zum Eintritt („Taufe“), religiöse Unterweisung („Katechese“), Ausbreitung jenseits ethnischer Grenzen („Universalismus“) durch „Mission“ und „Konversion“. Diese Elemente führten zu einem neuen, demjenigen Verständnis von „Religion“, welches heute den umgangssprachlichen und religionswissenschaftlichen Religionsbegriff prägt. Der Eigensinn dieser Entwicklung im Okzident wird

durch komparative Perspektiven sichtbar, etwa in der Frage, in welchem Sinn man im Buddhismus von einer „Mission“ sprechen kann oder in welchem Ausmaß das Verständnis von „wahrer“ und „falscher“ Religion im Islam auf dessen Verknüpfung mit der Christentumsgeschichte zurückgeht. Dem zentralen Kapitel über „Entscheidung“ folgen vier Kapitel zu kulturellen Konsequenzen einer auf Entscheidung gegründeten Zugehörigkeit. Zwei gegenwartsbezogene Konsequenzen im Bereich von Religionspolitik und Kultur werden exemplarisch genannt: Das Problem religiöser Pluralität, die damit verbundene Verfolgung aus religiösen Gründen und die dann entstandene Religionsfreiheit sind nicht ohne die

Forderung nach einer Entscheidung in Religionsangelegenheiten zu verstehen. Und: Das neue Religionskonzept prägt aufgrund der europäischen Expansion heute das Verständnis von Religion in einer globalisierten Kultur.

Shantideva's Guide to the

Bodhisattva's Way of Life Routledge

Containing the first 50 chapters of China's best-loved work, in an edited, yet complete and wholly accurate translation for the Western reader.

Volume 1 begins with Monkey's birth, his secret education in the ways of magic at the hands of the Patriarch, his dealings with the Cloud Emperor, the famous revolt in heaven, and the Great Sage's fall and punishment. Then, with a reprieve, Monkey joins the Tang Priest as his guide to India. Paired with the

monster Pig and Friar Sand, the quartet embark on a quest at once dazzling and comic, with non-stop action.

This unique study of the genesis and development of the earliest form of Buddhist self-defense practiced by Chuan Fa monks and mystics shows both the philosophical and physical basis of the skills developed and passed on to subsequent generations. This book seeks to reunite these concepts. Its teaching draws equally on the practices of North Chinese Chuan Movement Meditation Traditions and on the South Chinese Esoteric (Mi Chiao) School--both secret traditions rarely revealed to the general public. The material is presented so readers can understand that what we

think of as a competitive sport is really a meditation mandala in action. Extensive appendices list the main Chinese dynasties, a chronology of Buddhist Sutras, a chronological record of scriptures, teachers, events during 1000 years of Indian and Chinese Buddhism, and translations of Bodhidharma's texts including The Six Gates, Entering the Buddha's Path, and the treatise upon the Bloodline Teaching of True Dharma.

Many know of the legends concerning the Shaolin Temple as the font of Asian martial arts. However, this was not the only temple with deep associations with combatives. This anthology dives deep into the historic significance of the relationship between temples, monks, and martial arts. As a transporter of culture, it seems logical that the Indian monk Bodhidharma brought more than just Buddhist texts to the Shaolin Temple. India has a wonderful tradition of martial and healing arts that he would have shared at the temple. His rich story throws light on how and why monks

throughout Asia have often blended martial arts with their spiritual lives. Asian countries have unique histories and societies, but also share important elements. A major thread is religion and the mixing with ancient native shamanism and mysticism. We find a blend of Buddhism, Daoism, Confucianism, Hinduism, and Islam in Asian cultures, which are strongly based in monastic centers. The spread of religious thought is coupled with the spread of knowledge about martial arts. It is part of human nature to find sources to enforce the spiritual, mental, and physical condition. Temples and martial arts are certainly valued for these reasons. In the first chapter, Michael Spiesbach details the story of Bodhidharma. His piece couples nicely with

Stanley Henning's observations from a visit to the Shaolin Temple. Dr. Charles Holcombe details the historic connections Daoism has with martial arts, while Mark Hawthorne discusses the recent state of Daoism and its prospects for the future. Jerry Shine's chapter on the sohei shows the influence these warrior monks had in Japanese history. Ken Jeremiah's chapter looks at the extreme asceticism Japanese monks and warriors practiced to reach their individual goals. Mark Wiley's chapter deals with mystical elements as sources of power in Indonesian martial arts. In the final chapter, Mark Kelland brings the religious and martial traditions into our present everyday lives.

This particular anthology on wing chun features only two authors: Dr. Joyotpaul Chaudhuri and Master Jeff Webb. Their academic and practical experience bring a rich text for anyone interested in this unique art, famed for its specialized training methods, combative efficiency, and noted associations with Yip Man, Bruce Lee, and the kung fu film industry. Wing chun is a southern Chinese system, so usually terms are written to reflect Cantonese, often using different romanization systems or mixtures of these systems. On top of this hodgepodge, politics among leading wing chun figures have brought

preferences for specific spellings to reflect their unique branches in the wing chun evolutionary tree. Because of this, I have not standardized the romanization in this anthology, as it does not greatly effect the reading. In chapter one, Dr. Chaudhuri analyzes the keys to motion in the second empty-hand form of wing chun: the bridge seeking routine. The focus is on the proper maintenance of the body's central axis and its motions, which helps with developing the foundations for delivering power. In the following chapter, Jeff Webb discusses the structure and body mechanics of punching techniques, plus various training methods employed for developing power. Also, punching strategy is shown as the greatest factor in differentiating these punches from

those of other styles. Chaudhuri then analyzes the structure and function of the primary stance in wing chun's first form (sil lim tao), which instills the relational structure of bone, ligament, joint, tendon, muscle, line and angle, while also teaching the inner virtues of softness, stillness, sinking and emptiness. Two following chapters are by Jeff Webb. The ability to apply martial art techniques at a high rate of speed is essential to overall fighting effectiveness. By looking beyond the physical to the conceptual, he details wing chun's theories that reveal proper timing to be a significant multiplier. His final piece describes both the fundamental and complex methods of "sticking hands" training in detail. It also explains the rationale and theories

behind this method as well as discusses a variety of factors that can either improve or retard the acquisition of tactile reflexes. The final two chapters by Chuadhuri and Webb presents some of their favorite techniques. The content of these chapters explain wing chun rationale and unique fighting methods, plus provides logic and advice to benefit the practitioner.

Shantideva's Bodhisattvacharyavatara (A Guide to the Bodhisattva's Way of Life) holds a unique place in Mahayana Buddhism akin to that of the Dhammapada in Hinayana Buddhism and the Bhagavadgita in Hinduism. In combining those rare qualities of scholastic precision, spiritual depth and

poetical beauty, its appeal extends to a wide audience of Buddhists and non-Buddhists alike. Composed in India during the 8th century of the Christian era, it has since been an inspiration to millions of people throughout the world. This present translation by Stephen Batchelor is based upon a 12th century Tibetan commentary as orally explained by Ven. Geshe Ngawang Dhargyey. The ninth chapter on wisdom has been expanded for this edition with relevant commentarial passages.

You can find an ebook version of this title on GooglePlay! About one thousand years ago, the great Indian pandit and yogi, Dipamkara Shrijnana (Atisha), was invited to Tibet to re-establish the Buddhadharma, which had been

suppressed and corrupted for almost two centuries. One of Atisha's main accomplishments in Tibet was his writing of the seminal text, *A Lamp for the Path to Enlightenment*, in which he extracted the essence of all 84,000 teachings of the Buddha and organized them into a clear, step-like arrangement that makes it easy for any individual practitioner to understand and practice the Dharma. This genre of teachings is known as lam-rim, or steps of the path, and forms an essential part of every school of Tibetan Buddhism. In this book, His Holiness the Dalai Lama gives a commentary to not only Atisha's revolutionary work but also to *Lines of Experience*, a short text written by Lama Tsongkhapa, who was perhaps the greatest of all Tibetan lam-rim authors. In bringing together Atisha,

Lama Tsongkhapa and His Holiness the Dalai Lama, this book offers readers one of the clearest and most authoritative expositions of the Tibetan Buddhist path ever published, and it is recommended for those at the beginning of the path, the middle and the end. This book is made possible by kind supporters of the Archive who, like you, appreciate how we make these teachings freely available in so many ways, including in our website for instant reading, listening or downloading, and as printed and electronic books. Our website offers immediate access to thousands of pages of teachings and hundreds of audio recordings by some of the greatest lamas of our time. The Supervillain Reader ABC-CLIO

What is time? How does our sense of time lead us to approach the world? How did the peoples of the past view time? This book answers these questions through an investigation of the cultures of time in Christianity, Islam, Buddhism, Judaism and the Australian Dreamtime. It argues that our contemporary world is blind as to the significance and complexity of time, preferring to believe that time is 'natural' and unchanging. This is of critical importance to historians

since the base matter of their study is time, yet there is almost no theoretical literature on time in history. This book offers the first detailed historiographical study of the centrality of time to human cultures. It sets out the complex ways in which ideas of time developed in the major world religions, and the manner in which such conceptions led people both to live in ways very different to our contemporary world and to make very different kinds of 'histories'. It goes on to argue that modern scientific descriptions of time, such as Einstein's Theory of Relativity, lie much closer to the complex understandings of time in religions such as Christianity than they do to our 'common-sense' notions of time which are centred on progress through a past, present and future.

 Supervillain Reader, featuring both

 why we are so fascinated with the villain.
 The obsession with the villain is not a
 new phenomenon, and, in fact, one finds
 villains who are “super” going as far
 back as ancient religious and
 mythological texts. This innovative
 collection brings together essays, book
 excerpts, and original content from a
 wide variety of scholars and writers,
 weaving a rich tapestry of thought
 regarding villains in all their
 manifestations, including film, literature,
 television, games, and, of course, comics
 and sequential art. While The
 Supervillain Reader focuses on the latter,
 it moves beyond comics to show how the

vital concept of the supervillain is part of our larger consciousness. Editors Robert Moses Peaslee and Robert G. Weiner collect pieces that explore how the villain is a complex part of narratives regardless of the original source. The Joker, Lex Luthor, Harley Quinn, Darth Vader, and Magneto must be compelling, stimulating, and proactive, whereas the superhero (or protagonist) is most often reactive. Indeed, whether in comics, films, novels, religious tomes, or video games, the eternal struggle between villain and hero keeps us coming back to these stories over and over again.

Warriors, Witches, Women

Cambridge University Press

Meet mythology's fifty fiercest females in this modern retelling of the world's greatest legends. From feminist fairies to

bloodsucking temptresses, half-human harpies and protective Vodou goddesses, these are women who go beyond long-haired, smiling stereotypes. Their stories are so powerful, so entrancing, that they have survived for millennia. Lovingly retold and updated, Kate Hodges places each heroine, rebel and provocateur firmly at the centre of their own narrative. Players include: Bewitching, banished Circe, an introvert famed and feared for her transfigurative powers. The righteous Furies, defiantly unrepentant about their dedication to justice. Fun-loving Ame-no-Uzume who makes quarrelling friends laugh and terrifies monsters by flashing at them. The fateful Morai sisters who spin a complex web of birth, life and death. Find your tribe, fire your imagination and

be empowered by this essential anthology of notorious, demonised and overlooked women.

The urge to forge one's character by fighting, in daily life as well as on the mat, appeals to something deep within us. More than a collection of fighting techniques, martial arts constitute a path to developing body, spirit, and awareness. *On the Warrior's Path* connects the martial arts with this larger perspective, merging subtle philosophies with no-holds-barred competition, Nietzsche with Bruce Lee, radical Taoism and Buddhism with the Star Wars Trilogy, traditional martial arts with basketball and American Indian culture. At the center of all these phenomena is

the warrior. Though this archetype seems to manifest contradictory values, author Daniele Bolelli describes the heart of this tension: how the training of martial technique leads to a renunciation of violence, and how overcoming fear leads to a unique freedom. Aimed at students at any level or tradition of martial arts but also accessible to the armchair warrior, *On the Warrior's Path* brings fresh insights to why martial arts remains an enduring and widespread art and discipline. Two new chapters in this second edition focus on spirituality in the martial arts and the author's personal journey in the field.

This famous and universally loved poem for daily living has inspired many

generations of Buddhists and non-Buddhists since it was first composed in the 8th century by the famous Indian Buddhist master Shantideva. This new translation, made under the guidance of Geshe Kelsang Gyatso, conveys the great lucidity and poetic beauty of the original, while preserving its full impact and spiritual insight. Reading these verses slowly, while contemplating their meaning, has a profoundly liberating effect on the mind. The poem invokes special positive states of mind, moves us from suffering and conflict to happiness and peace, and gradually introduces us to the entire Mahayana Buddhist path to enlightenment.

This set includes all four volumes of the critically acclaimed History of Central Asia series. The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations, as well as many of the most transformative developments, in the history of civilization. Christoph Baumer's ambitious four-volume treatment of the region charts the 3000-year drama of Scythians and Sarmatians; Soviets and transcontinental Silk Roads; trade routes and the transmission of ideas across the steppes; and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan. Masterfully interweaving the stories of individuals and peoples, the author's engaging prose is richly augmented throughout by colour photographs taken on his own travels.

This set includes The Age of the Steppe Warriors (Volume 1), The Age of the Silk Roads (Volume 2), The Age of Islam and the Mongols (Volume 3) and The Age of Decline and Revival (Volume 4)

This major book explores the astonishingly rich heritage of Japanese art, from prehistoric times until Japan opened its doors to the West at the commencement of the Meiji period (1868-1912). It reveals the astonishingly rich heritage of Japanese art held in Australia's major public and private collections. Serene Buddhist sculptures, spectacular painted screens, miniature

netsuke talismans, colourful Ukiyo-e images of the 'floating world', costumes, masks, armour and flamboyant export art created for Australia's late nineteenth-century international exhibitions are all included in celebration of the profound lyricism and sophisticated eloquence of Japanese aesthetics. The book features essay contributions by twelve leading Japanese and non-Japanese scholars. This publication is certain to be a major step in promoting greater national and international awareness in appreciating the significance of Japanese collections held in Australia.
