The survival and sustenance of human life and all activities on this earth mainly depends on financial prosperity. A vast majority of us think of, talk about and act as per financial considerations. In 21st millennium, money is God, God is money. A high financial status automatically brings power, glory, authority, comforts and friends and covers most of the short comings. People without money lead a life of sufferings & penury unsung, unwept & unhonoured in life as well as in death. People's curiosity and inquisitiveness grow more and more in the quest for future financial status & life style. This brings in the necessity of divine astrological consultations which help a native to decide why, what, when, where and how one should act to get the best as per one's past karmas & present serious efforts. Selection of an auspicious time to start a work and resort to remedial measures when things are not moving as expected are core considerations for any business. The profession of a native is intimately related to one's chances and degree of success in acquiring riches & wealth. The number and type of professions are far too many to be counted. The profession is a mean to achieve prosperity, but these days the end results justify the means. More and more people earn riches through dubious means passing through the phenomenon of ups and downs, rags to riches and riches to rags. Hence various professions along with these phenomenons have been discussed in detail with illustrations.

In Hindu astrology, Rahu and Ketu signify the two mathematical points on each side of the moon that have a significant impact on self-experience. The Significance of Rahu and Ketu in Vedic Astrology is realized positively and negatively in a person's life. As a rising node of the moon, Rahu is known to cause spiritual growth and whenever it exists in a chart; the result is luxury and obsession. It's a powerful node favorable to politicians as it presents opportunities and immense power to ascend in political affairs both justly and unjustly. Rahu also influences criminals, snakes as well as magicians just to mention a few. Rahu has the power to give wealth and make a person popular. At the same time, this shadow planet is likely to cause confusion, despair and emotional inequity. It's very powerful in the 3rd, 6th and 11th houses of a horoscope. Ketu is a shadowy, descending and malefic planet but not as malefic as Rahu. Ketu offers liberation and nonattachment to material desires and worldly ambitions. It provides spiritual knowledge, power to differentiate, self-knowledge as well as wisdom. Whenever present in a chart, it gives a person psychic abilities. A person can perform natural healing, deal with ghosts, evil spirits, and astral forces as well as make them wizards of foods, herbs and spices. Ketu enables a person to blend in naturally among people

The name of late Professor Krishnamurti is well known in modern astrology. He did sincere and serious research in the field of astrology and given it a new dimension. For some time the work of Krishnamurti was neither recognised nor respected by traditional astrologers due to one or another reason. It was only in 1996 when Dr. Arastu Prabhakar, and Shri Daya Shankar (IRS) recognised the importance and face value of the work of late K.P. their efforts yielded results and astrologers as a whole came to know about the amazing system of prognostication. Dr. Arastu has gone a step ahead and blended the traditional astrology with that of K. P. to make it a compendium of vast knowledge. He has also tried to bridge the gaps which persisted in the work of K.P. to make it lucid and easily comprehensible. The present book is an almost complete book on horary astrology.

It gives me immense pleasure to bring forth the second revised edition of my highly cherished work of Bhrigu Samhita, an ancient and unique treatise in predictive astrology. I was equally elated and feel ecstatic for having received encouraging as well as critical responses from the esteemed and avid readers. It deference to their valuable suggestions and also some ambiguity pointed by them, I have revised some part of the chapter on "Basic Astrology" and also brought about improvement and amplifications in certain parts of the analyses of various charts wherein the evolved principles which are specifically important in delineating horoscopes on the format of Bhrigu Samhita are further explained. This was done with a view to make the explanations more cogent in comprehend. This will also address the concern sown by the valued readers in some places of earlier narrations.

Astrology is a great science based on sound principles and theory of karma through cycles of rebirth. A horoscope is basically a map of zodiac indicating position of planets in various signs/ Nakshatra at the time and place of birth. The delineation of a chart is the science and art of deciphering it as per the knowledge, intuition of the astrologer and divine help available to him. Therefore the first requisite is to have sound knowledge of nature and characteristics of houses, signs, Nakshatra and planets and their inter-relation. Next comes the basic tools like dasha, transit, yoga and divisional chart and their application in delineating a horoscope. Lagna is the single most important factor in delineating a horoscope. It is the very being of the native, his élan vital & basic potential. Unless the seed of a specific quality or event is contained in this basic potential, other planetary indications will not find suitable opportunities for manifestation. Lagna also determines the numbering of houses with lagna being the first. With the change in lagna, the significations of any planet will change drastically, as his house & lordship changes, although the sign & constellation of the planet remain unchanged.

Stars and planets have always fascinated us. The steady majesty of these cosmic bodies have had a captivating effect on humans from ancient times. Astrology involves the forecasting of mundane events in one's life through analysing planets, fixed stars and their arbitrary combinations called constellation. Astrology uses a set of rules about the relative positions and movements of heavenly bodies to generate predictions and explanations for events and human personality traits. We can understand the unambiguous truth of how Astrology embodies a sense that life on Earth is affected by events in the wider universe, and how it offers hope of making sense of a bewilderingly complicated cosmos, and reassures us that we are a part of its grand design. The motivation behind this book is to establish a comprehensive, concise yet dynamic guide that can help anyone learn this science.
