Diploma Thesis from the year 2005 in the subject Didactics for the subject English - Pedagogy, Literature Studies, grade: 1,00, PH Oberoesterreich, language: English, abstract: This paper aims at raising the reader's awareness for the complexity of dictionaries and is meant to convey lots of additional information on dictionaries as such and also on how to use them, especially with young learners of English in the classroom. The majority of dictionary owners are not aware of the huge source of knowledge they could have access to if they had learned how to use a dictionary properly and therefore actually will not profit from their purchase. The first thing most adults do when they start to learn a new language is to buy a dictionary, because this seems to be the first step to successful language acquisition to them. On-line information -- and free text in particular -- has emerged as a major, yet unexploited, resource available in raw form. Available, but not accessible. The lexicon provides the major key for enabling accessibility to on-line text. The expert contributors to this book explore the range of possibilities for the generation of extensive lexicons. In so doing, they investigate the use of existing on-line dictionaries and thesauri, and explain how lexicons can be acquired from the corpus -- the text under investigation -- itself. Leading researchers in four related fields offer the latest investigations: computational linguists cover the natural language processing aspect; statisticians point out the issues involved in the use of massive data; experts discuss the limitations of current technology; and lexicographers share their experience in the design of the traditional dictionaries.

Collins COBUILD Essential English Dictionary HarperCollins

"Dictionary Stories isn't just a book for word nerds, but for anyone for whom language and story matter. Everybody will find themselves thoroughly in love with this book." —Kory Stamper, editor for Merriam-Webster, and author of *Word by Word*. Everyone has looked up a word in the dictionary. Some of us have even asked for it to be used in a sentence during our 2nd grade spelling bee. But few of us have ever really considered those example sentences: where they come from, how they're generated...and why in heaven's name they are so darn weird. Jez Burrows opened the New Oxford American Dictionary and sat, mystified. Instead of the definition of "study" he was looking for, he found himself drawn to the strangely conspicuous, curiously melodramatic sentence that followed it: "He perched on the edge of the bed, a study in confusion and misery." It read like a tiny piece of fiction on the lam and hiding out in the dictionary—and it wasn't alone. Was it possible to reunite these fugitive fictions? To combine and remix example sentences to form new works? With this spark and a handful of stories shared online, Dictionary Stories was born. This genre-bending and wildly inventive collection glows with humor, emotion, and intellect. Effortlessly transcending sentence level, Burrows lights between the profound and the absurd, transporting readers into moments, worlds, and experiences of remarkable variety. Featuring original illustrations by the author, Dictionary Stories is a giddy celebration of the beauty and flexibility of language.
