They thought the fears were gone. They thought the nightmares would stop haunting them. But the five of them were wrong. They're older now. They're friends. But that friendship can be

shattered so easily when life turns scary again. It was bad enough when it was just clowns and sharks and snakes. Back then, they had to conquer their own fear. Now . . . they have to conquer everyone else's. Houghton Mifflin Harcourt Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the

greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange

howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

After the excitement of the fall, all Cammie Morgan wants is peaceful semester at school. But that's easier said than done when

you're a CIA legacy and go to the premier school in the world...for spies. Cammie may have a genius I.Q., but there are still a lot of things she doesn't know. Like, how much trouble is she really in after what happened last semester? What will happen with Josh? And above all, why is her mother acting so strangely? Despite Cammie's best intentions to be a normal student, danger seems to follow her. She and her friends learn that their school is going to play host to

some mysterious guests-- code name: Blackthorne. Then she's blamed for a security breach that leaves the school's top secret status at risk. Soon, Cammie and her friends are crawling through walls and surveilling the school to learn the truth about Blackthorne and clear Cammie's name. Even though they have confidence in their spy skills, this time the targets are tougher (and hotter), and the stakes for Cammie's heart--and her beloved school--are higher

than ever.

Not If I Save You First

Simon and Schuster

A beloved classic that captures the powerful bond between man and man's best friend. Billy has long dreamt of owning not one, but two, dogs. So when he's finally able to save up enough money for two pups to call his own—Old Dan and Little Ann—he's ecstatic. It doesn't matter that times are tough; together they'll roam the hills of the Ozarks. Soon Billy and his hounds become the finest hunting team in the

valley. Stories of their great achievements spread throughout the region, and the combination of Old Dan's brawn, Little Ann's brains, and Billy's sheer will seems unbeatable. But tragedy awaits these determined hunters—now friends—and Billy learns that hope can grow out of despair, and that the seeds of the future can come from the scars of the past. There is nothing to be found in the pages of A Series of Unfortunate

Events but misery and despair. You still have time to choose another international best-seller to read. But if you must know what unpleasantries befall the charming and clever Baudelaire children read on . . . In *The Wide Window* we encounter a story that includes a hurricane, a signalling device, hungry leaches, cold cucumber soup, a horrible villain and a doll named Pretty Penny. With 5 million copies sold in the UK alone, one might consider Lemony Snicket’s *A Series of*

Unfortunate Events to make him one of the most successful children’s authors of the past decade. We, however, consider these miserable so-called adventure stories and the Hollywood film starring Jim Carrey that accompanied the books for children as nothing more than a dreadful mistake.

Warning: this description

has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the

nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret. Dog Man #8 Macmillan Pitching prodigy Michael Arroyo is on the run from social services after being banned from playing Little League baseball because rival coaches doubt he is only twelve years old and he has no parents to offer them proof.
