The R-Series BMW MINI had a lot to live up to. Launched in 2001, it was riding in the wake of the classic 1959-2000 Mini. At the

time, BMW were going to have to create something as special and innovative as its longstanding predecessor in order to silence the naysayers. And they did. Since its launch in 2001, BMW's modern MINI has become the pinnacle of small yet funky family cars in the premium small (and sometimes not so small) car segment. Now in its third generation, having unveiled the new F-Series in 2014, BMW MINI offers 3- and 5-door hatchback models and convertibles, the estate Clubman, the five-door Countryman, the Coupe, the Roadster and the three-door crossover Paceman. MINI enthusiast and motoring journalist Sophie Williamson-Stohtert explores the journey from 1959 to the present day, covering design and development of the new MINI, launch and reception by the press, its many model variations and special editions, and an owner's and buyer's guide. Superbly illustrated with 170 colour photographs.

Since its launch in 2001, the New Mini has been a spectacular sales success in all its major markets, particularly the UK and the USA. Two years after it first appeared on the roads, the New Mini still turns heads, and has inspired a burgeoning aftermarket accessory and tuning industry. This all-color book will fascinate all New Mini owners and enthusiasts.

Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside

than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.
