Invasion Penguin

In a novel as timely as it is terrifying, New York Times-bestselling author Robin Cook explores the controversial clash of politics and biotechnology. When Dr. Daniel Lowell and his partner, Dr. Stephanie D'Agostino, discover a new cloning procedure

that utilizes stem cells to treat otherwise incurable and degenerative diseases, they know they've hit the medical jackpot. But with their cutting-edge method pending approval, they run into a roadblock by the name of Senator Ashley Butler, who views their technique as an attack on traditional American values. Then Butler is diagnosed with rapidly progressing Parkinson's disease, and

he must make a Faustian pact with the very doctors whose groundbreaking technology he is trying to destroy: treatment in exchange for unwavering support. But the DNA transference procedure has never been tested before, and working under less than favorable conditions to keep the premature trial under wraps, the doctors place their careers—and their patient's life—at risk, all in the name of scientific

progress. Once they hit the point of no return, they feel invincible, but when Butler starts experiencing violent, horrifying seizures, they realize their luck may have run out...

Genesis Penguin

A harrowing medical nightmare on the cutting edge of genetic research, *Mortal Fear* goes into the controversial future of modern medicine. At a large Boston clinic, a world-class biologist stumbles upon a miraculous discovery, a major scientific

breakthrough. Soon, healthy, middle-aged patients are dying of old age. And the ultimate experiment in terror begins...

Intervention Horrified Press

Dr. Cassandra Kingsley is about to discover that neither her marriage nor her job is what she thought. And when she sets out to find the truth, it may just kill her.

Shock Palgrave Macmillan Australia

Both of them suspected that something was wrong--terribly wrong--in

the great medical research center where they worked. Both of them wondered why a beautiful young woman had died on the operating table and her brain secretly removed. Both of them found it impossible to explain the rash of female patients exhibiting bizarre mental breakdowns and shocking behavior. Both of them were placing their careers and very lives in deadly jeopardy as they penetrated the eerie inner sanctums of a medical world gone mad with

technological power and the lust for more...

Outbreak Penguin

Entering a profession on the brink of radical transformation by a new smartphone technology capable of diagnosing and treating patients, radiology resident George Wilson is horrified when his fiancée and several patients die after beta testing the technology. By the #1 best-selling author of *Intervention*. Reprint.

Mortal Fear Penguin

Future doctor Adam Schonberg loved his wife. That was why he took a

job with the giant drug firm Arolen, for the money he needed for their coming baby. His wife, Jennifer, felt she would get the best of care at the Julian Clinic as her pregnancy progressed. It seemed a happy coincidence that the Julian Clinic was owned by Arolen...until Adam Schonberg slowly began to suspect the terrifying truth about this connection...and about the hideous evil perpetrated on the wife he loved by the doctor she helplessly trusted...

Cell Penguin

At a prestigious Florida medical center, brain cancer patients are treated with a one-hundred-percent success rate. Sean Murphy, a young medical student, finds it hard to believe. Is it a miracle cure? Or the biggest con job in the history of medicine?

Host Penguin

When world-renowned doctor Quentin Forsythe goes missing after traveling to a decimated colony in the heart of south Africa, a team of doctors must find a way

to save one of their own when a sinister new virus is unleashed, transforming the colonists into something unspeakable. Doctors Judas Sturgis and Katy Madison embark into the colony to find their missing colleague, Dr. Quentin Forsythe, who supposedly has found a cure. They will witness the horrifying wake of this unstoppable virus. It's a race against the clock when the U.S. Military led by Capt. Nathaniel Logan arrives - on orders to quarantine the whole

area. A fractured rebel army arrives with their own dark agenda, and Dr. Sturgis starts to unravel from the seams. Can Katy Madison and Capt. Logan hold everything together and find a way to save the colony, or risk becoming her next victims? Check out more great Horrified Press titles here: horrifiedpress.wordpress.com

Cell Penguin

It was the magic and mystery of an empire long past that beautiful Erica Baron came to explore. Innocently she cast her

eyes in forbidden places and discovered the clue to a treasure beyond imagination. It was then that terror overtook her, as the most fearful curse of the ancient world and the most savage menace of the modern one threatened to destroy her. One dangerously attractive man offered Erica help...he offered her protection...he offered her love. And in this strange, exotic land of seductive evils, where no one could be trusted, desire became for Erica the deadliest snare of all...

Critical Penguin

It should have been a routine childbirth. But somehow, the mother died in the delivery, the baby was born brain-damaged, and Jeffrey Rhodes, the anesthesiologist, is running for his life. Charged with malpractice, he is found guilty of harmful intent and reckless disregard for human life. To clear his name, Rhodes must follow a fugitive trail into the heart of medical nightmare. A trail that, for some, may end in suicide-

-and for others, in the most shocking conspiracy of our time...

Acceptable Risk Penguin

Robin Cook has always been on the cutting edge of the latest medical controversies. In *Acceptable Risk*, he confronts one of the most provocative issues of our time: personality-altering drugs and the complex moral questions they raise. Neuroscientist Edward Armstrong has managed to isolate a psychotropic drug with a strange and dark history--one that may account for

the public hysteria during the Salem witch trials. In a brilliant designer-drug transformation, it is developed into an antidepressant with truly startling therapeutic capabilities. But who can be sure the drug is safe for consumers? Who defines the boundaries of "normal" human behavior? And if the drug's side effects are proven to be dangerous--even terrifying--how far will the medical community go to alter their standards of...*Acceptable Risk*.

Penguin
New York City medical examiners Laurie Montgomery and Jack Stapleton return in this stunning new novel from the 'master of the medical thriller' (New York Times) a ripped-from-the-headlines tale of an innovative doctor's dangerous downward spiral.

Toxin Penguin
A mysterious transmission from the depths of the Atlantic Ocean sends a team of oceanographers and divers on a perilous quest in search of a

discovery that could transform modern science and the future of humankind. Original.

Death Benefit: A Pia Grazdani Novel 1

Penguin
A doctor's life gets turned upside by a dangerous new technology in this thought-provoking medical thriller from #1 New York Times bestselling author Robin Cook. George Wilson, M.D., a radiology resident in Los Angeles, is about to enter a profession on the brink of an enormous paradigm shift,

foreshadowing a vastly different role for doctors everywhere. The smartphone is poised to take on a new role in medicine, no longer as a mere medical app but rather as a fully customizable personal physician capable of diagnosing and treating even better than the real thing. It is called iDoc. George's initial collision with this incredible innovation is devastating. He awakens one morning to find his fiancée dead in bed alongside him, not long after she participated

in an iDoc beta test. Then several of his patients die after undergoing imaging procedures. All of them had been part of the same beta test. Is it possible that iDoc is being subverted by hackers—and that the U.S. government is involved in a cover-up? Despite threats to both his career and his freedom, George relentlessly seeks the truth, knowing that if he's right, the consequences could be lethal.

Fatal Cure Penguin
Invasion is a fast-paced

thriller from New York Times bestselling author and master of the medical thriller Robin Cook. To anyone glancing upwards at the night sky, it would have seemed like a brilliant shooting star . . . but moments later electronic equipment of every kind began to spark and explode throughout the city. The following morning, college student Beau Stark is the first to pick up one of the countless strange black discs scattered far and wide. After an initial sharp pain like a bee-sting, he

becomes gradually 'infested'. His flu-like symptoms signify the revival of an alien virus implanted millions of years in mankind's genetic code – and since then lying dormant until the unwitting hosts are sufficiently developed to aid its relentless progress. Meanwhile, all over the nation, other human beings and animals succumb to the same virus and start to behave bizarrely and symbiotically – as if controlled by some outside influence. As Beau

assumes leadership of this growing band of the 'infested', his college friends quickly realize that something truly horrifying is happening around them. Desperately struggling to piece together the puzzle, they soon become hunted refugees in a desperate quest to save humanity - before the Gateway opens. 'Leave it to doctor-turned-novelist Robin Cook to scare us all to death' Los Angeles Times

Brain Penguin
A lavishly funded, security-conscious

nanotechnology institute in the foothills of the Rockies, Nano is ahead of the curve in the competitive world of molecular manufacturing, including the construction of microbivores, tiny nanorobots with the ability to gobble up viruses and bacteria. But when Pia Grazdani takes a job there, she's shocked by the secretive corporate culture. She's warned by her boss not to investigate the other work being done at the gigantic facility, nor to ask questions about the

source of the seemingly endless capital that funds the institute's research. And when Pia encounters a fellow employee on a corporate jogging path suffering the effects of a seizure, she soon realizes she may have literally stumbled upon Nano's human guinea pigs. Is the tech giant on the cusp of one of the biggest medical discoveries of the twenty-first century—a treatment option for millions—or have they already sold out to the highest bidder?

Cell Cell

The world's bestselling master of the medical thriller, Robin Cook skillfully combines human drama and high-tech thrills with the latest breakthroughs and controversies of modern medicine. Now, in his most daring novel yet, a mysterious transmission from the bottom of the Atlantic Ocean leads a crew of oceanographers and divers to a phenomenon beyond scientific understanding—a discovery that will change everything we know about

life on Earth...

Chromosome 6 Penguin
An ancestry database holds the key to catching a killer in this explosive medical thriller from New York Times-bestselling author Robin Cook. When the body of social worker Kera Jacobsen shows up on Chief New York City Medical Examiner Laurie Montgomery's autopsy table, it appears she was the victim of a drug overdose. But for Laurie and her new pathology resident, the brilliant Dr. Aria Nichols, little things aren't adding up. Kera's

family and friends swear she never touched drugs. Administrators from the hospital where Kera worked insist the case be shrouded in silence. And although Kera was ten weeks pregnant, nobody knows who the father was—or what he might now about Kera's final moments alive. With Laurie temporarily sidelined by a medical emergency, impulsive Aria turns to a controversial new technique: collaborating with experts at a start-up ancestry website to trace

the fetus's DNA in the hopes of identifying the mystery father. But when Kera's fellow social worker is murdered, it becomes clear that someone doesn't want Kera's secrets to come to light . . . and if Aria gets any nearer to the truth, she and Laurie might find themselves a killer's next targets.

Godplayer Penguin
Newly divorced surgeon Dr. Kim Regis is determined to remain a good father to his only son, Seldon. On a special night out, Kim takes

Seldon to his favorite fast-food restaurant for a feast of burgers and fries. But the good time turns to tragedy: the young boy becomes gravely ill and dies as a result of poisoning by E. coli. bacteria found in the meat. Was Seldon's death a result of shoddy food-handling practices? Or was it a sophisticated case of product tampering - by a rival fast-foot giant or a disgruntled employee? Or perhaps by someone with a score to settle with Kim? Taking a leave from his surgical

practice, Kim devotes his energies to solving the mystery full time. But he immediately hits a brick wall: a code of silence more impenetrable than anything he has ever encountered in his medical career. Instead of a cold-shoulder reception, however, Kim is soon met with a boot and a fist as thugs attempt to quash his inquiry. Aided by his ex-wife, Kim pursues a trail of deadly evidence, uncovering complicity and guilt stretching from the slaughterhouse floor to the corporate boardroom.

Racing against time before more are poisoned, the two come face-to-face with the shocking and elusive truth. And in their life-and-death search for

answers, they rediscover the reasons they first fell in love. With trademark pulse-pounding flair, Robin Cook delivers a

cutting-edge thriller, borrowing from today's fears and tomorrow's medical technology.
