 The only comprehensive overview of the molecular basis and clinical features of the genetic disorder tuberous sclerosis, which affects approximately 50,000 people in the US alone. Special focus is placed on novel insights into the signal transduction pathways affected by the disease as well as genotype phenotype correlations, while existing and potential therapies are also discussed in depth. The editors are leading experts in research and treatment of the disease as well as the Vice President of the Tuberous Sclerosis Alliance, the only voluntary health organization for TSC in the US.

 If you are thinking of becoming a gay dad – or if you are already a gay dad – this book is for you! Are you ready to have kids? More and more gay men are turning to adoption and surrogacy to start their own families. An estimated two million American LBGTQ people would like to adopt and an estimated 65,000 adopted children are living with a gay parent. In 2016, The Chicago Tribune reported that 10 to 20 percent of donor eggs went to gay men expanding their families via surrogacy, and in many places the numbers were up 50 percent from the previous five years.  
 Gay parenting: Having a kid is like coming out all over again, on a daily basis, especial if you have an infant. Was coming out stressful for you? It's about to get more intense and you will have a child watching your every move and listening to your every word. If you stutter or pause, they may pick up on your discomfort and could start to feel like something is wrong about their family unit. The Ultimate Guide For Gay Dads is jam packed with parenting tips and advice to help you build confidence and become the awesome gay dad you were meant to be! How Is This Parenting Guide Different From Others? Unlike other parenting books that have whole chapters focusing on things specifically related to mothers (such as how to get the perfect latch when breastfeeding), this parenting book replaces those sections with things relevant to gay dads. It covers topics like how to find LGBT friendly pediatricians, how to find LGBT friendly schools, how to childproof your home with style, how to answer awkward and prying questions about your family from strangers, examples for what two-dad families can do on Mother's Day, and much more. The book also includes parenting tips and advice from pediatricians, school educators, lawyers, and other same-sex parents. Top LGBT parenting expert: Bestselling author Eric Rosswood covers every aspect of fatherhood for gay men in this essential guide to growing your family in the post-DOMA era. He is a major influencer on social media with over 100,000 followers on Twitter alone, as well as thousands on other platforms. Exploring LGBTQ issues: Rosswood is an in-demand authority and commentator on LGBTQ issues, including civil rights, parenting, marriage and politics. The author has been featured in major

media including The Washington Post, Cosmopolitan, CBS News, The Huffington Post, Elite Daily, Yahoo! News, AOL News, NY Daily News, IB Times, and regional LGBTQ press.

**Everything You Need to Know About Air Travel: Questions, Answers, and Reflections** Brain Games Family Feud Puzzles  
 The rugged west coast of Vancouver Island offers some of the most spectacular and storied hiking in the Pacific Northwest. Home to the world-famous West Coast Trail, once a lifeline for marooned sailors and still among the most breath-taking yet demanding hikes on the continent, the island's western shores also feature lesser-known coastal trails for all abilities. From the tidal pools and pocket beaches of the Juan de Fuca Marine Trail to the craggy surf-swept shores of Shushartie Bay and the North Coast Trail, the ten areas covered in this volume will give you a taste of the region's best hiking terrain. This third, fully updated and expanded edition, delivers the detailed trail descriptions, insider tips and clear two-colour maps that hikers have come to rely on plus two entirely new sections on the wild and challenging North Coast Trail extension from Cape Scott and the remote and rarely visited Tatchu coastal hike on the Rugged Peninsula. Less-experienced hikers may enjoy the Juan de Fuca Trail, a southern extension of the West Coast Trail from Port Renfrew to Jordan River, or the trails through the stunning old-growth forest of Carmanah-Walbran Provincial Park. For day trippers, there's the Wild Pacific Trail, a northern extension of the West Coast Trail that begins in Ucluelet and heads north over headlands and white sand beaches toward Long Beach and Tofino. And for those who prefer more remote hiking, the northern part of the island offers the rugged Nootka Trail, described by Backpacker magazine as a wild, historic and beautiful trail, or the boardwalk at Cape Scott, where black bears share the windswept beaches with kayakers and the ghosts of shipwrecked crews. From planning the trip, to getting to and from the trailheads, to choosing the most scenic campsites, this is an indispensable guide for the thousands of hikers who use the West Coast Trail each year and for those who will want to use its alternatives.

Aging is an inevitable reality. It is often a gradual process in the last leg of our earthly life, and it is a transitory passage to the

great beyond: eternal glory. It's one thing to grow old, but it's another to age gracefully in joy. In *The Joy of Graceful Aging*, author Obinna Akpata encourages older people to live beyond the challenges of old age, and the youths are encouraged to respect their elders for a reward of divine grace. Rooted in biblical theology, Obinna discusses the emotional, social, and physical aspects of well-being for the elderly population. He examines the challenges that confront those who wish to live a normal life at old age. *The Joy of Graceful Aging* acknowledges that aging has its hopes, its loves, its thrills, and resonating moments, and that those who live the purpose-driven life have nothing to fear. They can walk in divine health with positive faith, righteousness, trust, and obedience.

Investigate, mitigate, and eliminate any abnormalities that threaten the planet. Former elite soldier, Jonathan Hawthorn has his work cut out for him. In a world where few people believe in the possibility of life existing outside of Earth, his job is to protect humanity—at all costs. Oceanographer, Ariella Marconi is suddenly thrust into the perilous deep when two large crystalline structures were detected on opposite ends of the ocean. Together, Ariella and Jonathan delve into the depths, investigating these objects as well as coming to a terrifying conclusion: the planet is in danger of destruction. With the ability to split the Earth in half, Ariella and Jonathan must join forces with unlikely candidates, both terrestrial and other-worldly, to understand what's within the crystals, save the planet, and uncover their true fate. But is someone—or something—manipulating time and space to keep them from linking their destinies once and for all? Sourcebooks, Inc.
