Black Hawk, so named after the sacred medicine bag he carried with him, was a warrior and a leader of a tribe of Sauk Native Americans in the American Midwest circa 1800. He rose to leadership during a tumultuous time for his people, as they were pressed on all sides by the warlike British, the ruthlessly expansionist Americans, and the grudges and jealousies of neighboring tribes. He lived as a warrior for much of his early life, when the War of 1812 between the British and the Americans forced the Sauk to take sides and enter the fray. Angered by the Americans' demands they sign shaky treaties to cede their land, the tribe fought for the British until the toll of the war forced the tribe to bow out. After the war, Black Hawk signed a peace treaty with the Americans, but a series of misunderstandings once again brought tensions between the Sauk and the Americans to a head. When a group of under-trained Illinois militia mistakenly opened fire on the Sauk, Black Hawk began what is known as the Black Hawk War, leading raids against American forts and settlements in an effort to reclaim their ancient land. Even though Black Hawk managed to convince other tribes to join his cause, the war was quickly lost and Black Hawk captured. He was then taken on a tour of the vast East Coast cities in an attempt to impress upon him America's overwhelming might. Despite his status as a former enemy, he was treated with dignity and respect by his captors before they granted him a small house and plot of land in Iowa to live out the rest of his days. His autobiography was dictated to a translator, Antoine Le Clair, and written down by his amanuensis and publisher, J. B. Patterson. The story Black Hawk tells is a vivid one of life on the prairie, rich with tradition and meaning, but riven equally by war and bloodshed. As he reminisces about the bucolic life he and his ancestors once led and compares it with the hardships his people are facing, his sorrow becomes palpable; and as his days draw to a close, the reader sees that even to Black Hawk, the fate of his people appears inevitable. What is different in the way a warrior thinks than the rest of us? Throughout the ages, warriors - ancient and modern - have had a determination to win like no other. They are willing to take calculated risks for the betterment of their fellow warriors. They live to stand for something greater than themselves. The warrior mindset is different. It is about knowing what you want and going for it. It's about being hard and it's about not letting little things get you down. It's about pushing ahead with what you know is right and it's about carrying responsibility and hardship on your shoulders with dignity and pride. It's about not letting your emotions get the better of you and it's about not taking the easy answer or the easy route to solve your problems. Instead, it's about taking the hard right and not the easy wrong. Now imagine if you could take that same mindset and apply it to modern life. Instead of getting tired or bogged down, instead of being distracted and tempted, you would instead drive forward with an unstoppable, bulletproof mentality. Your enemies would quake knowing that there was nothing they could do to stop you and the obstacles that normally would block another person's career, relationship goals and financial plans would all crumble beneath your will. Developing a warrior mindset makes you unstoppable. You are a warrior! In Warrior Mindset, we delve into how a warrior thinks and how you can learn that same way of thinking and apply it to your career, relationships and financial goals.
