 I shall return. Many are familiar with these famous words spoken by Gen. MacArthur before he left the Philippines as the Japanese began their takeover of the island nation. But few know the stories of those left behind, including the struggle for survival by Iowa soldier Dick Lang. Refusing to surrender, Lang joined the Filipinos as a guerrilla soldier in an attempt to liberate the country, and ultimately, to win his own freedom. Harrowing and heroic, this record of jungle life and guerrilla warfare is a true story of personal endurance and bravery.

 Consists largely of abstracts of articles and papers of interest to shipbuilders, ship owners and marine engineers.

The Economic and Social Effects of the Spread of Motor Vehicles Boydell & Brewer

This textbook covers the theoretical principles and technology of railway and tramway vehicles. In addition to the legal principles, driving resistances, drives, brakes, running dynamics and running gears as well as the supporting structures and superstructures

are dealt with. Great importance is attached to clear illustrations and numerous examples. With the help of this book, even engineers and railway enthusiasts from other disciplines can successfully familiarize themselves with the field of railway vehicle technology. The present edition has been revised and supplemented by the chapter "Engineering in rail vehicle construction".
