 Earth. The Final Frontier Contrary to popular belief, Earth is not an insignificant blip on the universe's radar. Our world proves anything but average in Guillermo Gonzalez and Jay W. Richards' *The Privileged Planet: How Our Place in the Cosmos Is Designed for Discovery*. But what exactly does Earth bring to the table? How does it prove its worth among numerous planets and constellations in the vastness of the Milky Way? In *The Privileged Planet*, you'll learn about the world's life-sustaining capabilities, water and its miraculous makeup, protection by the planetary giants, and how our planet came into existence in the first place.  Without exception, all people are faced with the inevitability of death, a stark fact that has immeasurably shaped societies and

individual consciousness for the whole of human history. *Mirrors of Passing* offers a powerful window into this oldest of human preoccupations by investigating the interrelationships of death, materiality, and temporality across far-flung times and places. Stretching as far back as Ancient Egypt and Greece and moving through present-day locales as diverse as Western Europe, Central Asia, and the Arctic, each of the richly illustrated essays collected here draw on a range of disciplinary insights to explore some of the most fundamental, universal questions that confront us.

The Secret Life of the Periodic Table uncovers the fascinating stories behind the formulation of the table. It describes how and who discovered the 118 elements, and the competition and cooperation behind scientific advances. The character of the elements is brought to life in a bright and engaging way, making The Secret Life of the Periodic Table ideal for students and general readers. Spared the monotony of a school text, they can gain a basic understanding of the fundamentals of atomic science. The book covers all 118 elements in 14 chapters. They are: A brief guide to atomic physics Igor Mendeleev, arguably the most important formulator of the table, and significant others Hydrogen Alkali metals Alkaline Earth metal Transition metals Post-transition metals Metalloids Other non-metals Halogens Noble gases Lanthanoids Actinoids Transuranium elements. Each element description includes a fact box showing atomic number, atomic weight, radius, melting point, boiling point, density, and the year of its discovery and by whom. There are many sidebars, boxes and extended captions covering topics of interest, like Ernest Lawrence's 1931 cyclotron, early precursor to the 10-km radius Large Hydron Collider that he could not possibly have imagined. There is also fascinating trivia about the elements. For example, phosphorus was first isolated by an alchemist's search for gold in urine and in the 1920s, there was a fad for lethal radium cocktails. The Secret Life of the Periodic Table is accurate and entertaining, making it a helpful adjunct to student studies. General readers will find it an enjoyable trip into the world of chemistry and atomic science. It is an ideal purchase for science, middle school and general collections.

Who Is Jesus Christ? Unlocking the Mystery in the Gospel of Matthew Thomas Nelson

This book is about seeing systems. It is about overcoming system blindness. It is about seeing our part in the context of the whole in ways that enable us to avoid misunderstandings and to interact more productively across organizational lines (Act One). It is about seeing the present in the context of the past, such that we can get a more accurate picture of our current condition (Act One). It is about seeing ourselves in relationship with others and creating satisfying and productive partnerships in these relationships (Act Two) is about seeing our systems' processes in ways that enable us to create systems with extraordinary capacities for surviving and developing (Act Three). It is about seeing the uncertainties in our system conditions in ways that enable us to move past the destructive battles of righteous position versus righteous position (Act IV).

The Secret Life of the Periodic Table Our Sunday Visitor
Discover the secret to living a powerful and abundant life through the upside-down kingdom of God. In our constant search for a life filled with blessing and abundance, we often follow our human instinct, and then wonder why we come up short. God always has a better idea. And it most often requires us to move in the opposite direction. In *The Opposite Life*, pastor and author Alex Seeley explains the secret to living a powerful and abundant life through the upside-down kingdom of God. Each chapter unpacks the opposite-life principles that begin with our way of thinking and yield miraculous results. They include death vs. life fear vs. faith last vs. first love vs. hate worry vs. worship give vs. receive impossible vs. possible We all want the blessed life but sometimes go about it in the wrong way. God's promises are conditional. He says follow Me, and I will change your weakness into strength, your foolishness into wisdom, and your nothing into everything.

This introduction to Nichiren Buddhism explores the philosophical intricacies of life and reveals the wonder inherent in the phases of birth, aging, and death. Core concepts of Nichiren Buddhism, such as the 10 worlds and the nine consciousnesses, illustrate the profundity of human existence. This book provides Buddhists with the tools they need to fully appreciate the connectedness of all beings and to revolutionize their spiritual lives based on this insight. Also explored are how suffering can be transformed to contribute to personal fulfillment and the well-being of others and how modern scientific research accords with ancient Buddhist views. Ultimately, this is both a work of popular philosophy and a book of compelling, compassionate inspiration for Buddhists and non-Buddhists alike that fosters a greater understanding of Nichiren Buddhism. Four Pillars of Destiny: Unlocking the Mysteries of Life is a compilation of real-life case studies and interviews with people from all walks of life, as conducted by Jerry King. Jerry will take

you through his journey with stories about metaphysical practices in Asia and personal recollections about the people that he has encountered during his travels. Collectively, he offers solutions for how to live in harmony with yourself and with those around you. This insightful and original book focuses on the understanding and use of the Chinese astrological system, Four Pillars of Destiny. In contrast to many traditional Chinese astrology books, Jerry uses real-life examples to unearth the age-old question of destiny. This book is especially pertinent to readers whose interest in astrology is based on recognition of its spiritual significance and its value for enhancing self-knowledge. Dolphins have fascinated humans for millennia, giving rise to an abundance of stories and myths about them, yet the actual details of their lives in the sea have remained elusive. In this enthralling book, Kathleen M. Dudzinski and Toni Frohoff take us into the dolphins' aquatic world to witness firsthand how they live their lives, communicate, and interact with one another and with other species, including people. Kathleen M. Dudzinski and Toni Frohoff are scientists who have collectively dedicated more than 40 years to studying dolphins beneath the ocean's surface, frequently through a close-up underwater lens. Drawing on their own experiences and on up-to-the-minute research, the authors show that dolphins are decidedly not just members of a group but distinct individuals, able to communicate with one another and with humans. Dudzinski and Frohoff introduce a new way of looking at, and listening to, the vocabulary of dolphins in the sea, and they even provide an introductory "dolphin dictionary," listing complex social signals that dolphins use to share information among themselves and with people. Unveiling an intimate and scientifically accurate portrait of dolphins, this book will appeal to everyone who has wanted a closer glimpse into the hearts and minds of these amazing creatures.

The answer is surprising, and what we're about to learn will wake us up to a reality most of us never knew existed. The reason we're so oblivious is because we've all been operating at human speed, relying on our own physical power and our five senses.

But there is something extremely important we've all been missing. It holds the key to everything good—the key to life, success, happiness, peace of mind, and understanding beyond our wildest imagination. It's perhaps the best-kept secret in the history of mankind and it packs a staggering, invigorating message that can change your life for the better—improving understanding, eliminating anxiety, and helping to extend your living years indefinitely. All we have to do is open our eyes and ears. We're all inundated with this secret at all times. It's present in our favorite songs and movies, the stories we tell our children, and even in every commercial campaign! The secret is broadcast

in famous news stories including the coronavirus pandemic, the sinking of the Titanic, or the collapse of the World Trade Center on 9/11. It's in ordinary life activities such as breathing, sleeping, waking up, traveling, sex, and getting married and changing one's name. Now, bestselling author and award-winning journalist Joe Kovacs reveals the solution—cracking the divine code that shifts our minds from operating at slow, human speed and making the jump to the incredibly quick "God speed." Hundreds of ancient mysteries and prophecies are instantly unsealed as the master key that unlocks the mystery of everything is now in your hands.
