 The development of the intensive care unit stands as an expression of a post war medical revolution in which the means have become available to deflect and defer death almost indefinitely. Here, cultural expectations of medical heroism are conjoined with images of the most exacting and precise application of medical science. However, the use of an arsenal of scientific and technological advances to try and pull dying people back from the very brink of death has, it might be argued, leapt ahead of our ability to deal with the professional, social, ethical

and financial.

Spiritually hungry readers who want to breakthrough to a deeper experience of prayer and want practical help for Lent need look no further than to Martin Smith's *A Season for the Spirit*. Originally commissioned by the Archbishop of Canterbury in 1991, *A Season for the Spirit* provides forty daily meditations for Lent, leading us on a journey of discovery in which we find that Christ, through the Spirit, embraces every aspect of our humanity. Each meditation concludes with a prayer and passage of scripture or quotation for further reflection and study. While it aims to assist a daily practice of personal prayer, it is also widely used by groups who pledge to meet regularly so that members can share their thoughts, reactions, and spiritual experiences.

Fiction. Jewish Studies. Embedded in Canadian and world history, and set in downtown Toronto between 1947 and the turn of the century, *THE HOUSE ON LIPPINCOTT* is a Jewish family saga which weaves together family caring, Holocaust trauma, abuse, aging, betrayal, anti-Semitism, resistance, and celebration, while introducing vital new characters to the Canadian landscape. There is brilliant feminist scholar and thinker, Miriam Himmelfarb, from whose perspective the story unfolds, her parents--Rachael and Daniel--both Holocaust survivors and activists, mysterious Uncle Yacov, and sisters Sondra and Esther. As children of survivors, early on, Miriam and her sisters make a decision which is to haunt them. A woman with heart, the aging Rachael presents her family with yet another harrowing choice. Compelling, passionate, touching. Long buried secrets come to light. Throughout, this novel is engrossing, passionate, captivating. Grounded in the language and conundrums of a Jewish immigrant family, it has the appeal of any novel embedded in a specific culture. At the same time, it extends beyond that culture, and indeed, beyond the Holocaust, bringing us face-to-face with the human condition: our ability to create joy and meaning even under dire circumstances, human suffering, growing up, responsibility, love, betrayal, family ties, the realities of growing old, death and the vulnerability of the human soul.

It is the spring of 1939 in the age of anxiety. In months Europe will be Hitler's. And Badenheim, a resort town vaguely in the orbit of Vienna, is preparing for its summer season. The vacationers arrive as they always have, a sampling of Jewish middleclass life: the impresario Dr. Pappenheim, his musicians, and their conductor; the gay Frau Tsauberblit; the historian Dr. Fushholdt and his much younger wife; the 'readers, ' twins whose passion for Rilke is featured on their program; a child prodigy; a commercial traveler; a rabbi. The list waxes as the summer wanes. To receive them in the town are the pharmacist and his worried wife, the hotelier and his large staff, the pastry shop owner and his irritable baker, Sally and Gertie (two quite respectable prostitutes), and, mysteriously, the bland inspectors from the "Sanitation Department." The story unfolds as matter-of-factly as a Chekhov play. The characters on stage are so deeply held by their defensive daily trivia that they manage to misconstrue every signal of their fate. Finally, de facto prisoners in their familiar resort, the vacationers, now increased by the forced crowding-in of other Jews hardly on vacation, take on the lineaments of undefined disaster. The text builds a sense of foreboding in which each human detail is so persuasive, so right in its fidelity to the terrible evasions of the time, that it leaves the reader transformed by what he and the author know must happen to Badenheim's people. Badenheim 1939 owes everything to its author's astonishing capacity to recreate the energies and confusions of innocent and uncomprehending victims who, always loyal to civility and social graces, fail to even dimly see the cruel terms of their imminent fate.

Astronaut Sarai Mathews knows the end is near when a giant wave rolls in and pulls her from the beach. But something strange happens: she doesn't die. Instead, she lives and breathes--underwater. While in the depths, she meets a handsome man named Jon Luc. According to him, they're both Gaiians, a race of beings who are equal parts human and earth spirit. They breathe in water and have a deep connection with nature and the sea. Could any of this be true? Is he real and not just someone she dreamt up during the chaotic moments in the water? For years, Jon Luc has searched for Sarai's family. They are from a portion of the Gaiians who were

lost to slavery and scattered across the Americas. These lost tribe members are called "The Missing". Now he must keep her enemies at bay because someone else has found Sarai too, and they want to steal her birthright, the phoenix, a mythical creature that only she can capture and control. Jon Luc will protect Sarai at all costs, but first he has to convince her of her heritage. With enemies on their trail, the pair must work together to harness Sarai's newfound abilities. As a daughter of the Missing, Sarai will attract the phoenix during her next space mission--and if she can't get control, it might destroy them all.
