Ten-year-old Braidy von Althuis just wants one thing: to fit in. The other kids at school think he's weird, and for good reason. Despite his oddities, Braidy wants more than anything for his dad to be able to come to Township Day, a fun-filled event at school, but Mr. von Althuis refuses. "It's

too dangerous," he says. Things change for Braidy when Mr. von Althuis gets sick, and, even worse, this pesky pest controller won't leave Braidy alone! Will Braidy be able to get his family to Township Day without his world falling apart? Braidy von Althuis and the Pesky Pest Controller is a tale of friendship, family, magic, and mayhem that takes a look at what it means to be bullied and how to rise above it. This book is suitable for

children aged 8 - 11.

Gender, Branding, and the Modern Music Industry combines interview data with music industry professionals with theoretical frameworks from sociology, mass communication, and marketing to explain and explore the gender differences female artists experience. This book provides a rare lens on the rigid packaging process that transforms female artists of various genres into female pop stars. Stars—and the industry power brokers who make their fortunes—have learned to prioritize sexual attractiveness over talent as they fight a crowded field for movie deals, magazine covers, and fashion

lines, let alone record deals. This focus on the female pop star's body as her core asset has resigned many women to being "short term brands," positioned to earn as much money as possible before burning out or aging ungracefully. This book, which includes interview data from music industry insiders, explores the sociological forces that drive women into these tired representations, and the ramifications for the greater social world.

Beastie Boys Book U of Minnesota Press Simultaneously celebrated and denigrated, celebrities represent not only the embodiment of success, but also the ultimate construction of false value. *Celebrity and Power* questions the impulse to become embroiled with the construction and collapse of the famous, exploring the concept of the new public intimacy: a product of social media in which celebrities from Lady Gaga to Barack Obama are expected to continuously campaign for audiences in new ways. In a new Introduction for this edition, P. David Marshall investigates the viewing public's desire to associate with celebrity and addresses the

explosion of instant access to celebrity culture, bringing famous people and their admirers closer than ever before.

The Invisible Life of Addie LaRue

Victor Rios has a vibrant reputation as America's leading ethnographer of Latino youth. His personal storygoing from drug pusher (selling heroin on the streets as a teenager) to a hard worker at a mechanic shop within a matter of weeks shows how he stands in the place of the Latino youths he studies. His story underscores the degree to which delinquent urban youths can become adaptable, fluid, amenable individuals, able to shift their views of the world as well as

their actions. Rios rejects the old storyline that said gangs are bad and they do bad things because they are bad people. Kids on the street, he argues, can drift between different identities, indeed, they can shift seamlessly between responsible and deviant displays within a few hours time. The key to understanding gang-associated youth lies in analysis of the way authority figures (teachers and police officers) interact with young people. The kids need caring adults who offer tangible resources. Story and characters are always front-and-center in Rios's narrative: Jorge, Mark, Wilson, and others, are boys we get to know as they negotiate day-to-day life on the streets and

across institutional settings. We learn a great deal about Cholo subculture, the clothing and hairstyles, and the argot that are adopted by Latino youth in response to the forces that seek to marginalize or punish them. The crisis of a perceived epidemic of police brutality in our post-Ferguson era is a product of culture in Rios's view: contested symbols, negative interactions, and day-to-day encounters that freeze youth identities as gang-associated, and that freeze authority identities as negative shapers of youth attitudes and actions are the dynamic. Fear of young males of color leads to police misreading and dehumanizing of young black and Latino men. Rios raises our

awareness of how this dynamic operates by studying his subjects whole: following young gang members into their schools, their homes, their community organizations, their detention facilities, and watching them interact with police, watching them grow up to become fathers, get jobs, get rap sheets. Get killed. This book will be a landmark contribution to the social psychology of poverty and crime."

Concord Theatricals Music, Lyrics, and Life is the songwriting class you always wish you'd taken, taught by the professor you always wish you'd had. It's a deep dive into the heart of questions asked by songwriters of all levels, from how

to begin journaling to when you know that a song is finished. With humor and empathy, acclaimed singer-songwriter Mike Errico unravels both the mystery of songwriting and the logistics of life as a songwriter. For years, this set of tools, prompts, and ideas has inspired students on campuses including Yale, Wesleyan, Berklee, Oberlin, and NYU's Clive Davis Institute of Recorded Music. Alongside his own lessons, Errico interviews the writers, producers, and A&R executives behind today's biggest hits and investigates the larger questions of creativity through lively conversations with a wide range of innovative thinkers: astrophysicist Janna Levin explains the

importance of repetition, both in choruses and in the exploration of the universe; renowned painter John Currin praises the constraints of form, whether it's within a right-angled canvas or a three-minute pop song; bestselling author George Saunders unpacks the hidden benefit of writing, and revising, authentically; and much more. The result is that Music, Lyrics, and Life ends up revealing as much about the art of songwriting as it does about who we are, and where we may be going. This is a book for songwriters, future content creators, music lovers, and anyone who wants to understand how popular art forms are able to touch us so

deeply. Mike Errico has honed these lessons over years of writing, performing, teaching, and mentoring, and no matter where you are on your songwriting journey, Music, Lyrics, and Life will help you build a creative world that's both intrinsic to who you are, and undeniable to whoever is listening.

Join the heart of the 90's punk scene where one woman finds her tattoo-covered, bass-playing prince charming in a whirlwind rock star romance--the third spinoff novel after 44 CHAPTERS ABOUT 4 MEN, the book that inspired the hit Netflix original series SEX/LIFE. In 1999, BB Easton met her Prince Charming. He was the

tall, tattooed, wickedly handsome bass player for the up-and-coming rock band Phantom Limb. But, more importantly, he was hers. She knew it the moment he flashed her that shy, dimpled smile. And he knew it too. Hansel “Hans” Oppenheimer wore his heart on his sleeve and poured his soul into every lyric he wrote about BB. Unlike the guys she’d dated in the past, Hans showered her with tenderness, took her places she’d never been before, and showed her the type of all-consuming love she’d thought only existed in fairy tales. But, like any good fairy tale, her road to happily ever after was paved with challenges, and right when she least expected it . . . it forked. "Star is the kind

of '90s teenage dream you won't want to wake up from. BB's world is hotter than stage lights, and this must-read book is your backstage pass. I love this series!" —Kayti McGee, author of *Want To view a*
