Be Brave, Be Strong Asia Bike Media

Following on from the hugely enjoyable A RIDE IN THE NEON SUN, Josie takes us on the second part of her journey through Japan; a country whose keyword is peace, yet spends millions each year on high-tech armament. Josie's travels are as fascinating as they are varied; she endures a horrific storm at sea, samples the deadly puffer fish and visits the two cities which will forever symbolise the horror of war: Nagasaki and Hiroshima. But wherever she goes, no matter how remote or industrious the area, Josie encounters the friendly, quirky and unbelievably generous Japanese people, from those who load her down with cabbages and cans of Pocari Sweat to one couple who left her the key to their shop - and told her to sleep by the till!

Handbook of Compliant Mechanisms CRC Press

There is nothing sacrosanct about bike repair. Its pursuit only requires the will to learn. At their finest hours bikes exist on a level above mere machines, and there's no reason why the joy should end when the ride is over. Bicycle! written by a long-time bicycle mechanic, covers everything you need to know to feed and care for your ride. This book cuts through the obtuse techno-speak and delivers maintenance clarity with a touch of humor and radicalism, while categorically denying mechanistry's supposed dreariness. Bicycle! is about encouraging society to learn for themselves how to make their bikes work, not because they have to, but because they want to. With detailed descriptions of all maintenance tasks and repair situations, clearly illustrated with photographs and drawings, this guide will serve the need for a serious rider's manual. Professional bicycle workers—messengers, mechanics, pedi-cab drivers—as well as bicycle commuters have been waiting for this book. This second edition includes an abundance of helpful photos, an expanded index, and an updated resources section. Moreover, it benefits from insights gained through five years' worth of additional mechanic experience including low-cost and no-cost repair solutions the

author developed while serving as a Peace Corps Volunteer in Mauritania. Some of the Topics Covered: Essential Tools Bike Components (Maintaining, Adjusting, Repairing) On-the-Road Repairs Build Your Own (Scavenging) Locks / Thief Deterrents Rust, the Elemental Bike Nemesis And much, much more!

Popular Mechanics Jill Homer

Jill Homer has an outlandish ambition: Racing a mountain bike 2,740 miles from Canada to Mexico along the Continental Divide. But her dream starts to unravel the minute she sets it in motion. An accident on the Iditarod Trail results in serious frostbite. She struggles with painful recovery and growing uncertainties. Then, just two days before their departure, her boyfriend ends their eight-year relationship, dismantling everything Jill thought she knew about life, love and her identity. This is the story of an adventure driven relentlessly forward as foundations crumble. During her record-

breaking ride in the 2009 Tour Divide, Jill battles a torrent of anger, self-doubt, fatigue, loneliness, pain, grief, bicycle failures, crashes and violent storms. Each night, she collapses under the crushing effort of this savage new way of life. And every morning, she picks up the pieces and strikes out to find what lies on the other side of the Divide: Astonishing beauty, unconditional kindness, and boundless strength.
