Learning Pvt. Ltd. On August 24, 2001, Air Transat Flight 236, an Airbus 330, was on its way from Toronto, Canada to Lisbon, Portugal with 306 people on board. Above the Atlantic Ocean, the crew noticed a dangerous fuel imbalance. The crew changed the planned route for a landing at the Lajes Airport in the Azores. At 06:13 the right engine flamed out. At 06:26, the left engine also flamed out. However, after flying 100 miles without fuel

the crew managed to land the aircraft at the Lajes Airport at 06:45. After the landing small fires started in the main-gear wheels, they were extinguished by the crash rescue response vehicles. Only 16 passengers and 2 cabin-crew members received injuries. The aircraft suffered damage to the fuselage and to the main landing gear. The investigation uncovered a large crack in the fuel line of the right engine, it was caused by mistakes during an engine change just before the start of the flight.

The book, now in its fifth edition, offers a comprehensive treatment of Intellectual Property concepts and their applications in Indian industry. It provides a strategic framework for IP management, leading to competitive advantage for a business enterprise. Besides explaining the conceptual framework and practices of IP management, the book discusses IP as a strategic tool, its commercial exploitation and strategies for risk management of IP. Web-based material comprising chapter-wise PowerPoint Presentations (PPTs) and Multiple Choice Questions is available at www.phindia.com/sople. This book is

primarily intended as a text for postgraduate students of management, students of engineering and those who are pursuing certificate, postgraduate diploma or degree courses in IPR. In addition, professionals and corporate decision-makers should find the text valuable. **NEW TO THE FIFTH EDITION** • A new chapter has been introduced on Filing Patent Applications. • Numerous sections such as clinical research regulations, planned purification, combination therapy, alternate delivery, trade dress trademark protection, trademark caution notice, comparative advertising and trademark violation, contributory and vicarious infringement,

two statutes for farmers' rights, incremental innovation, piracy in fashion design, patentable or not patentable biotech inventions have now been incorporated in the respective chapters. • More cases/caselets have been introduced in the present edition. KEY FEATURES • Discusses IPs such as Patents, Copyrights, Trademarks, Trade Secrets, Designs, Semiconductor Circuit Layouts and Geographical Indications, etc. • Practices issues of IPRs in Cyber Space, Fashion Design, Biotechnology and Pharmaceutical industry. • Classifies systems in practice for various IPs. • Provides IPRs legal provision in

Indian context. • Includes a comprehensive glossary of important terms. • Encloses CD-ROM containing Intellectual Property Rights' laws in India as per the latest amendments.

"Abstract: The "Transportation Safety Information Report" is a compendium of selected national-level transportation safety statistics for all modes of transportation. The report presents and compares data on a monthly and quarterly basis for transportation fatalities, accidents, and injuries for the current and preceding year. The report is based on data input to the Transportation Safety Information System (TRANSIS) by

representatives in each of DOT's modal administrations and the National Transportation Safety Board."--Technical report documentation page.
