In today's classrooms, the instructional needs and developmental levels of our students are highly varied, and the conventional math whole-group model has its downsides. In contrast to the rigid, one-size-ts-all approach of conventional whole-group instruction, guided math allows us to structure our math block to support student learning in risk-free, small-group instruction. Guided math goes beyond just reorganizing your math block; it also gives you an opportunity to approach math instruction with a renewed sense of perspective and purpose. Drawing on two decades of experience, Reagan Tunstall offers step-by-step best practices to help educators revolutionize their math blocks with a student-centered approach. Whether you're a new teacher who's curious about guided math or a veteran educator looking to hone your methodology, Guided Math AMPED will transform your math block into an exciting and engaging encounter that encourages your students to see themselves as genuine mathematicians.

"Most educators have come to realize that the magic happens at the teacher table or during small-group instruction. If that's the case, Guided Math AMPED is the spell book." -JENNIFER SALYARDS, M.Ed., principal, Chamberlin Elementary, Stephenville ISD "Guided Math AMPED provides educators with a practical framework for enhancing math instruction in a way that provides research-based practices, differentiated instruction, and fun, all while strengthening relationships with students and developing math mindsets. No matter your experience or tenure in education, Guided Math AMPED will give you tips and tricks to implement in your classroom." -MATT BERES, district administrator, Wooster, OH "Guided math is one of the best things you can implement in your classroom, and Reagan Tunstall is the best to learn from, thanks to her perfect framework and step-by-step instructions. She has thought through every potential roadblock and offers concise solutions because she's

experienced it all in her own classroom." -HALEE SIKORSKI, educator, A Latte Learning "Don't you dare let another teacher borrow this book . . . you may never get it back! From the first page to the end, this book is filled with practical ideas and guidelines guaranteed to take your guided math block to the next level." -LORI MCDONALD, M.Ed., retired educator

"Endearing characters add to the sweetness and fulfillment that younger children will identify with, making this third Sam and Mrs. Bear story quite a delicious morsel." — Kirkus Reviews "Little ones will find this both a suitable precursor to nap time and a spur to be brave and act generously — just like Sam." — Booklist Mrs. Bear and Sam are baking cakes for their friends.

There are two sides to every story. A little girl finds a strange beast in the woods and takes it home as a pet. She feeds it, shows it off to her friends and gives it a hat. But that night it escapes. Then the beast tells the story of being kidnapped by the girl, who forcefed it squirrel food, scared it with a group of beasts and wrapped it in wool. Can the two beasts resolve their differences? An eye-opening story that makes you look at things from a different perspective. 'Roberton's premise is as sublime as it is simple, with a subtle message. [...] Totally delightful.' - Kirkus Reviews

Are you looking for writing prompts for your school age children? Or maybe you are just searching for writing prompts to your kids more interested in creative writing? Well look not further as we have created this book of writing prompt and story starters for kids in Grades 1-3! Why are writing prompts important for young kids? At this age, children have the creative ability to write about a range of simple issues but usually they just need a bit of inspiration on how to start writing. Hence, our story starters can help them to tap into their imagination. To reinforce a good writing habit, it is also necessary to learn writing skills at this age. When kids begin writing, they will further learn how to put their thoughts on paper and how to use words to describe concepts. Now, to get them to enjoy writing, let's help to tap into their creativity of using fun writing prompts. ENJOY!
