Vi Spy: Never Say Whatever Again Simon and Schuster

A hundred hundred seasons have turned since the Goddess banished the Small Gods to the sky, leaving the land to mankind alone. For Prince Teryk, life behind the castle walls is boring and uneventful until he stumbles upon an arcane scroll in a long-forgotten chamber. The parchment speaks of Small Gods, the fall of man, and the kingdom's savior-the firstborn child of the rightful king. It's his opportunity to prove himself to his father, the king, and assure his place in history. All he needs to do is find the man from across the sea-a man who can't possibly exist-and save mankind. But ancient magic has been put in motion by a mysterious cult determined to see the Small Gods reborn. Powerful forces clash, uncaring for the lives of mortals in their struggle to prevent the return of the banished ones, or aid in their rebirth. Named in a prophecy or not, what chance does a cocky prince who barely understands the task laid before him stand in a battle with the gods?

A Cry from Egypt Chicken House
"Girls, get back!" Ezra shouted. His face was pale, but his eyes kindled with indignation as he stood in front of the girls protectively. Ezra dropped the pitchers in the sand and his hand flashed to a dagger, concealed under his tunic. Jarah's eyes grew wide. He could be killed for carrying a dagger! Jarah was a slave in Egypt. It was a dangerous place to be. Her work was exhausting and her family was torn between the gods of the Egyptians and the God of Abraham,

Isaac, and Jacob. And her brother ... would his Ada be given in marriage to an Egyptian in the palace? Would they ever be free? Adventure, excitement, love, and faith come together when Jarah and her family find themselves at the culmination of four hundred years of history"--Page 4 of cover.

Maristella Botticini and Zvi Eckstein show that, contrary to previous explanations, this transformation was driven not by anti-Jewish persecution and legal restrictions, but rather by changes within Judaism itself after 70 CE--most importantly, the rise of a new norm that required every Jewish male to read and study the Torah and to send his sons to school. Over the next six centuries, those Jews who found the norms of Judaism too costly to obey converted to other religions, making world Jewry shrink. Later, when urbanization and commercial expansion in the newly established Muslim Caliphates increased the demand for occupations in which literacy was an advantage, the Jews found themselves literate in a world of almost universal illiteracy. From then forward, almost all Jews entered crafts and trade, and many of them began moving in search of

business opportunities, creating a worldwide Diaspora in the process. *Perijee & Me* Peachtree Publishers

The surprising and compelling story of two rival geniuses in an all-out race to decode one of the world's most famous documents—the Rosetta Stone—and their twenty-year-long battle to solve the mystery of ancient Egypt's hieroglyphs. The Rosetta Stone is one of the most famous objects in the world, attracting millions of visitors to the British museum every year, and yet most people don't really know what it is. Discovered in a pile of rubble in 1799, this slab of stone proved to be the key to unlocking a lost language that baffled scholars for centuries. Carved in ancient Egypt, the Rosetta Stone carried the same message in different languages—in Greek using Greek letters, and in Egyptian using picture-writing called hieroglyphs. Until its discovery, no one in the world knew how to read the hieroglyphs that covered every temple and text and statue in Egypt. Dominating the world for thirty centuries, ancient Egypt was the mightiest empire the world had ever known, yet everything about it—the pyramids, mummies, the Sphinx—was shrouded in mystery. Whoever was able to decipher the Rosetta Stone, and learn how to read hieroglyphs, would solve that mystery and fling open a door that had been locked for two thousand years. Two brilliant rivals set out to win that prize. One was English, the other French, at a time when England and France were enemies and the world's two great superpowers. The *Writing of the Gods* chronicles this high-stakes intellectual race in which the winner would win glory for both himself and his nation. A riveting portrait of empires both ancient and modern, this is an unparalleled look at the culture and history of ancient Egypt and a fascinating, fast-paced story of human folly and discovery unlike any other.

OMGs (OH MY GODS) Scholastic Inc. "Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that

the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.
