AUDRINA DEVAN

The Ideology of the Aesthetic University of Virginia Press
A groundbreaking and challenging examination of the social, cognitive, neurological, and biological roots of psychopathy, cruelty, and evil Borderline personality disorder, autism, narcissism, psychosis: All of these syndromes have one thing in common--lack of empathy. In some cases, this absence can be dangerous, but in others it can simply mean a different way of seeing the world. In *The Science of Evil* Simon Baron-Cohen, an award-winning British researcher who has investigated psychology and autism for decades, develops a new brain-based

theory of human cruelty. A true psychologist, however, he examines social and environmental factors that can erode empathy, including neglect and abuse. Based largely on Baron-Cohen's own research, *The Science of Evil* will change the way we understand and treat human cruelty.

On Evil Wiley-Blackwell

A trenchant analysis of sacrifice as the foundation of the modern, as well as the ancient, social order The modern conception of sacrifice is at once cast as a victory of self-discipline over desire and condescended to as destructive and archaic abnegation. But even in the Old Testament, the dual natures of sacrifice, embodying both ritual slaughter and moral rectitude, were at odds. In this analysis, Terry Eagleton makes a compelling argument that the idea of sacrifice has long been misunderstood.

Pursuing the complex lineage of sacrifice in a lyrical discourse, Eagleton focuses on the Old and New Testaments, offering a virtuosic analysis of the crucifixion, while drawing together a host of philosophers, theologians, and texts--from Hegel, Nietzsche, and Derrida to the Aeneid and The Wings of the Dove. Brilliant meditations on death and eros, Shakespeare and St. Paul, irony and hybridity explore the meaning of sacrifice in modernity, casting off misperceptions of barbarity to reconnect the radical idea to politics and revolution.

Archaeologies of the Future Yale University Press

In this work, Eagleton investigates the condition of those who apparently destroy for no reason. In the process, he poses a set of intriguing questions. Is evil really a kind of nothingness? Why should it appear so glamorous and seductive? Why does goodness seem so boring?

Why Marx Was Right Yale University Press

Why do some of the major Marxists of the twentieth century engage extensively with theology? What is the influence on their other work? This book explores the intersections between Marxism and theology in the work of Ernst Bloch, Walter Benjamin, Louis Althusser, Henri Lefebvre, Antonio Gramsci, Terry Eagleton, Slavoj Žižek and Theodor Adorno.

How to Read Literature Bloomsbury Publishing

"Neiman reclaims the vocabulary of morality--good and evil, heroism and nobility--as a lingua franca for the twenty-first century. In constructing a framework for taking responsible action on today's urgent questions, [she] reaches back to the eighteenth century, retrieving a series of values--happiness, reason, reverence, and hope--held high by Enlightenment thinkers. In this

... updated edition, Neiman reflects on how the moral language of the 2008 presidential campaign has opened up new political and cultural possibilities in America and beyond"--Back cover.

Reason, Faith, and Revolution U of Minnesota Press

Offers a thorough examination of the philosophy of literature, looking at the place of literature in human culture, what literature can be defined as and much more.

The Illusions of Postmodernism BRILL

Despite the overuse of the word in movies, political speeches, and news reports, "evil" is generally seen as either flagrant rhetoric or else an outdated concept: a medieval holdover with no bearing on our complex everyday reality. In "A Philosophy of Evil," however, acclaimed philosopher Lars Svendsen argues that evil remains a concrete moral problem: that we're all its victims, and all guilty of committing evil acts. "It's normal to be evil," he writes--the problem is, we have lost the vocabulary to talk about it. Taking up this problem--how do we speak about evil?--"A Philosophy of Evil" treats evil as an ordinary aspect of contemporary life, with implications that are moral, practical, and above all, political. Because, as Svendsen says, "Evil should neither be justified nor explained away--evil must be fought."

What a Carve Up! Penguin UK

A new account of tragedy and its fundamental position in Western culture In this compelling account, eminent literary critic

Terry Eagleton explores the nuances of tragedy in Western culture—from literature and politics to philosophy and theater. Eagleton covers a vast array of thinkers and practitioners, including Nietzsche, Walter Benjamin, and Slavoj Žižek, as well as key figures in theater, from Sophocles and Aeschylus to Shakespeare and Ibsen. Eagleton examines the political nature of tragedy, looking closely at its connection with periods of historical transition. The dramatic form originated not as a meditation on the human condition, but at moments of political engagement, when civilizations struggled with the conflicts that beset them. Tragedy, Eagleton demonstrates, is fundamental to human experience and culture.

The Dark Side of the Soul Wiley-Blackwell

DIVA concise and illuminating introduction to the elusive Thomas Aquinas, the man and the saint/div

Culture John Wiley & Sons

Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.

Thomas Aquinas John Wiley & Sons

Offers new observations on the persistence of God in modern times, and considers how the war on terror and a post-9/11 society has impacted atheism.

Tragedy Yale University Press

"Brilliant, beautifully organized, exceedingly readable."—Philip Roth World-renowned Shakespeare scholar Stephen Greenblatt

explores the playwright's insight into bad (and often mad) rulers. Examining the psyche—and psychoses—of the likes of Richard III, Macbeth, Lear, and Coriolanus, Greenblatt illuminates the ways in which William Shakespeare delved into the lust for absolute power and the disasters visited upon the societies over which these characters rule. *Tyrant* shows that Shakespeare's work remains vitally relevant today, not least in its probing of the unquenchable, narcissistic appetites of demagogues and the self-destructive willingness of collaborators who indulge them.

On Evil HMH

On the one hand, Eagleton demolishes what he calls the "superstitious" view of God held by most atheists and agnostics and offers in its place a revolutionary account of the Christian Gospel. On the other hand, he launches a stinging assault on the betrayal of this revolution by institutional Christianity. There is little joy here, then, either for the anti-God brigade -- Richard Dawkins and Christopher Hitchens in particular -- nor for many conventional believers. --Résumé de l'éditeur.

The Pope in Winter Verso Books

The golden age of cultural theory (the product of a decade and a half, from 1965 to 1980) is long past. We are living now in its aftermath, in an age which, having grown rich in the insights of thinkers like Althusser, Barthes and Derrida, has also moved beyond them. What kind of new, fresh thinking does this new era demand? Eagleton concludes that cultural theory must start thinking ambitiously again - not so that it can hand the West its legitimation, but so that it can seek to make sense of the grand narratives in which it is now embroiled.

The English Novel Penguin UK

DIV A literary master's entertaining guide to reading with deeper insight, better understanding, and greater pleasure /div

The Significance of Theory Yale University Press

Written by one of the world's leading literary theorists, this book provides a wide-ranging, accessible and humorous introduction to the English novel from Daniel Defoe to the present day. Covers the works of major authors, including Daniel Defoe, Henry Fielding, Samuel Richardson, Laurence Sterne, Walter Scott, Jane Austen, the Brontës, Charles Dickens, George Eliot, Thomas Hardy, Henry James, Joseph Conrad, Virginia Woolf, D.H. Lawrence and James Joyce. Distils the essentials of the theory of the novel. Follows the model of Eagleton's hugely popular *Literary Theory: An Introduction* (Second Edition, 1996).

Criticism of Heaven Yale University Press

Holy Terror is a profound and timely investigation of the idea of terror, drawing upon political, philosophical, literary, and theological sources to trace a genealogy from the ancient world to the modern day. Rather than add to the mounting pile of political studies of terrorism, Terry Eagleton offers here a metaphysics of terror with a serious historical perspective. Writing with remarkable clarity and persuasive insight he examines a concept whose cultural impact predates 9/11 by millennia. From its earliest manifestations in rite and ritual, through the French Revolution to the 'War on Terror' of today, terror has been regarded with both horror and fascination.

Eagleton examines the duality of the sacred (both life-giving and death-dealing) and relates it, via current and past ideas of freedom, to the idea of terror itself. Stretching from the cult of Dionysus to the thought of Jacques Lacan, the book takes in en

route ideas of God, freedom, the sublime, and the unconscious. It also examines the problem of evil, and devotes a concluding chapter to the idea of tragic sacrifice and the scapegoat. Written by one of the world's foremost cultural critics, Holy Terror is a provocative and ambitious examination of one of the most urgent issues of our time.

Across the Pond: An Englishman's View of America Bloomsbury Publishing

DIV In this witty, accessible study, the prominent Marxist thinker Terry Eagleton launches a surprising defense of the reality of evil, drawing on literary, theological, and psychoanalytic sources to suggest that evil, no mere medieval artifact, is a real phenomenon with palpable force in our contemporary world. In a book that ranges from St. Augustine to alcoholism, Thomas Aquinas to Thomas Mann, Shakespeare to the Holocaust, Eagleton investigates the frightful plight of those doomed souls who apparently destroy for no reason. In the process, he poses a set of intriguing questions. Is evil really a kind of nothingness? Why should it appear so glamorous and seductive? Why does goodness seem so boring? Is it really possible for human beings to delight in destruction for no reason at all? /div

The Risk Theatre Model of Tragedy Dalkey Archive Press

A wickedly funny take on life under the Thatcher government by the prize-winning author of *Middle England*. It is the 1980s and the Winshaw family are getting richer and crueller by the year: Newspaper-columnist Hilary gets thousands for telling it like it isn't. Henry's turning hospitals into car parks. Roddy's selling art in return for sex. Down on the farm Dorothy's squeezing every last pound from her livestock. Thomas is making a killing on the

stock exchange; and Mark is selling arms to dictators. But once their hapless biographer Michael Owen starts investigating the family's trail of greed, corruption and immoral doings, the time growing ripe for the Winshaws to receive their comeuppance . . . _____ 'A sustained feat of humour, suspense and polemic, full

of twists and ironies' Hilary Mantel, Sunday Times 'A riveting social satire on the chattering and all-powerful upper classes' Time Out 'Big, hilarious, intricate, furious, moving' Guardian Written with his signature wit, Jonathan Coe's unmissable new novel, The Proof of My Innocence is available to pre-order now!
