offers an engaging and interactive approach to covering the Common Core State Standards. This Grade 4 student edition is organized into individual chapter booklets and comes with a student resource book. **Go Math! Grade 5** Houghton Mifflin In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to

outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and

neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from

history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the

better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing

<p>Rule; and so much more. Winningly personal, insightful, and even life-changing, <i>Grit</i> is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on</p>	<p>success” (The Wall Street Journal). <i>Go Math!</i> Houghton Mifflin Go Math! offers an engaging and interactive approach to covering the Common Core State Standards. This Grade 2 student edition is organized into individual chapter booklets and comes with a student</p>	<p>resource book. <i>Go Math! Grade 4 Go Math!</i> GO Math! offers and engaging and interactive approach to covering the Common Core State Stangards. This Grade 1 student edition is organized into individual chapter booklets and comes with a student resource book.</p>
