The Color Of Love reveals the power of racial hierarchies to infiltrate our most intimate relationships. Delving far deeper than previous sociologists have into the black Brazilian experience, Elizabeth Hordge-Freeman examines the relationship between racialization and the emotional life of a family. Based on interviews and a sixteen-month ethnography of ten working-class Brazilian families, this provocative work sheds light on how families simultaneously resist and reproduce racial hierarchies. Examining race and gender, Hordge-Freeman illustrates the privileges of whiteness by revealing how those with "blacker" features often experience material and emotional hardships. From parental ties, to sibling interactions, to extended family and romantic relationships, the chapters chart new territory by revealing the connection between proximity to whiteness and the distribution of affection within families. Hordge-Freeman also explores how black Brazilian families, particularly mothers, rely on diverse strategies that reproduce, negotiate, and resist racism. She frames efforts to modify racial features as sometimes reflecting internalized racism, and at other times as responding to material and emotional considerations. Contextualizing their strategies within broader narratives of the African diaspora, she examines how Salvador's inhabitants perceive the history of the slave trade itself in a city that is referred to as the "blackest" in Brazil. She argues that racial hierarchies may orchestrate family relationships in ways that reflect and reproduce racial inequality, but black Brazilian families actively negotiate these hierarchies to assert their citizenship and humanity.

So You Want to Talk About Race Zondervan

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent

any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

A legacy of the Trans-Atlantic slave trade, Brazil is home to the largest number of African descendants outside of Africa and the greatest number of domestic workers in the world. Drawing on ten years of interviews and ethnographic research, Elizabeth Hordge-Freeman examines the lives of 'adopted daughters': the marginalized informal domestic workers who endure slave-like conditions under the guise of adoption. Hordge-Freeman traces a nuanced yet disturbing pattern of how adopted daughters experience the coexistence of extreme forms of exploitation while experiencing seemingly loving familial interactions and affective relationships. Focusing on the humanity of her respondents, *Second-Class Daughters* navigates the realities of their structural constraints in the context of pervasive norms of morality, gratitude and kinship. This powerful book clarifies the link between contemporary and colonial forms of exploitation, while highlighting the resistance and agency of informal domestic workers.

The issues that make monogamous dating daunting for people of color—shaming and exclusion by white partners, being fetishized, having realities of everyday racism ignored—occur in polyamorous relationships too, and trying "not to see race" only makes it worse. To make polyamorous communities inclusive, we must all acknowledge our part in perpetuating racism and listen to people of color. *Love's Not Color Blind* puts forward the framework—through research, anecdotal testimony, and analogy—for understanding, identifying, and confronting racism within polyamorous communities.

"With narrative fluency and deftness, constructed on a bedrock of prodigious archival research, HoSang's book provides a sorely needed genealogy of the 'color-blind consensus' that has come to define race and recode racism within US politics, law and public policy. This will be a book that lasts."--Nikhil Pal Singh, author of *Black is a Country: Race and the Unfinished Struggle for Democracy* "An important analysis of both the exact contours of white supremacy and the failures of electoral anti-racism."--

George Lipsitz, author of *The Possessive Investment in Whiteness* "Racial Propositions brilliantly documents the history of race in California's post-World War II ballot initiatives to show that nothing is what it seems when it comes to race and politics in America's ethnoracial frontier. Daniel HoSang provides readers with a sharply focused interdisciplinary lens through which to see how the language and politics of political liberalism veil what are ultimately racialized ballot initiatives. If California is a harbinger for the rest of the country, then HoSang's tour de force is required reading for anyone interested how the United States will negotiate diversity in the 21st century."--Tomás R. Jiménez, author of *Replenished Ethnicity: Mexican Americans, Immigration, and Identity*

High rates of intermarriage, especially with Whites, have been viewed as an indicator that Asian Americans are successfully "assimilating," signaling acceptance by the White majority and their own desire to become part of the White mainstream. Comparing two types of Asian American intermarriage, interracial and interethnic, Kelly H. Chong disrupts these assumptions by showing that both types of intermarriages, in differing ways, are sites of complex struggles around racial/ethnic identity and cultural formations that reveal the salience of race in the lives of Asian Americans. Drawing upon extensive qualitative data, Chong explores how interracial marriages, far from being an endpoint of assimilation, are a terrain of life-long negotiations over racial and ethnic identities, while interethnic (intra-Asian) unions and family-making illuminate Asian Americans' ongoing efforts to co-construct and sustain a common racial identity and panethnic culture despite interethnic differences and tensions. Chong also examines the pivotal role race and gender play in shaping both the romantic desires and desirability of Asian Americans, spotlighting the social construction of love and marital choices. Through the lens of intermarriage, *Love Across Borders* offers critical insights into the often invisible racial struggles of this racially in-between "model minority" group -- particularly its ambivalent negotiations with whiteness and white privilege -- and on the group's social incorporation process and its implications for the redrawing of color boundaries in the U.S. *How Racism Undermined the War on Poverty* Seal Press #1 NEW YORK TIMES BESTSELLER • From the National Book Award-winning author of *Stamped from the Beginning* comes a "groundbreaking" (Time) approach to understanding and uprooting racism and inequality in our society—and in ourselves. BOOKS OF THE YEAR BY The New York Times Book Review • Time • NPR • The Washington Post • Shelf Awareness • Library Journal • Publishers Weekly • Kirkus Reviews Antiracism is a transformative concept that reorients and reenergizes the conversation about racism—and, even more fundamentally, points us toward liberating new ways of thinking about ourselves and each other. At its core, racism is a powerful system that creates false hierarchies of human value; its warped logic extends beyond race, from the way we regard people of different ethnicities or skin colors to the way we treat people of different sexes, gender identities, and body types. Racism intersects with class and culture and geography and even changes the way we see and value ourselves. In *How to Be an Antiracist*, Kendi takes readers through a widening circle of antiracist ideas—from the most basic concepts to visionary possibilities—that will help readers see all forms of racism clearly, understand their poisonous consequences, and work to oppose them in our systems and in ourselves. Kendi weaves an electrifying combination of ethics, history, law, and science with his own personal story of awakening to antiracism. This is an essential work for anyone who wants to go beyond the awareness of racism to the next step: contributing to the formation of a just and equitable society. Praise for *How to Be an Antiracist* “Ibram X. Kendi’s new book, *How to Be an Antiracist*, couldn’t come at a better time. . . . Kendi has gifted us with a book that is not only an essential instruction manual but also a memoir of the author’s own path from anti-black racism to anti-white racism and, finally, to antiracism. . . . *How to Be an Antiracist* gives us a clear and compelling way to approach, as Kendi puts it in his introduction, ‘the basic struggle we’re all in, the struggle to be fully human and to see that others are fully human.’ ”—NPR “Kendi dissects why in a society where so few people consider themselves to be racist the divisions and inequalities of racism remain so prevalent. *How to Be an Antiracist* punctures the myths of a post-racial America, examining what racism really is—and what we should do about it.”—Time

Mixed Race Relationships New Society Publisher

A photographic celebration of the love and relationships of queer people of color by a former New York Times multimedia journalist “Thank you, Jamal Jordan, for showing the world what true love looks like.”—Billy Porter *Queer Love in Color* features photographs and stories of couples and families across the United States and around the world. This singular, moving collection offers an intimate look at what it means to live at the intersections of queer and POC identities today, and honors an inclusive vision of love, affection, and family across the spectrum of gender, race, and age.

For every dollar owned by the average white family in the United States, the average family of color has less than a dime. Why do people of color have so little wealth? *The Color of Wealth* lays bare a dirty secret: for centuries, people of color have been barred by laws and by discrimination from participating in government wealth-building programs that benefit white Americans. This accessible book—published in conjunction with one of the country’s leading economics education organizations—makes the case that until government policy tackles disparities in wealth, not just income, the United States will never have racial or economic justice. Written by five leading experts on the racial wealth divide who recount the asset-building histories of Native Americans, Latinos, African Americans, Asian Americans, and European Americans, this book is a uniquely comprehensive multicultural history of American wealth. With its focus on public policies—how, for example, many post-World War II GI Bill programs helped whites only—*The Color of Wealth* is the first book to demonstrate the decisive influence of government on Americans’ net worth.

Widely heralded as a “masterful” (Washington Post) and “essential” (Slate) history of the modern American metropolis, Richard Rothstein’s *The Color of Law* offers “the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation” (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “virtually indispensable” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

In 1863 black communities owned less than 1 percent of total U.S. wealth. Today that number has barely budged. Mehrsa Baradaran pursues this wealth gap by focusing on black banks. She challenges the myth that black banking is the solution to the racial wealth gap and argues that black communities can never accumulate wealth in a segregated economy.

The aftereffect of the book is the enhanced capacity for diversity, which comes from examining and redefining key parts of popular history, language and perceptions learned since childhood. Written with an impartial view of the past, this text shows how current ideas, perspectives, fears and realities came to be. By examining common global human attitudes and emotions in specific survival situations over time, it shows how groups and individuals have become who they are. The standard premises used to solve contemporary social problems have lacked insight. In studying the terms that we use to define our world we find clarity by understanding the mindsets that created them. The resulting new understanding can socially bring us into the 21st century. This is my planet where I live with my people. Thoughts From Our Readers: “This book is clearly about why a divided America does not get along and how it can.” -A. Cottingham, Program Manager and Teen Life Coach for Student Services; a character development and self-esteem program for resident teens in Northeast Ohio.

Why It's So Hard for White People to Talk About Racism The New Press

When did America become obsessed with racial differences? After decades of progress healing real-world prejudices and anger, we suddenly live in an America where we’re expected to view every single thing through the lens of race. Children are taught the politics of racial resentment and fear in schools. Films, novels, and even comic books are judged by the color of their protagonists—and their adherence to the latest “woke”

messaging. Corporate America has universally adopted the slogan “Black Lives Matter” in every piece of marketing, those words serving as a talisman to protect them from Twitter mobs and outraged activists. And the 1619 Project and similar pieces of academic propaganda seek to redefine and undermine the very notion of America as a unified and great nation. Meanwhile, organized BLM advances a radical and dangerous political agenda which, if enacted, would mean the end of the American experiment as we know it. The nation faces a pivotal moment: will we reject the Race Crazies, or let them destroy us?

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou’s debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother’s side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. “*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James Baldwin From the Paperback edition.

PARADE’s Best Books to Read this Summer “A rich historical novel that illustrates why connection is more important and more vital than ever.” -New York Times bestselling author Lisa See Daniel Abe, a young doctor in Chicago, is finally coming back to Hawai’i. He has his own reason for returning to his childhood home, but it is not to revisit the past, unlike his Uncle Koji. Koji lives with the memories of Daniel’s mother, Mariko, the love of his life, and the scars of a life hard-lived. He can’t wait to see Daniel, who he’s always thought of as a son, but he knows the time has come to tell him the truth about his mother, and his father. But Daniel’s arrival coincides with the awakening of the Mauna Loa volcano, and its dangerous path toward their village stirs both new and long ago passions in their community. Alternating between past and present—from the day of the volcano eruption in 1935 to decades prior—*The Color of Air* interweaves the stories of Daniel, Koji, and Mariko to create a rich, vibrant, bittersweet chorus that celebrates their lifelong bond to one other and to their immigrant community. As Mauna Loa threatens their lives and livelihoods, it also unearths long held secrets simmering below the surface that meld past and present, revealing a path forward for them all.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to “model minorities” in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. “Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases.” -- National Book Review “Generous and empathetic, yet usefully blunt . . . it’s for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action.” -- Salon (Required Reading)
